A Primer of Brain Tumors Gail Segal,1998 **A Primer of Brain Tumors** Gail Segal,1996 A Primer of Brain Tumors,1991 *A Primer of Brain Tumors* ,2004 **The Internet for Surgeons** Jeff W. Allen,2012-12-06 Advances in surgery have reached an exponential scale and the changes of the last decade of the twentieth century have become common practice Imagination and foresight are the more visible standards for professional appointments than ever before The fiber optic cable computer and Internet are the workhorses of this sea change and surgeons must master all of them to remain intellectually and technically up to date There can be no better explanation for the genuine need for this book The transmission of knowledge and technical skills from one generation to another has been a common practice in surgery for nearly 200 years Past experiences of surgeons have focused upon an understanding of disease states a prompt diagnosis of a correctable illness and its appropriate evaluation and most importantly the technical conduct of an operation where indicated to provide relief to and or cure of the patient Fascinatingly this little book tends to fulfill that same role with respect to the newly emerged technology of the Internet computation and telemedicine In essence this book seeks and to a remarkable degree achieves the transmission of both knowledge and technical skill in an easily usable and clearly written format Jeff W Allen has provided an educational orientation with which he is familiar both as a recent pupil and now as a teacher of surgical procedures This is not unlike the kind of education that has gone on between trainee surgeons and master surgeons around the world In this case Dr Cancer and the Family Life Cycle Theresa A. Veach,Donald R. Nicholas,Marci A. Barton,2013-05-13 This book uses current psychosocial literature in combination with empirical research and clinical accounts of family adaptation to help professionals and families cope with the impact of cancer It is broad in scope and includes families in any life cycle i e single adults children adolescents and later life This book with its solid theoretical foundation will be especially beneficial to any professional who is helping a family to adapt to cancer *Best Practices in School Neuropsychology* Daniel C.
