People in Cities Edward Krupat, 1985-09-13 An analysis of current research and theory about the ways in which cities affect people

Global Age-friendly Cities World Health Organization, 2007 The guide is aimed primarily at urban planners but older citizens can use it to monitor progress towards more age friendly cities At its heart is a checklist of age friendly features For example an age friendly city has sufficient public benches that are well situated well maintained and safe as well as sufficient public toilets that are clean secure accessible by people with disabilities and well indicated Other key features of an age friendly city include well maintained and well lit sidewalks public buildings that are fully accessible to people with disabilities city bus drivers who wait until older people are seated before starting off and priority seating on buses enough reserved parking spots for people with disabilities housing integrated in the community that accommodates changing needs and abilities as people grow older friendly personalized service and information instead of automated answering services easy to read written information in plain language public and commercial services and stores in neighbourhoods close to where people live rather than concentrated outside the city and a civic culture that respects and includes older persons

The Local State Cynthia Cockburn, 1977 Based on research in Lambeth

Developing Indicators and Monitoring Systems for Environmentally Livable Cities in the People's Republic of China Asian Development Bank, 2014-04-01 As an important step in developing a methodology for environmentally sustainable economic development the study explores the concept of environmental livability for the urban centers of the People's Republic of China The study produced the environmental livability index a practical tool that can demonstrate the present past and future dimensions of a livable city and the mechanism of its practical application The mock software techniques created multidimensional city specific assessments allowing the promotion of urban livability agenda among policy makers urban managers and the general public and the comparison and ranking of cities based on prioritized environmental investments and their evaluation

Experiencing Cities Mark Hutter, 2015-12-22 This extraordinary text for undergraduate urban students is a reflection of Mark Hutter's academic interests in urban sociology and his life long passion for experiencing city life His deep academic roots in the Chicago School of Sociology help inform and appreciate the variety of urban structures and processes and their effect on the everyday lives of people living in cities This text however extends the Chicago School perspective by combining its traditions with a social psychological perspective derived from symbolic interaction and also with a macro level examination of social organization social change stratification and power in the urban context informed by

political economy This entirely new 3rd Edition has a global outlook on city life and a visual presentation unmatched among books in this genre *Gods of the City* Robert A. Orsi, 1999-07-22 Fascinating insights into modern urban religious practice make Orsi's collection a must read Publishers Weekly The essays provide insight into the cultural creativity reinterpretation of worship and religious ingenuity of city people over the last 50 years Library Journal At last a major dissection of the great mystery in modern American life how religion and spirituality prospered amidst industrialization urbanization and rampant technological change after 1880 Jon Butler Yale University Urban religion strikes many as an oxymoron How can religion thrive in the alienated secular fast paced and materialistic world of the modern Western city The authors in this collection believe that cities not only can provide the settings for religious expression but also are material to the experiences which give rise to those religious expressions In this book they explore the distinctly urban forms of religious experience and practice that have developed in relation to the spaces social conditions and history of American cities **Cities and People** Mark Girouard, 1985 London Paris Venice New York Rome Constantinople the cities of the world have captured man's imagination for generations In this lively sumptuously illustrated book the author of the best selling *Life In The English Country House* takes us on a tour of cities and their people through the centuries Focusing on carefully selected cities at crucial periods in their history Mark Girouard looks at their architecture and design in the light of the needs of the men and women who lived in them Muslims Cities Then and Now Susan Douglass, 1995-12 The City Reader Richard T. Sires and Dams Qualifying Under the National Poultry Improvement Plan, 1942-43 ,1946 This publication provides some information of a nation wide survey to determine the importance of butter as a source of vitamin A in the diet of the people of the United States The Empathic City Nimish Bitoria, Giselle Sebag, Hamish Robertson, 2023-06-30 This book has a primary focus on inclusions for solutions to problems and not just more on the nature of the current and emerging problems that most other competing titles present The book is also a true global representation of challenges and opportunities that have been encountered addressed and critiqued from a wide variety of contributors rather than academicians per se In doing so rather than focusing on techno centric prowess and associated case studies of the west as is the case in most competing titles the book also equally emphasizes upon the vulnerabilities and mitigating solutions being developed and tested in the under developed and developing nations Besides this the book also acquires an Equity oriented focus and hints upon sustainable inclusive modes of shaping our built environment throughout the contributing chapters The

book is also unique in the way it combines the chosen themes to provide a holistic coverage of the broader determinants of urban health and wellbeing thus being better positioned to address SDG3 within one compact volume The book also differs from a typical conference proceeding or a non peer reviewed book since the book s highly theme specific approach is curated by a scientific peer review committee to carefully maintain diversity of contributions to the book Cities have a profound power to support or hinder human health and wellbeing in countless ways Achieving greater health equity has emerged in recent years as a key priority and consideration when designing cities to promote health and wellbeing although there is a dearth of evidence and practical examples of research translation to guide cities and communities The book accordingly exemplifies a pluralistic approach to achieving urban health equity which recognises and addresses critical aspects of geography age race background socioeconomic status disability gender etc With interdisciplinary science clearly pointing to the role of the neighbourhood environment as one of the most important health determinants this book will undoubtedly lead the next generation of urban health actors to build contextually responsive equitable empathic cities to benefit residents around the world The book rather than being focused purely on academic propositions for building equitable cities offers a unique multi stakeholder perspective by collaborating with the International Society for Urban Health s 18th International Conference on Urban Health This unique collaboration allows access to hundreds of scientists architects urbanists multilaterals policymakers non profit leaders and grassroots organizers The book captures the voices and concerns of such diverse cross sectoral professionals and showcases findings that turn evidence into action and impact in communities around the world Chapter 14 is available open access under a Creative Commons Attribution 4 0 International License via link [springer.com](https://www.springer.com)

Extension Service Circular ,1935 **The Forest and the City** Cecil C. Konijnendijk,2018-03-12

Amsterdamse Bos Bois de Boulognes Epping Forest Hong Kong s country parks Stanley Park throughout history cities across the world have developed close relationships with nearby woodland areas In some cases cities have even developed and in some cases are promoting a distinct forest identity This book introduces the rich heritage of these city forests as cultural landscapes and shows that cities and forests can be mutually beneficial Essential reading for students and researchers interested in urban sustainability and urban forestry this book also has much wider appeal For with city forests playing an increasingly important role in local government sustainability programs it provides an important reference for those involved in urban planning and decision making public affairs and administration and even public health From providers of livelihoods to healthy recreational environments and from places of inspiration and learning to a source of conflict the book presents examples of city forests from around the world These cases clearly illustrate how the social and cultural development of towns and forests has often gone hand in hand They also reveal how better understanding of city forests as distinct cultural and social phenomena can help to strengthen synergies both between cities and forests and between urban society and nature
