Cities and Social Change in Early Modern France Philip Benedict,2005 The major changes experienced by France's cities over the period from the end of the middle ages to the eve of the Revolution are explored by six French and North American historians

A Social and Cultural History of Early Modern France William Beik,2009-05-14 A magisterial history of French society between the end of the middle ages and the Revolution by one of the world's leading authorities on early modern France Using colorful examples and incorporating the latest scholarship William Beik conveys the distinctiveness of early modern society and identifies the cultural practices that defined the lives of people at all levels of society Painting a vivid picture of the realities of everyday life he reveals how society functioned and how the different classes interacted In addition to chapters on nobles peasants city people and the court the book sheds new light on the Catholic church the army popular protest the culture of violence gendered relations and sociability This is a major new work that restores the ancien r gime as a key epoch in its own right and not simply as the prelude to the coming Revolution

A Concise History of France Roger Price,2014-02-06 This is the most up to date and comprehensive study of French history available ranging from the early middle ages to the present Amongst its central themes are the relationships between state and society the impact of war competition for power and the ways in which power has been used Whilst taking full account of major figures such as Philip Augustus Henri IV Louis XIV Napoleon and de Gaulle it sets their activities within the broader context of changing economic and social structures and beliefs and offers rich insights into the lives of ordinary men and women This third edition has been substantially revised and includes a new chapter on contemporary France a society and political system in crisis as a result of globalisation rising unemployment a failing educational system growing social and racial tensions corruption the rise of the extreme right and a widespread loss of confidence in political leaders

The Early Modern City 1450-1750 Christopher R. Friedrichs, 2014-06-06 A pioneering text which covers the urban society of early modern Europe as a whole Challenges the usual emphasis on regional diversity by stressing the extent to which cities across Europe shared a common urban civilization whose major features remained remarkably constant throughout the period After outlining the physical political religious economic and demographic parameters of urban life the author vividly depicts the everyday routines of city life and shows how pitifully vulnerable city dwellers were to disasters epidemics warfare and internal strife

Law, City, and King Michael P. Breen, 2007 An in depth examination of political activities in early modern France that opens up new perspectives on the local workings of the French state and the experiences of those who participated in it Law City and King provides important new insights into the transformation of political participation and consciousness among urban notables who bridged the gap between local society and the state in early modern France Breen's detailed research shows how the educated socially middling *avocats* who staffed Dijon's municipality used law patronage and the other resources at their disposal to protect the city council's authority and their own participation in local governance Drawing on juridical and historical authorities the *avocats* favored a traditional conception of limited absolute monarchy increasingly at odds with royal ideology Despite their efforts to resist the monarchy's growth the expansion of royal power under Louis XIV eventually excluded Dijon's *avocats* from the French state In opening up new perspectives on the local workings of the French state and the experiences of those who participated in it Law City and King recasts debates about absolutism and early modern state formation By focusing on the political alienation of notables who had long linked the crown to provincial society Breen explains why Louis XIV's collaborative absolutism did not endure At the same time the book's examination of lawyers political activities and ideas provides insights into the transformation of French political culture in the decades leading up to the French Revolution Michael P Breen is Associate Professor of History and Humanities at Reed College in Portland Oregon

The French Civil Wars, 1562-1598 R. J. Knecht, 2014-07-22 The French Wars of Religion tore the country apart for almost fifty years They were also part of the wider religious conflict between Catholics and Protestants which raged across Europe during the 16th century This new study by a major authority on French history explores the impact of these wars and sets them in their full European context

European Cities and Towns Peter Clark, 2009-01-30 Since the Middle Ages Europe has been one of the most urbanized continents on the planet and Europe's cities have firmly stamped their imprint on the continent's economic social political and cultural life This study of European cities and towns from the fall of the Roman Empire to the present day looks both at regional trends from across Europe and also at the widely differing fortunes of individual communities on the roller coaster of European urbanization Taking a wide

angled view of the continent that embraces northern and eastern Europe as well as the city systems of the Mediterranean and western Europe it addresses important debates ranging from the nature of urban survival in the post Roman era to the position of the European city in a globalizing world The book is divided into three parts dealing with the middle ages the early modern period and the nineteenth and twentieth centuries with each part containing chapters on urban trends the urban economy social developments cultural life and landscape and governance Throughout the book addresses key questions such as the role of migration including that of women and ethnic minorities the functioning of competition and emulation between cities as well as issues of inter urban cooperation the different ways civic leaders have sought to promote urban identity and visibility the significance of urban autonomy in enabling cities to protect their interests against the state and not least why European cities and towns over the period have been such pressure cookers for new ideas and creativity whether economic political or cultural

Class and State in Ancien Regime France David Parker, 2002-11 David Parker's challenging interpretation presents a broad in depth study of the economic social ideological and political foundations of French Absolutism This stimulating reassessment runs contrary to much revisionist historiography

Claiming the City Shelton Stromquist, 2023-02-14 How workers fought for municipal socialism to make cities around the globe livable and democratic and what the lessons are for today Winner of the International Labor History Association ILHA 2023 Book of the Year Award for labor history For more than a century municipal socialism has fired the imaginations of workers fighting to make cities livable and democratic At every turn propertied elites challenged their right to govern Prominent US labor historian Shelton Stromquist offers the first global account of the origins of this new trans local socialist politics He explains how and why cities after 1890 became crucibles for municipal socialism Drawing on the colorful stories of local activists and their social democratic movements in cities as diverse as Broken Hill Christchurch Malm Bradford Stuttgart Vienna and Hamilton OH the book shows how this new urban politics arose Long governed by propertied elites cities in the nineteenth century were transformed by mass migration and industrialization that tore apart their physical and social fabric Amidst massive strikes and faced with epidemic disease fouled streets unsafe water decrepit housing and with little economic security and few public amenities urban workers invented a local politics that promised to democratize cities they might themselves govern and reclaim the wealth they created This new politics challenged the class power of urban elites as well as the centralizing tendencies of national social democratic movements Municipal socialist ideas have continued to inspire activists in their fight for the right of cities to govern themselves

French Society Sharon Kettering, 2014-08-21 This book provides a birds eye view of social change in France during the long seventeenth century from 1589 1715 One of the most dynamic phases of French history it covers the reigns of the first three Bourbon kings Henri IV Louis XIII and Louis XIV The author explores the upheavals in French society during this period through an examination of the bonds which tied various classes and groupings together including rank honour and reputation family household and kinship faith and the Church and

state and obedience to the King Acting as a social glue against instability and fragmentation in periods of great transformation some of these social solidarities are eroded whilst new ones emerge Sharon Kettering shows how nuclear family ties emerged at the expense of extended kinship ties while traditional rural ties were eroded by a combination of demographic crisis and agricultural stagnation Urban ties of neighbourhood sociability and work increased with rapid urbanisation By 1715 France had become a more peaceful and civilised place and this book discusses some of the reasons why

Pierre de L'Estoile and His World in the Wars of Religion Tom Hamilton, 2017 The Wars of Religion embroiled France in decades of faction violence and peacemaking in the late sixteenth century When historians interpret these events they inevitably depend on sources of information gathered by contemporaries none more valuable than the diaries and collection of Pierre de L'Estoile 1546-1611 who lived through the civil wars in Paris and shaped how they have been remembered ever since Taking him out of the footnotes and demonstrating his significance in the culture of the late Renaissance this is the first life of L'Estoile in any language It examines how he negotiated and commemorated the conflicts that divided France as he assembled an extraordinary collection of the relics of the troubles a collection that he called the storehouse of my curiosities The story of his life and times is the history of the civil wars in the making Focusing on a crucial individual for understanding Reformation Europe this study challenges historians' assumptions about the widespread impact of confessional conflict in the sixteenth century L'Estoile's prudent non-confessional responses to the events he lived through and recorded were common among his milieu of Gallican Catholics His life writing and engagement with contemporary news books and pictures reveals how individuals used different genres and media to destabilize rather than fix confessional identities Bringing together the great variety of topics in society and culture that attracted L'Estoile's curiosity this volume rethinks his world in the Wars of Religion

Urbane and Rustic England Carl B. Estabrook, 1998 The rapid growth and renewed vitality of English cities and towns in the century after 1660 was remarkable But what was the effect of this urban renaissance on villages and those ordinary people whose roots were in the countryside

The Smoke of London William M. Cavert, 2016-04-07 William M. Cavert investigates the origins of urban air pollution explaining how this problem arose during the early modern period

Expansion and Crisis in Louis XIV's France Darryl Dee, 2009 New insights on the growth of the territorial state in early modern Europe the nature of the French absolute monarchy and the political legacy of the Sun King Driven by a desire for glory and renown Louis XIV presided over France's last great burst of territorial expansion in Europe During the first three decades of his rule his armies conquered numerous territories along France's borders After 1688 however the tide of conquest turned as the kingdom was plunged into crisis For the remainder of his reign the king and his people endured wars against grand alliances of European powers ecological disasters economic depression state bankruptcy and demographic stagnation *Expansion and Crisis in Louis XIV's France* examines these central yet understudied aspects of the age of the Sun King through the experience of Franche Comté a possession of the Spanish empire with a long history of

autonomy conquered by Louis XIV in 1674 Dee's detailed research reconstructs the ensuing dialogue sometimes harmonious sometimes discordant between the king and the elites who ruled this province The integration of Franche Comte into France proved to be a protracted process involving confrontation negotiation and compromise The resulting regime was then severely tested by the challenges of Louis XIV's late reign its survival demonstrated how the king had brought a distinctly early modern state to the height of its development This study offers significant new insights on the growth of the territorial state in early modern Europe the nature of the French absolute monarchy and the political legacy of the Sun King Darryl Dee is Assistant Professor of History Wilfrid Laurier University Waterloo Canada

Hospital Politics in Seventeenth-Century France Tim McHugh, 2016-07-22 The seventeenth century witnessed profound reforms in the way French cities administered poor relief and charitable health care New hospitals were built to confine the able bodied and existing hospitals sheltering the sick poor contracted new medical staff and shifted their focus towards offering more medical services Whilst these moves have often been regarded as a coherent state led policy recent scholarship has begun to question this assumption and pick up on more localised concerns and resistance to centrally imposed policies This book engages with these concerns to investigate the links between charitable health care poor relief religion national politics and urban social order in seventeenth century France In so doing it revises our understanding of the roles played in these issues by the crown and social elites arguing that central government's social policy was conservative and largely reactive to pressure from local elites It suggests that Louis XIV's policy regarding the reform of poor relief and the creation of General Hospitals in each town and city as enshrined in the edict of 1662 was largely driven by the religious concerns of the kingdom's devout and the financial fears of the Parisian elites that their city hospitals were overburdened Only after the Sun King's reign did central government begin to take a proactive role in administering poor relief and health care utilizing urban charitable institutions to further its own political goals By reintegrating the social aspirations of urban elites into the history of French poor relief this book shows how the key role they played in the reform of hospitals inspired by a mix of religious economic and social motivations It concludes that the state could be a reluctant participant in reform until pressured into action by assisting elite groups pursuing their own goals

Cities and Urban Patriciates: Oxford Bibliographies Online Research Guide Alexander Cowan, 2010-06 This ebook is a selective guide designed to help scholars and students of Islamic studies find reliable sources of information by directing them to the best available scholarly materials in whatever form or format they appear from books chapters and journal articles to online archives electronic data sets and blogs Written by a leading international authority on the subject the ebook provides bibliographic information supported by direct recommendations about which sources to consult and editorial commentary to make it clear how the cited sources are interrelated related This ebook is a static version of an article from Oxford Bibliographies Online Renaissance and Reformation a dynamic continuously updated online resource designed to provide authoritative guidance through scholarship and other materials relevant to the study of European history and culture

between the 14th and 17th centuries Oxford Bibliographies Online covers most subject disciplines within the social science and humanities for more information visit www.oxfordbibliographies.com Patronage in Sixteenth- and Seventeenth-Century France Sharon Kettering, 2024-10-28 The dual themes of this volume are the characteristics of patronage relationships and their political uses in early modern France The first essays provide an overview of the scholarly literature and suggest that the obligatory reciprocity of the patron client exchange was a defining characteristic The third and fourth essays compare patronage relationships with kinship and friendship while the following two focus on the patronage role of noblewomen Professor Kettering then looks at the role of brokerage in state formation in early modern France comparing this with other early modern societies In the final section she explores the role of patronage in the religious wars of the late 16th century and in the civil war of the Fronde a half century later and the ways in which it was affected by the changing lifestyles of the great nobles during the late 17th century
