Gerald Kennedy, Scott Peeples, Caleb Doan, 2019 This handbook is currently in development with individual articles publishing online in advance of print publication At this time we cannot add information about unpublished articles in this handbook however the table of contents will continue to grow as additional articles pass through the review process and are added to the site Please note that the online publication date for this handbook is the date that the first article in the title was published online      The Art of Authorial Presence Gary Richard Thompson, 1993 The critical literary world has spent a wealth of thought and words on the question of Hawthorne himself Where does he stand in his works In history In literary tradition In this major new study G R Thompson recasts the Hawthorne question to show how authorial presence in the writer's works is as much a matter of art as the writing itself The Hawthorne who emerges from this masterful analysis is not as has been supposed identical to the provincial narrator of his early tales instead he is revealed to be the skillful manipulator of that narrative voice an author at an ironic distance from the tales he tells By focusing on the provincial tales as they were originally conceived as a narrative cycle Thompson is able to recover intertextual references that reveal Hawthorne's preoccupation with framing strategies and variations on authorial presence The author shows how Hawthorne deliberately constructs sentimental narratives only to deconstruct them Thompson's analysis provides a new aesthetic context for understanding the whole shape of Hawthorne's career as well as the narrative ethical and historical issues within individual works Revisionary in its view of one of America's greatest authors The Art of Authorial Presence also offers invaluable insight into the problems of narratology and historiography ethics and psychology romanticism and idealism and the cultural myths of America      Encyclopedia of American Literature Manly, Inc., 2013-06 Susan Clair Imbarrato Carol Berkin Brett Barney Lisa Paddock Matthew J Bruccoli George Parker Anderson Judith S      The Latest Early American

Literature R. C. De Prosopo, 2016-01-21 *The Latest Early American Literature* according to readers for the University of Delaware Press is a collection of polemics and manifestoes In it R C De Prosopo bids to follow in the footsteps of the two rare early Americanist dissenters whom Philip F Gura once distinguished as prophets without honor in the field William Spengemann and Michael Colacurcio The book contends that a supposedly retired nationalist modernist telos continues to reign in most of the latest scholarship and even more influentially in all of the current literary histories and anthologies no matter how expansive in gender ethnic racial and hemispheric inclusiveness they profess to be Old teloi in particular that old American exceptionalist one can be cunning Updating and expanding upon essays written over the past thirty years De Prosopo proposes not only negatively to critique how the latest scholarly receptions of early American literature differ insignificantly from the earlier ones but positively to propose how a transnationalist concession that as a neocolonial culture America s lags behind that of Europe might advance post modern historiography by radically repositioning the past as no longer the present s diachronic predecessor but to quote Lyotard s semiotics its synchronic differend Closer to earth De Prosopo tries at the same time to remain mindful of the pedagogical imperative that ultimately to save the texts of early American literature will require making them legible to average non specialist never to become specialist undergraduate general education students To facilitate this he introduces in the concluding section of *The Latest Early American Literature* what will probably be taken as its most radical intervention the redefinition of Edgar Allan Poe as an early American writer

**The Lovecraftian Poe** Sean Moreland, 2017-05-24

*Poe and the Idea of Music* Charity McAdams, 2017-10-24 Edgar Allan Poe often set the scenes of his stories and poems with music angels have the heartstrings of lutes spirits dance and women speak with melodic voices These musical ideas appear to mimic the ways other authors particularly Romanticists used music in their works to represent a spiritual ideal artistic realm Music brought forth the otherworldly and spoke to the possible transcendence of the human spirit Yet Poe's music differs from these Romantic notions in ways that although not immediately perceptible in each individual instance cohere to invert Romantic idealism For Poe artistic transcendence is impossible the metaphysical realm is unreachable and humans cannot perceive anything but their own failure of spirit In this book I show how we can look at Poe's poems and stories on the whole to discover this and in doing so unpack some of Poe's mysticism along the way

Robisch, 2009-05-28. The wolf is one of the most widely distributed canid species historically ranging throughout most of the Northern Hemisphere. For millennia it has also been one of the most pervasive images in human mythology art and psychology. *Wolves and the Wolf Myth in American Literature* examines the wolf's importance as a figure in literature from the perspectives of both the animal's physical reality and the ways in which writers imagine and portray it. Author S. K. Robisch examines more than two hundred texts written in North America about wolves or including them as central figures. From this foundation he demonstrates the wolf's role as an archetype in the collective unconscious its importance in our national culture and its ecological value. Robisch takes a multidisciplinary approach to his study employing a broad range of sources myths and legends from around the world symbology classic and popular literature films the work of scientists in a number of disciplines human psychology and field work conducted by himself and others. By combining the fundamentals of scientific study with close readings of wide ranging literary texts Robisch astutely analyzes the correlation between actual living wolves and their representation on the page and in the human mind. He also considers the relationship between literary art and the natural world and argues for a new approach to literary study an ecocriticism that moves beyond anthropocentrism to examine the complicated relationship between humans and nature.
