Cities in Transition Peter R. Gluck, Richard J. Meister, 1979 **Perspectives on Urban Infrastructure** National Research Council, Division of Behavioral and Social Sciences and Education, Commission on Behavioral and Social Sciences and Education, Committee on National Urban Policy, 1984-02-01 In this provocative volume distinguished authorities on urban policy expose the myths surrounding today's infrastructure crisis in urban public works Five in depth papers examine the evolution of the public works system the limitations of urban needs studies the financing of public works projects the impact of politics and how technology is affecting the types of infrastructures needed for tomorrow's cities **A Companion to American Technology** Carroll Pursell, 2008-04-30 A Companion to American Technology is a groundbreaking collection of original essays that analyze the hard to define phenomenon of technology in America 22 original essays by expert scholars cover the most important features of American technology including developments in automobiles television and computing Analyzes the ways in which technologies are organized such as in the engineering profession government medicine and agriculture Includes discussions of how technologies interact with race gender class and other organizing structures in American society **People and Politics in Urban America, Second Edition** Robert W. Kweit, Mary G. Kweit, 2013-11-26 First Published in 1998 Approximately 75 percent of Americans live in cities and surrounding suburbs and the characteristics of those cities inescapably affect the quality of their lives This book examines the extent to which these Americans use the political process to control the characteristics of life in their metropolises In addition this second edition revision places great emphasis on the role of political leaders while recognising the interdependence between those leaders and various interests in the city **Bibliographie Internationale de Sociologie 1980**, 1982 Each Bibliography lists and annotates the most important works published during the year They are arranged by topic and indexed by author subject and geographic location **Technological Utopianism in American Culture** Howard P. Segal, 2005-11-07 Featuring twenty five writers in all this book includes Howard P Segal's acclaimed work on utopian visionaries *Social Planning in Urban Planning* Rosalind G. Bauchum, 1983 Teardown Gordon Young, 2021-02-23 After living in San Francisco for fifteen years journalist Gordon Young found himself yearning for his Rust Belt hometown Flint Michigan the birthplace of General Motors and the star of the Michael Moore documentary *Roger Me* Hoping to rediscover and help a place that had once boasted one of the world's highest per capita income levels but had become one of the country's most impoverished and dangerous cities he returned to Flint with the intention of buying a house What he found was a place of stark contrasts and dramatic stories where an exotic dancer could afford a lavish mansion speculators scooped up cheap houses by the dozen on eBay and arson was often the quickest route to neighborhood beautification He also uncovered the misguided policies flawed leadership and unforgiving economic trends that lead to disasters like the Flint water crisis Updated with a new preface Young skillfully blends personal memoir historical inquiry and interviews with Flint residents constructing a vibrant tale of a once thriving

city still fighting despite overwhelming odds to rise from the ashes Hard hitting insightful and often painfully funny Teardown reminds us that cities are ultimately defined by the people who live there Back cover *Selling the Lower East Side* Christopher Mele,2000 The Lower East Side of Manhattan is rich in stories of poor immigrants who flocked there in the late nineteenth and early twentieth centuries of beatniks hippies and artists who peopled it mid century and of the real estate developers and politicians who have always shaped what is now termed the East Village Today the musical Rent plays on Broadway to a mostly white and suburban audience MTV exploits the neighborhood s newly trendy squalor in a film promotion and on the Internet a cyber soap opera and travel related Web pages lure members of the middle class to enjoy a commodified and sanitized version of the neighborhood In this sweeping account Christopher Mele analyzes the political and cultural forces that have influenced the development of this distinctive community He describes late nineteenth century notions of the Lower East Side as a place of entrenched poverty ethnic plurality political activism and low culture that elicited feelings of revulsion and fear among the city s elite and middle classes The resulting and ongoing struggle between government and residents over affordable and decent housing has in turn affected real estate practices and urban development policies Selling the Lower East Side recounts the resistance tactics used by community residents as well as the impulse on the part of some to perpetuate the image of the neighborhood as dangerous romantic and bohemian clinging to the marginality that has been central to the identity of the East Village and subverting attempts to portray it as new and improved Ironically this very image of urban grittiness has been appropriated by a cultural marketplace hungry for new fodder Mele explores the ways that developers media executives and others have coopted the area s characteristics analyzing the East Village as a style provider where what is being marketed is difference The result is a visionary look at how political and economic actions transform neighborhoods and at what happens when a neighborhood is what is being consumed

History of Urban Planning in the United States Martin Gellen,1983 *Taming Manhattan* Catherine McNair,2014-11-03 From 1815 to 1865 as city blocks encroached on farmland to accommodate Manhattan s exploding population prosperous New Yorkers developed new ideas about what an urban environment should contain ideas that poorer immigrants resisted As Catherine McNair shows taming Manhattan came at the cost of amplifying environmental and economic disparities

Governance of Europe's City Regions Tassilo Herrschel,Peter Newman,2003-08-27 Governance of Europe s City Regions is a structured overview of current debates on cities and regions It clarifies contemporary debates about regionalism and contributes new insights into the theory of new regionalism **People & Politics in Urban America** Robert W. Kweit,Mary G. Kweit,2013-10-31 This revised textbook for courses on urban politics challenges the notion that the field is dominated by political economy showing that despite the undeniable importance of economic issues citizens do play a significant part in urban politics **Bay Cities and Water Politics** Sarah S. Elkind,1998 Combining insights from urban western and environmental history Elkind examines the ways that people s reactions to their natural surroundings drive both demand for

improved public services and political reform She traces public works development in the Gilded Age and Progressive Era to explain how these programs united each city with its suburban neighbors creating new political entities and allowing Boston and Oakland to appropriate rural resources and thus overcome the environmental limits to their continued growth and prosperity She also shows how when the power of regionalism is turned to urban development environmental and social costs are sometimes overlooked *Journal of Contemporary Urban Affairs Vol.4 No. 1., 2020* Senem Zeybekoglu Sadri, Dr.; Islam Hamdi El-Ghonaimy, Dr.; Begüm Erçevik Sönmez, Dr; Adedotun Ayodele Dipeolu, Dr., Onoja Matthew Akpa, Dr., Akinlabi Joseph Fadamiro, Dr; Ezgi Tok, Dr., Merve Guroglu Agdas, M.Sc, Mete Korhan Ozkok, M.Sc, Azem Kuru, M.Sc; Musilimu Adeyinka ADETUNJI, Dr; Antonios Tsiligiannis, M.Sc; Maria A EL HELOU, PhD candidate,2020-06-30 City Urban Transformation and the Right to the City Senem Zeybekoglu Sadri Dr 1 10 PDF HTML Street Furniture Influence in Revitalizing the Bahraini Identity Islam Hamdi El Ghonaimy Dr 11 20 PDF HTML A Research on Urban Identity Sample of Kadikoy District Beg m Er evik S nmez Dr 21 32 PDF HTML Mitigating Environmental Sustainability Challenges and Enhancing Health in Urban Communities The Multi functionality of Green Infrastructure Adedotun Ayodele Dipeolu Dr Onoja Matthew Akpa Dr Akinlabi Joseph Fadamiro Dr 33 46 PDF HTML Socio Psychological Effects of Urban Green Areas Case of Kırklareli City Center Ezgi Tok Dr Merve Guroglu Agdas M Sc Mete Korhan Ozkok M Sc Azem Kuru M Sc 47 60 PDF HTML Automobile Trips to School and Safety Perspectives of Unplanned Lokoja Metropolis in North Central Nigeria Musilimu Adeyinka ADETUNJI Dr 61 70 PDF HTML Why isn t urban development sustainable An institutional approach to the case of Athens Greece Antonios Tsiligiannis M Sc 71 78 PDF HTML Towards A Post Traumatic Urban Design That Heals Cities Inhabitants Suffering From PTSD Maria A EL HELOU PhD candidate 79 90 PDF HTML **Learning cities in a knowledge based society**,2010 The Urban Mosaic of Post-Socialist Europe Sasha Tsenkova,Zorica Nedovic-Budic,2006-12-02 The book explores urban dynamics in post socialist Europe 15 years after the fall of communism The urban mosaic metaphor expresses the complexity diversity and uniqueness of the processes and spatial outcomes in post socialist cities The book examines the urban development and the policy and planning processes that have resulted from the socio economic political and institutional transformations characterizing the move to markets and democracy The emerging urban phenomena are illustrated with in depth case studies sensitive to historical themes cultural issues and the socialist legacy Cities featured in the book include Kazan St Petersburg Moscow Warsaw Prague Komarno Budapest Belgrade Bucharest Sofia and Tirana The edited volume is organized around the following four themes the driving forces of post socialist change urban processes and spatial change housing and retail sector transformation and urban planning and policy responses **Uniting a Divided City** Jo Beall,Owen Crankshaw,Susan Parnell,2014-10-14 For many Johannesburg resembles the imagined spectre of the urban future Global anxieties about catastrophic urban explosion social fracture environmental degradation escalating crime and violence and rampant consumerism alongside grinding poverty are projected onto this city as a microcosm of things to
