Learning in Nature Kelli Nigh, 2021-07-01 There is love on these pages love for nature the cosmos the body s deep knowing and students Learning in Nature focuses on the lives of 6 drama students who gathered weekly at a community arts center during their childhood and adolescence Before each play rehearsal the students explored contemplative practices such as meditation yoga breathing and visualization After these warm up sessions the rehearsals were dynamic and highly creative So what might happen if these students went out into nature and experimented with the same practices What would happen over a year long period if they stopped the noise of life and just listened deeply just looked and inhaled phenomenologically Returning the experience of learning to nature the book tells the story of this group it tells of their lives and their growing understanding of consciousness and does so through the complex and rich perspectives of holistic teaching and learning Praise for Learning in Nature Learning in Nature is a rich resource for holistic educators at all levels of education It offers a wealth of insights and ideas theoretical perspectives and practical activities This writing sings as it invites us to be alive to our senses our imaginations our intellects and intuitions alive and in the moment in the fullness of our humanity Mary Beattie Professor Emerita OISE University of Toronto In this sensitive and moving inquiry Kelli Nigh begins with a constellation of academic references that bear directly on aspects of ourselves that come into play in our life transformations images felt senses dreams imagination meditation symbolism and mind body experience Against this thoroughly woven backdrop the dramas of six young participants who share in Nigh s inquiry unfold The inquiry is long over years There is another crucial aspect of it The landscapes and weather of Nature itself bluffs skies water trees wildlife

flowers become the scenery through which all the participants stories gain significance Nigh with gentle insight and attention to detail demonstrates the evolution of what essentially becomes their imaginal learning in nature Throughout this play of sharing in nature Nigh includes glimpses of her own evolution of self as she inter folds her experiences with those of the others As Nature cycles through the seasons so cycle the lives of these individuals Nigh s academic and lyrical passages will inspire educators to widen teaching methods to include what it is beyond our everyday thought that significantly influences what we learn Vivian Darroch Lozowski Professor Emerita University of Toronto *The Holistic Curriculum, Third Edition* John P.
