Martinez, Kevin Latham, 2013-10-18 This book focuses on the processes of documenting the Beijing Olympics ranging from the visual television and film to radio and the written word and the meanings generated by such representations What were the key stories and how were they chosen What was dramatised Who were the heroes Which clashes were highlighted and how What sorts of stories did the notion of human interest generate Did politics take a backseat or was the topic highlighted repeatedly Thus the focus was not on the success or failure of this event but on the ways in which the Olympics Games as international and historic events are memorialised by observers The key question that this book addresses is How far would the Olympic coverage fall into the patterns of representation that have come to dominate Olympic reporting and what would China as a discursive subject bring to these patterns This book was previously published as a special issue of *Sport in Society* **Livres d'étrennes**, 1980

Beijing 2008: Preparing for Glory J.A. Mangan, Dong Jinxia, 2013-09-13 Beijing 2008 Preparing for Glory Chinese Challenge in the Chinese Century brings together international scholars with an interest in sport and politics and sinologists with an interest in China past present and future to explore global reaction to the Beijing Olympics China's anticipated moment of glory on the world stage The Beijing Olympics was first and foremost a political act of assertion It was also a statement of national intent the culmination of ideological effort going back to 1949 and the outcome of political social cultural and economic change From the moment of the birth of the New China sport has been viewed as a means of internal and external projection illustrating the capacity of the system and people to more than hold their own with those of other nations In short sport has been the chosen stage on which the Chinese perform in pursuit of world recognition respect and esteem This assertion is not hard to understand China's century of humiliation at the hands of first the West and then Japan remains a traumatic

experience Beijing 2008 was to assist the restoration of China's national self-esteem. He Zhenliang, Chairman of the IOC Commission for the Culture of Olympic Education, has remarked pointedly that the most significant outcome of the Beijing Games will be the elevation of the self-confidence and sense of pride of the Chinese people. Beijing 2008 was an act of political self-renewal on the world stage. This Collection demonstrates that sport is inseparable from politics. This book was previously published as a special issue of the International Journal of the History of Sport.

Geopolitics - English version Kévin Veyssi re, 2024-07-01

Why have the Olympic Games always been a geopolitical event in their own right? How did the Olympic Games in Mexico City in 1968, Moscow in 1980 and Barcelona in 1992 reflect international tensions despite the Olympics' political neutrality? In 2024, what are the stakes for France in the Paris Olympics against the backdrop of the Israeli-Palestinian and Russian-Ukrainian conflicts? Why have new powers such as China, Qatar and Saudi Arabia made the organization of the Games an objective of their influence strategy? In his fourth book, K vin Veyssi re invites sports fans, geography buffs and the curious to explore the history of our world through the Olympic Games. From Athens in 1896 to Paris in 2024, he unveils the most striking geopolitical backdrops to a theater of 206 nations where sporting performances and power games come together.
