Weak David Sinclair,2023-02-21 In the war of the wolves and the sheep what if the sheep started winning Are human wolves a keystone species of the human race If they were hunted to extinction leaving no one to winnow the mediocre mob what would happen to humanity The narrator in the movie Idiocracy was on point when he said Evolution does not necessarily reward intelligence With no natural predators to thin the herd it began to simply reward those who reproduced the most and left the intelligent to become an endangered species The same is true of strength Without the strong the weak will reproduce more and more and eventually there will only be weakness mediocrity an inability an impossibility to achieve anything great and glorious The strangest war is being fought It s a war to destroy human intelligence and human strength This war says that wolves must be exterminated or made into non wolves by taming them And then they can become pets You know just like dogs You put a collar on them You put a leash on them You take them for walks You tickle their tummy You make them perform tricks You make them roll over and play dead They are wholly dependent on you They have separation anxiety when you re not there They have to make the intelligent stupid They have to make the strong weak But they don t know what they re doing The task is not to tame wolves It s to make them smarter and stronger It s to sublimate them Without the wolves there is only decadence and degeneration Without the wolves to control mediocrity mediocrity grows exponentially Why did the Roman Empire fall It was because all the Roman wolves had gone Only mediocrities were left They could do nothing to hold back the barbarian tide Civilizations always end when the wolves vanish New cultures begin when new wolves start a new lupine era full of strength and vigor Are you a lone wolf Are you one of the wolf pack Or are you part of the gang trying to tame all wolves Do you want to see the empire fall When it no longer has any strength left when mediocrities are in charge of everything then the end is certain As Wilfred Owen said What passing bells for these who die as cattle Was it for this the clay grew tall

The Tiger That Swallowed the Boy John Simons,2012-11-30 This book asks an important question If you

were born in rural England in 1837 and died in 1901 and never travelled more than thirty miles in any direction would you have seen a hippopotamus before you died The answer is surprisingly yes In fact the roads of England were thronged with all manner of creatures There were even exotic butterfly farms Kangaroos hopped around the lawns of stately homes tigers prowled the backstreets of the East End a tapir terrorised the people of Rochdale an angry cassowary pursued a Lord as he was out for his daily ride a boa constrictor got loose in Tunbridge Wells This book is the first to explore the full and surprising extent of the exotic animal trade in nineteenth century England and its colonies It combines deep and original scholarly research with a lively style aimed at the non academic reader It looks at zoological gardens travelling menageries private menageries circuses and natural history museums to show exotic animals played a key part in the Imperial project and in the project to ensure that leisure was educational It shows how this trade was intimately connected with the tides of Empire and how as Germany rose one area of competition in which Britain came off worst was the scramble for elephants

City Wolves Dorris Heffron, 2010-03-02. A moving historical tale and remarkable literary achievement, *City Wolves* is the story of Canada's first woman veterinarian, Meg Wilkinson. Born in 1870 on a farm near Halifax, Meg's childhood experience with wolves makes her determined to be a veterinarian. Supported by the seemingly eccentric Randolph Oliphant and inspired by the ancient Inuit who first turned wolves into sled dogs, Meg surpasses the horse doctors at vet college and becomes the notorious dog doctor of Halifax in the 1890s. After her unusual marriage ends abruptly in Boston, Meg travels to Vancouver and up to the Yukon seeking the legendary sled dogs. Arriving at the beginning of the Klondike gold rush, she makes her way amidst Mounties, dance hall girls, Klondike Kings, mushers, priests and swindlers.
