Cities Under Stress The Fiscal Crises Of Urban America:

Cities Under Stress Robert W. Burchell, David Listokin, 1981
Ward, 2018-02-01 Across the world's most industrialized economies the financial crisis of 2007 caused a contraction of state budgets and stimulated attempts to reform debt burdened governments In the United States a system of fiscal federalism meant this turn towards austerity took a uniquely fragmented and geographically diverse form Drawing on case studies of recent urban restructuring **Cities under Austerity** challenges dominant understandings of austerity as a distinctly national condition and develops a conceptualization of the new US urban condition that reveals its emerging political and social fault lines The contributors empirically detail the restructuring that is taking place across the United States its underlying logics its local impacts and the ongoing processes of challenge and resistance that influences how it is shaping the lives of citizens The new American political economy it is argued needs to be understood as composed of a mosaic of urban experiences that both build upon a differentiated foundation and creates new divergences As state reforms continue to interact with this diverse urban political economy of the United States this collection provides a state of the art survey on how postcrisis convergences and divergences in urban economies and urban politics have laid the foundations for the new political geography of the United States

Fiscal, Economic, and Social Crises Confronting American Cities United States. Congress. Senate. Committee on Banking, Housing, and Urban Affairs, 1993

City Politics, Pearson eText Dennis R. Judd, 2015-09-16 This text provides a foundation for understanding the politics of America's cities and urban regions Praised for the clarity of its writing careful research and distinctive theme that urban politics in the United States has evolved as a dynamic interaction among governmental power private actors and a politics of identity **City Politics** remains a classic study of urban politics

Handbook of Local Government Fiscal Health Helisse Levine, Jonathan B. Justice, Eric Anthony Scorsone, 2012 Fiscal health of local governments and municipalities has remained an important issue since the crises of the 1970s in places like New York Philadelphia and Cleveland More recently the bankruptcy of Orange County California raised the possibility of a different type of financial failure than earlier ones The beginning of the 21st century has witnessed two major economic bubbles including the dotcom and housing bubbles These economic cycles combined with increasing health care pension and other structural costs continue to challenge the fiscal viability of many jurisdictions In particular the economic and financial crisis of 2007 2008 is likely to result in potentially serious fiscal challenges for local jurisdictions

Effects of the 1980 Census on Community Development Funding Harold L. Bunce, Sue G. Neal, John L. Gardner, 1983

The Politics of Capital Investment Carolyn T. Adams, 1988-11-02 This book examines both the politics and products of the public investment process in one of America's largest cities It broadens the scope of contemporary debates on the political economy of urban development to include not only large scale redevelopment projects but also neighborhood facilities such as schools parks and libraries Showing the share of investments that went into Philadelphia's downtown versus

its residential neighborhoods from 1950 to 1980 the author challenges the widely held view that public investment patterns simply reflect political pressures from pro development groups Instead she shows that a city s decision to build often hinges on the availability and the sources of investment capital *The Routledge Companion to Urban Regeneration* Michael E. Leary,John McCarthy,2013-10-30 In the past decade urban regeneration policy makers and practitioners have faced a number of difficult challenges such as sustainability budgetary constraints demands for community involvement and rapid urbanization in the Global South Urban regeneration remains a high profile and important field of government led intervention and policy and practice continue to adapt to the fresh challenges and opportunities of the 21st century as well as confronting long standing intractable urban problems and dilemmas This Companion provides cutting edge critical review and synthesis of recent conceptual policy and practical developments within the field With contributions from 70 international experts within the field it explores the meaning of urban regeneration in differing national contexts asking questions and providing informed discussion and analyses to illuminate how an apparently disparate field of research policy and practice can be rendered coherent drawing out common themes and significant differences The Companion is divided into six sections exploring globalization and neo liberal perspectives on urban regeneration emerging reconceptualizations of regeneration public infrastructure and public space housing and cosmopolitan communities community centred regeneration and culture led regeneration The concluding chapter considers the future of urban regeneration and proposes a nine point research agenda This Companion assembles a diversity of approaches and insights in one comprehensive volume to provide a state of the art review of the field It is a valuable resource for both advanced undergraduate and postgraduate students in Urban Planning Built Environment Urban Studies and Urban Regeneration as well as academics practitioners and politicians

Cities Under Stress Robert W. Burchell,David Listokin,1981 Cities can no longer meet service demands Highways and water supply systems are increasingly inadequate the quality of local health care and education has never been lower These are problems which are germane to cities new or old growing or declining Sunbelt or Frostbelt Thirty top urban affairs and municipal finance experts focus on the issues and approaches to the major financial problems facing cities in the 1980s In these invited essays demographic changes regional economic shifts inflation voter resistance and changing intergovernmental roles are viewed each for their impact on the capacity of cities to finance public services The book is essential reading for city managers business administrators public officials planners planning board members and those interested in the future viability of American cities **The Metropolitan Revolution** Jon C. Teaford,2006 In this absorbing history Jon C Teaford traces the dramatic evolution of American metropolitan life At the end of World War II the cities of the Northeast and the Midwest were bustling racially and economically integrated areas frequented by suburban and urban dwellers alike Yet since 1945 these cities have become peripheral to the lives of most Americans Edge cities are now the dominant centers of production and consumption in post suburban America Characterized by sprawling freeways corporate

parks and homogeneous malls and shopping centers edge cities have transformed the urban landscape of the United States Teaford surveys metropolitan areas from the Rust Belt to the Sun Belt and the way in which postwar social racial and cultural shifts contributed to the decline of the central city as a hub of work shopping transportation and entertainment He analyzes the effects of urban flight in the 1950s and 1960s the subsequent growth of the suburbs and the impact of financial crises and racial tensions He then brings the discussion into the present by showing how the recent wave of immigration from Latin America and Asia has further altered metropolitan life and complicated the black white divide Engaging in original research and interpretation Teaford tells the story of this fascinating metamorphosis **Energy and Cities** John Byrne, Daniel Rich,

MacKenzie, 2011-08-15 The early 21st century has not been kind to California's reputation for good government But the Golden State's governance flaws reflect worrisome national trends with origins in the 1970s and 1980s Growing voter distrust with government a demand for services but not taxes to pay for them a sharp decline in enlightened leadership and effective civic watchdogs and dysfunctional political institutions have all contributed to the current governance malaise Until

recently San Diego California America's 8th largest city seemed immune to such systematic governance disorders This sunny beach town entered the 1990s proclaiming to be America's Finest City but in a few short years its reputation went from Futureville to Enron by the Sea In this eye opening and telling narrative Steven P Erie Vladimir Kogan and Scott A MacKenzie mix policy analysis political theory and history to explore and explain the unintended but largely predictable failures of governance in San Diego Using untapped primary sources interviews with key decision makers and public documents and benchmarking San Diego with other leading California cities Paradise Plundered examines critical dimensions of San Diego's governance failure a multi billion dollar pension deficit a chronic budget deficit inadequate city services and infrastructure grandiose planning initiatives divorced from dire fiscal realities an insulated downtown redevelopment program plagued by poorly crafted public private partnerships and for the metropolitan region inadequate airport and port facilities a severe underinvestment in firefighting capacity despite destructive wildfires and heightened Mexican border security concerns Far from a sunny story of paradise and prosperity this account takes stock of an important but understudied city its failed civic leadership and poorly performing institutions policymaking and planning Though the extent of these failures may place San Diego in a league of its own other cities are experiencing similar challenges and political changes As such this tale of civic woe offers valuable lessons for urban scholars practitioners and general readers concerned about the future of their own cities

Community Power in a Postreform City Eugene B. Rumer, Dmitrii Trenin, Huasheng Zhao, 2007 The eminent contributors to this volume offer a four part analysis of Central Asia's new importance in world affairs since the disintegration of the Soviet Union

Handbook on Shrinking Cities Pallagst, Karina, Bontje, Marco, Cunningham Sabot, Emmanuèle, Fleschurz, René, 2022-10-18 Compelling and engaging this Handbook on Shrinking Cities addresses the fundamentals of shrinkage exploring its causal factors the ways in which planning strategies and policies are steered and innovative solutions for revitalising shrinking cities Chapters cover topics of governance greening and right sizing and regrowth laying the relevant groundwork for the Handbook's proposals for dealing with shrinkage in the age of COVID 19 and beyond

Urban Politics Stephen J. McGovern, 2016-02-16 Steve McGovern's Urban Politics A Reader examines the changing structure of political power in cities through the lens of historical development accompanied with brief explorations of pertinent public policy issues Having studied and taught urban politics for over 20 years McGovern Haverford College foregrounds his approach with a discussion of cities in a global era and then divides the material into five parts or themes the formation of city politics city politics under stress the politics of urban revitalization the changing dynamics of urban politics and visions of contemporary urban politics He expands the scope of his exploration by integrating literature that is not commonly observed in urban politics texts i.e. works by journalists as well as scholars and by including debates about political power in both big and smaller cities
