A Study of Place in Short Fiction by James Joyce, William Faulkner and Sherwood Anderson Abd Alkareem Atteh, 2021-04-15 This book sheds light on the modernist short story cycle and its pivotal role in representing and depicting place With an ever changing attitude towards place and what it means modernist writers found in the short story cycle a suitable form to depict this sense of change Drawing from a range of recent theories of the short story cycle and theories of place this book highlights in a comparative way the role of the emergent short story genre and its seminal role in grasping and capturing a fragmented world through

the various short and interconnected narratives and narrative strategies a short story cycle can accommodate As such this text contributes to the study of the modernist short story cycle American literature Irish literature comparative literature and theories and studies of place **A User's Guide to Postcolonial and Latino Borderland Fiction** Frederick Luis

Aldama,2010-01-01 Why are so many people attracted to narrative fiction How do authors in this genre reframe experiences people and environments anchored to the real world without duplicating real life In which ways does fiction differ from reality What might fictional narrative and reality have in common if anything By analyzing novels such as Arundhati Roy's The God of Small Things Amitav Ghosh's The Glass Palace Zadie Smith's White Teeth and Hari Kunzru's The Impressionist along with selected Latino comic books and short fiction this book explores the peculiarities of the production and reception of postcolonial and Latino borderland fiction Frederick Luis Aldama uses tools from disciplines such as film studies and cognitive science that allow the reader to establish how a fictional narrative is built how it functions and how it defines the boundaries of concepts that appear susceptible to limitless interpretations Aldama emphasizes how postcolonial and Latino borderland narrative fiction authors and artists use narrative devices to create their aesthetic blueprints in ways that loosely guide their readers imagination and emotion In A User's Guide to Postcolonial and Latino Borderland Fiction he argues that the study of ethnic identified narrative fiction must acknowledge its active engagement with world narrative fictional genres storytelling modes and techniques as well as the way such fictions work to move their audiences **The Short Story**

Charles May,2013-10-14 The short story is one of the most difficult types of prose to write and one of the most pleasurable to read From Boccaccio's Decameron to The Collected Stories of Reynolds Price Charles May gives us an understanding of the history and structure of this demanding form of fiction Beginning with a general history of the genre he moves on to focus on the nineteenth century when the modern short story began to come into focus From there he moves on to later nineteenth century realism and early twentieth century formalism and finally to the modern renaissance of the form that shows no signs of abating A chronology of significant events works and figures from the genre's history notes and references and an extensive bibliographic essay with recommended reading round out the volume *A Companion to the American Short Story* Alfred Bendixen,James Nagel,2020-08-24
