Risk Management for the Future Jan Emblemsvåg, 2012-04-25 A large part of academic literature, business literature as well as practices in real life are resting on the assumption that uncertainty and risk does not exist. We all know that this is not true yet a whole variety of methods, tools and practices are not attuned to the fact that the future is uncertain and that risks are all around us. However, despite risk management entering the agenda some decades ago it has introduced risks on its own as illustrated by the financial crisis. Here is a book that goes beyond risk management as it is today and tries to discuss what needs to be improved further. The book also offers some cases.

Covert Processes at Work Robert J. Marshak, 2006-08 Outlines methodologies for diagnosing and dealing with the hidden or covert factors that can subtly sabotage even the most meticulously planned change processes.

Destroying Sanctuary Sandra L. Bloom, Brian Farragher, 2010-10-28 For the last thirty years the nation's mental health and social service systems have been under relentless assault with dramatically rising costs and the fragmentation of service delivery rendering them incapable of ensuring the safety, security and recovery of their clients. The resulting organizational trauma both mirrors and magnifies the trauma-related problems their clients seek relief from. Just as the lives of people exposed to chronic trauma and abuse become organized around the traumatic experience so too have our social service systems become organized around the recurrent stress of trying to do more under greater pressure. They become crisis-oriented, authoritarian, disempowered and demoralized, often living in the present moment haunted by the past and unable to plan for the future. Complex interactions among traumatized clients, stressed staff, pressured organizations and a social and economic climate that is often hostile to recovery efforts recreate the very experiences that have proven so toxic to clients in the first place. Healing is possible for these clients if they enter helping protective environments yet toxic stress has destroyed the sanctuary that our systems are designed to provide. This thoughtful, impassioned critique of business as usual begins to outline a vision for transforming our mental health and social service systems. Linking trauma theory to organizational function, Destroying Sanctuary provides a framework for creating truly trauma-informed services. The organizational change method that has become known as the Sanctuary Model lays the

groundwork for establishing safe havens for individual and organizational recovery The goals are practical improve clinical outcomes increase staff satisfaction and health increase leadership competence and develop a technology for creating and sustaining healthier systems Only in this way can our mental health and social service systems become empowered to make a more effective contribution to the overall health of the nation Destroying Sanctuary is a stirring call for reform and recovery required reading for anyone concerned with removing the formidable barriers to mental health and social services from clinicians and administrators to consumer advocates Extraordinary Groups Geoffrey M. Bellman, Kathleen D.

Ryan, 2009-08-13 Two leading experts present a new approach to help teams nurture extraordinary experiences and excel Occasionally we participate in a group that inspires us to describe the experience as powerful or simply wow Why are some teams described in such exceptional terms while most are not Bellman and Ryan argue that an extraordinary group emerges when a group experience satisfies two or more core needs that members intuitively bring to any group they join Based on extensive research the book presents the Group Needs Model to help anyone nurture extraordinary experiences in their groups and achieve outstanding results Introduces a new approach for creating extraordinary experiences and results in teams Identifies the key characteristics that define exceptional teams Describes the Group Needs Model for encouraging extraordinary experiences and team success A timely resource for anyone who leads groups including HR and OD professionals managers executives nonprofit managers and directors virtual teams leaders and trainers
