Proposed Changes to the Coastal Barrier Resources System ,1988 *Cities on the Beach* ,1987 **Coastal Hazard Management** Norbert P. Psuty,Douglas D. Ofiara,2002 As with most shorelines around the world New Jersey beaches are slowly but inexorably being eroded threatening coastal structures and development In some years more sand is deposited than removed but all of the state s monitoring devices show that sea level is gradually rising and pushing the New Jersey shoreline inland The shore is a valuable resource and its natural cultural and economic attractions draw a multitude of permanent and temporary residents each year extending housing and commercial development onto areas that were once swampland Not surprisingly development at the water s edge has been accompanied by an increasing exposure to the natural hazards of the coastal zone erosion flooding and wind damage In this book Norbert Psuty and Douglas Ofiara incorporate perspectives from the areas of coastal sciences economics public policy and land use planning in creating a systematic plan for coastal management and protection It has been more than a decade since New Jersey developed the nation s first state shore protection plan and this volume provides a timely evaluation of its achievements and future challenges This self contained book provides all of the relevant theories models and examples so the reader will not need to refer to any other literature to gain an understanding of the issues and policies surrounding shore protection It is the authoritative handbook for practitioners and policy makers in many fields including coastal science and management and engineering as well as public policy and economics **Report to Congress, Coastal Barrier Resources System: Main report** United States. National Park Service. Coastal Barriers Study Group,1988 Floodplain Management in the United States: Full report ,1992 **Coastal Erosion and Erosion Management** United States. Congress. House. Catastrophic Coastal Storms David R. Godschalk, David J. Brower, Timothy Beatley, 1989 As people cluster on the coast in increasing numbers coastal populations become more vulnerable to severe damage from catastrophic coastal storms The authors contend that current public policy has proved unable to cope with the growing problem and in response they present a comprehensive analysis of coastal storm hazards standard policy approaches and promising new means of managing coastal growth Catastrophic Coastal Storms offers a solution to the policy problem by proposing a merger of hazard mitigation with development management basing this on extensive surveys of at risk coastal locations and case studies of post hurricane recovery Starting with the local level of government and proceeding to state and federal levels the authors propose a strategy for overcoming the formidable obstacles to safeguarding the shoreline population and its structures from hurricanes and other severe storms *Managing Community Growth* United States.
