Citadel On The Channel The Royal Presidio Of Santa Barbara Its Founding And Construction 1782-1798:

Santa Barbara's Royal Presidio Jarrell Jackman, 2023-01-30 Unique in California history and beloved by visitors and residents alike the city of Santa Barbara boasts three great historical properties the Mission the Courthouse and the Presidio Least known is the Presidio This book fills this vacuum beginning with the story of its adobe construction between 1784 and 1790 This itself was preceded by the construction of three other Spanish forts Monterey 1770 San Diego 1773 and San Francisco 1776 All four Presidios helped secure the Spanish settlement of Alta or Upper California as the mixed racial soldiers and their families became the first Spanish settlers of the region The Santa Barbara Presidio was the last Spanish fort founded and built not only in California but in all of Spanish North America an area that in its day covered much of the southern portion of the modern United States from Florida to California This book celebrates the Santa Barbara Presidio's place in not only American history but also that of Spain and honors the community that came together to ensure its preservation and faithful reconstruction **Citadel on the Channel** Richard S. Whitehead, 1996 **Women and the**

Conquest of California, 1542-1840 Virginia M. Bouvier, 2004-08 Studies of the Spanish conquest in the Americas traditionally have explained European Indian encounters in terms of such factors as geography timing and the charisma of individual conquistadores Yet by reconsidering this history from the perspective of gender roles and relations we see that gender ideology was a key ingredient in the glue that held the conquest together and in turn shaped indigenous behavior toward the conquerors This book tells the hidden story of women during the missionization of California It shows what it was like for women to live and work on that frontier and how race religion age and ethnicity shaped female experiences It explores the suppression of women's experiences and cultural resistance to domination and reveals the many codes of silence regarding the use of force at the missions the treatment of women indigenous ceremonies sexuality and dreams Virginia Bouvier has combed a vast array of sources including mission records journals of explorers and missionaries novels of chivalry and oral histories and has discovered that female participation in the colonization of California was greater and earlier than most historians have recognized Viewing the conquest through the prism of gender Bouvier gives new meaning to the settling of new lands and attempts to convert indigenous peoples By analyzing the participation of women both Hispanic and Indian in the maintenance of or resistance to the mission system Bouvier restores them to the narrative of the conquest colonization and evangelization of California And by bringing these voices into the chorus of history she creates new harmonies and dissonances that alter and enhance our understanding of both the experience and meaning of conquest

The Archaeology of Ethnogenesis Barbara L. Voss, 2015-03-31 This pioneering work of historical archaeology sheds light on the genesis of the Californios a community of military settlers who forged a new identity on the northwest edge of Spanish North America The revised edition includes a new preface from the author looking at the development of ethnogenesis theory since the first edition of this book Children of Coyote, Missionaries of Saint Francis Steven W. Hackel, 2017-01-15

Recovering lost voices and exploring issues intimate and institutional this sweeping examination of Spanish California illuminates Indian struggles against a confining colonial order and amidst harrowing depopulation To capture the enormous challenges Indians confronted Steven W Hackel integrates textual and quantitative sources and weaves together analyses of disease and depopulation marriage and sexuality crime and punishment and religious economic and political change As colonization reduced their numbers and remade California Indians congregated in missions where they forged communities under Franciscan oversight Yet missions proved disastrously unhealthful and coercive as Franciscans sought control over Indians beliefs and instituted unfamiliar systems of labor and punishment Even so remnants of Indian groups still survived when Mexican officials ended Franciscan rule in the 1830s Many regained land and found strength in ancestral cultures that predated the Spaniards arrival At this study s heart are the dynamic interactions in and around Mission San Carlos Borromeo between Monterey region Indians the Children of Coyote and Spanish missionaries soldiers and settlers Hackel places these local developments in the context of the California mission system and draws comparisons between California and other areas of the Spanish Borderlands and colonial America Concentrating on the experiences of the Costanoan and Esselen peoples during the colonial period Children of Coyote concludes with an epilogue that carries the story of their survival to the present day *Power, Political Economy, and Historical Landscapes of the Modern World* Christopher R.

DeCorse,2019-04-15 This interdisciplinary volume brings together a richly substantive collection of case studies that examine European indigene interactions economic relations and their materialities in the formation of the modern world Research has demonstrated the extent and complexity of the varied local economic and political systems and diverse social formations that predated European contact These preexisting systems articulated with the expanding European economy and in doing so shaped its emergence Moving beyond the confines of national or Atlantic histories to examine regional systems and their historical trajectories on a global scale the studies within this volume draw examples from the Caribbean Mesoamerica North America South America Africa and South Asia While the contributions are rooted in substantive studies from different world areas their overarching aim is to negotiate between global and local frames revealing how the expanding world system entangled the non Western world in global economies yet did so in ways that were locally articulated varied and often non European in their expression **La Purísima Concepción** Michael R. Hardwick,2015-05-11 In two centuries La Pur sima Concepci n went from a fledgling frontier mission to a renowned California State Historic Park Once home to many Spanish soldiers settlers and hundreds of Chumash Indians La Pur sima held the seat of the California Mission government under Father Mariano Payeras It withstood catastrophic events including widespread disease in early years and a great Southern California earthquake in 1812 Emerging from ruins for the last time in 1934 after restoration by the Civilian Conservation Corps structures appear today as they did in the early nineteenth century The uniquely restored California Mission complex operates as a state park in a pastoral setting Author and archivist Michael R Hardwick chronicles the story of La Pur sima

and the resilient people and culture that made a lasting influence **The Spanish Frontier in North America** David J. Weber, 2009-03-17 Winner of the 1993 Western Heritage Award given by the National Cowboy Hall of Fame here is a definitive history of the Spanish colonial period in North America Authoritative and colorful the volume focuses on both the Spaniards impact on Native Americans and the effect of North Americans on Spanish settlers Splendid New York Times Book Review Converting California James A. Sandos, 2004-01-01 This book is a compelling and balanced history of the California missions and their impact on the Indians they tried to convert Focusing primarily on the religious conflict between the two groups it sheds new light on the tensions accomplishments and limitations of the California mission experience James A Sandos an eminent authority on the American West traces the history of the Franciscan missions from the creation of the first one in 1769 until they were turned over to the public in 1836 Addressing such topics as the singular theology of the missions the role of music in bonding Indians to Franciscan enterprises the diseases caused by contact with the missions and the Indian resistance to missionary activity Sandos not only describes what happened in the California missions but offers a persuasive explanation for why it happened Saints and Citizens Lisbeth Haas, 2014 Saints and Citizens is a bold new excavation of the history of Indigenous people in California in the late eighteenth and nineteenth centuries showing how the missions became sites of their authority memory and identity Shining a forensic eye on colonial encounters in Chumash Luiseño and Yokuts territories Lisbeth Haas depicts how native painters incorporated their cultural iconography in mission painting and how leaders harnessed new knowledge for control in other ways Through her portrayal of highly varied societies she explores the politics of Indigenous citizenship in the independent Mexican nation through events such as the Chumash War of 1824 native emancipation after 1826 and the political pursuit of Indigenous rights and land through 1848 Deep California Craig Chalquist, 2008-06 California has been invaded by three imperial powers Spain Mexico and the United States Deep California examines in depth the lingering psychological traumas and motifs emanating from that long history of conquest These unhealed events have not been left in the past they recur symbolically again and again growing in intensity as the overbuilt land and its distracted occupiers unconsciously but definitively demonstrate that environmental justice and social justice can no longer be thought of as separate Pacing crusaders and colonizers from county to county along El Camino Real Deep California studies the lingering impact of continuous oppression of people and places as images and themes of displacement and exile filter down into architecture agriculture politics art culture psychology and even folklore and dream Yet within the shadows cast over California also dwell resistance humor irony tragedy and hope for more heartfelt and soulful connections to this story rich land of the sundown sea History is an inadequate term for such a sweeping and deep discovery of how the past informs the present This work deserves to be read widely by all Californians and Americans and taken to heart and the hard lessons applied to all places we inhabit on this stolen land Lesley Thomas author of Flight of the Goose Far Eastern Press 2005 A monumental and much needed study in depth of the conquest occupation traumatization and
