Cities Under Siege An Anatomy Of The Ghetto Riots 1964-1968:

The Harvest of American Racism Robert Shellow, 2018-12-12 In the summer of 1967 in response to violent demonstrations that rocked 164 U S cities the National Advisory Commission on Civil Disorders aka the Kerner Commission was formed The Commission sought reasons for the disturbances including the role that law enforcement played Chief among its research projects was a study of 23 American cities headed by social psychologist Robert Shellow An early draft of the scientists analysis titled The Harvest of American Racism The Political Meaning of Violence in the Summer of 1967 provoked the Commission s staff in November 1967 by uncovering political causes for the unrest the team of researchers was fired and the controversial report remained buried at the LBJ Presidential Library until now The first publication of the Harvest report half a century later reveals that many of the issues it describes are still with us including how cities might more effectively and humanely react to groups and communities in protest In addition to the complete text of the suppressed Harvest report the book includes an introduction by Robert Shellow that provides useful historical context personal recollections from four of the report s surviving social scientists Robert Shellow David Boesel Gary T Marx and David O Sears and an appendix outlining the differences between the unpublished Harvest analysis and the well known Kerner Commission Report that followed it The Harvest of American Racism report was rejected by Johnson administration functionaries as being far too radical politically unviable Social science can play an extremely positive role in fighting racial and other injustice and inequality but only if it is matched with a powerful political will to implement the findings That will has never come from within an American presidential administration that will has only been forged in black and other radical communities movements for justice The political power for change as incremental as it has been has come from within those communities Washington responds it does not lead from the Foreword by Michael C Dawson In the summer of 1967 the Kerner Commission hired a team of social scientists to explain the cause of the riots that had engulfed dozens of American cities Their report The Harvest of American Racism was so controversial that the commission staff ordered it destroyed Now Robert Shellow and his team have published Harvest along with insightful and revealing essays that provide appropriate context and perspective This is an important book that is as relevant today as it was five decades ago Steven M Gillon author of Separate and Unequal The Kerner Commission and the Unraveling of American Liberalism In 1968 the Kerner Commission concluded that cities across the nation had been erupting because blacks were frustrated with the slow pace of racial and economic equality It turns out that the Commission had been presented with a far more radical analysis of those urban uprisings in an extraordinary report called The Harvest of American Racism This report was not only ignored but actively suppressed Now black rage is once again rocking our nation s major cities and it is past time that we take a close look at what policymakers dismissed 50 years ago As the Harvest report made clear those who took to the streets in 1968 weren t merely frustrated and filled with despair They were politically engaged they believed that racial oppression s root causes

must be addressed rather than its surface expressions and they would never stop erupting until change really happened The Harvest of American Racism is a must read as relevant today as it was 50 years ago Heather Ann Thompson Pulitzer Prize winning author of Blood in the Water The Attica Prison Uprising of 1971 and Its Legacy This seminal study from the 1960s provides a hard hitting and insightful look at the roots of racial discrimination of the United States Jettisoned by the Kerner Commission for something less radical this eye opening analysis still speaks volumes in our current age Julian E Zelizer Malcolm Stevenson Forbes Class of 1941 Professor of History and Public Affairs Princeton University and CNN Political Analyst Psychologist Robert Shellow was Research Director for the National Advisory Commission on Civil Disorders He later directed a pilot police program for the Washington DC Department of Public Safety and taught at Carnegie Mellon University before starting his own consulting business

interracial expression of the urban poverty found in major cities in the United States is a phenomenon that has plagued this country repeatedly in the 20th century From Reverend King to Rodney King historical figures and incidents have shed new light on circumstances that bring about violence and the political context in which federal policy responds to the seemingly intractable social and economic problems that underlie the violence In *Understanding Urban Unrest* author Dennis E Gale compares the federal programs that have been tested since 1966 and makes observations about the probable political response to urban interracial violence and poverty in the future In addition he contends that place based patchwork policies are not effective and that only fundamental changes in the United States s economic structure and federal policy agenda can offer any real solutions for the nation s cities and its poor Students and professionals in urban studies political science and sociology will find *Understanding Urban Unrest* both engaging and extremely accessible *Understanding Urban Unrest* is an outstanding example of effective political science Dennis E Gale takes a major public phenomenon contemporary American urban riots from Newark to Los Angeles and shows the interaction between tragic events and legislative response He provides an authoritative history of the struggle to provide a workable national urban policy This is a book that general audiences will find instructive and professional and academic readers will find essential Robert Wood University of Massachusetts Boston

Fire this Time Gerald Horne, 1995 In August 1965 the predominantly black neighborhood of Watts in Los Angeles erupted in flames and violence following an incident of police brutality This is the first comprehensive treatment of that uprising Property losses reached hundreds of millions of dollars and the official death toll was thirty four but the political results were even more profound The civil rights movement was placed on the defensive as the image of meek and angelic protestors in the South was replaced by the image of rioting blacks in the West A white backlash ensued that led directly to Ronald Reagan s election as governor of California in 1966 In *Fire This Time* Horne delineates the central roles played by Ronald Reagan Tom Bradley Martin Luther King Jr Edmund G Brown and organizations such as the NAACP Black Panthers Nation of Islam and gangs He documents the role of the Cold War in the dismantling of legalized segregation and he looks at the impact of race region class gender and age on postwar Los Angeles All this he considers in light of world developments particularly in Vietnam the Soviet Union China and Africa

Urban Policy in Twentieth-century America Arnold Richard Hirsch, Raymond A. Mohl, 1993 The recent riots in Los Angeles brought the urban crisis back to the center of public policy debates in Washington D C and in urban areas throughout the United States The contributors to this volume examine the major policy issues race housing transportation poverty the changing environment the effects of the global economy confronting contemporary American cities Raymond A Mohl begins with an extended discussion of the origins evolution and current state of Federal involvement in urban centers Michael B Katz follows with an insightful look at poverty in turn of the century New York and the attempts to ameliorate the desperate plight of the poor during this period of rapid economic growth Arnold R Hirsch Mohl and David R Goldfield then pursue different facets of

the racial dilemma confronting American cities Hirsch discusses historical dimensions of residential segregation and public policy while Mohl uses Overtown Miami as a case study of the social impact of the construction of interstate highways in urban communities David Goldfield explores the political ramifications and incongruities of contemporary urban race relations Finally Carl Abbott and Sam Bass Warner Jr examine the impact of global economic developments and the environmental implications of past policy choices Collectively the authors show us where we have been some of the needs that must be addressed and the urban policy alternatives we face

Class, Race, and the Civil Rights Movement Jack M. Bloom, 2019-07-09 Revised and updated the award winning historical analysis of the civil rights movement examining the interplay of race and class in the American South In *Race Class and the Civil Rights Movement* sociologist Jack M Bloom explains what the civil rights movement was about why it was successful and why it fell short of some of its objectives With a unique sociohistorical analysis he argues that Southern racist practices were established by the agrarian upper class and that only when this class system was undermined did the civil rights movement become possible He also demonstrates how the movement was the culmination of political struggles beginning in the Reconstruction era and influenced by the New Deal policies of the 1930s Widely praised when it was first published 1987 *Race Class and the Civil Rights Movement* was a C Wright Mills Second Award winning book and also won the Gustavus Myers Center Outstanding Book Award In this second edition Bloom updates his study in light of current scholarship on civil rights history He also presents an analysis of the New Right within the Republican Party starting in the 1960s as a reaction to the civil rights movement

The Harlem Uprising Christopher Hayes, 2021-10-26 In July 1964 after a white police officer shot and killed an African American teenage boy unrest broke out in Harlem and then Bedford Stuyvesant Protests rose up to call for an end to police brutality and the unequal treatment of Black people in a city that viewed itself as liberal A week of upheaval ensued including looting and property damage as well as widespread police violence in what would be the first of the 1960s urban uprisings Christopher Hayes examines the causes and consequences of the uprisings from the city's history of racial segregation in education housing and employment to the ways in which the police both neglected and exploited Black neighborhoods While the national civil rights movement was securing substantial victories in the 1950s and 1960s Black New Yorkers saw little or uneven progress Faced with a lack of economic opportunities pervasive discrimination and worsening quality of life they felt a growing sense of disenchantment with the promises of city leaders Turning to the aftermath of the uprising Hayes demonstrates that the city's power structure

continued its refusal to address structural racism In the most direct local outcome a broad interracial coalition of activists called for civilian review of complaints against the police The NYPD s rank and file fought this demand bitterly further inflaming racial tensions The story of the uprisings and what happened next reveals the white backlash against civil rights in the north and crystallizes the limits of liberalism Drawing on a range of archives this book provides a vivid portrait of postwar New York City a new perspective on the civil rights era and a timely analysis of deeply entrenched racial inequalities

Library Book Catalog United States. Department of Justice,1972 **Contemporary Issues in Public Disorder** David Waddington,2021-09-05 In a comparative study drawing on material from the United States and Britain this book first published in 1992 examines how various types of industrial political urban and sectarian disorder occur In the early 1990s public disorder returned to the top of the political agenda and yet was consistently met with confusion and misunderstanding Public discussion was superficial and emotive contributing little helpful enlightenment and creating no prospect of sensible policy change This book presents the flashpoints model to explain that public disorder is most likely to occur where a group perceives that its rights are being violated or denied The model is demonstrated in a selection of vivid case studies which are both international and historical in scope covering British and American inner city riots sports spectator violence and the Troubles in Northern Ireland In particular it traces the growth of police powers and assesses how effective democratic control over police behaviour actually is It also considers the assertion that media coverage can have an inflammatory effect on public disorder **African-Americans and the Quest for Civil Rights, 1900-1990** Sean Dennis Cashman,1992-12 In this lavishly illustrated volume Sean Dennis Cashman surveys the history of civil rights in twentieth century America The book charts the principal course of civil rights against the dramatic backdrop of two world wars the Great Depression the affluent society of the postwar world the cultural and social agitation of the 1960s and the emergence of the new conservatism of the 1970s and 1980s Cashman describes the profound upheaval that African Americans experienced as they moved from the outright racism of the South through the Great Migration northward from 1915 and sets the contribution of African American leaders within their historical context Booker T Washington W E B Du Bois Marcus Garvey A Philip Randolph Malcolm X Martin Luther King and many others The work also describes the shift in emphasis in the movement from legal cases brought before the courts to mass protest movements and later the change in direction from civil rights to Black Power and later Pan Africanism Far more than just a history of civil rights leaders this book explains how the achievements of African American writers artists singers and athletes contributed to a wider understanding of the humanity and culture of black Americans Cashman details among others the achievements of the Harlem Renaissance the films of Paul Robeson and Marian Anderson and the works of Langston Hughes Ralph Ellison James Baldwin and Toni Morrison Written in an engaging style the text is accompanied by a wealth of illustrations some well known others in print for the first time

Routledge Library Editions: Political Protest Various,2022-07-30 This 26 volume set is a wide ranging time and subject

spanning examination of the phenomenon of political protest What drives people to take to the streets and how do their governments respond These questions and many more are analysed in areas as varied as sixteenth century German peasant uprisings revolutionary Russians at the Paris Commune women protesting nuclear weapons at Greenham Common and the role Christianity played in protests across the ages An impressive reference resource this set also looks at the policing of protests and official responses to them Vicious Modernism James de Jongh,1990-11-30 This book concentrates on the aesthetic and cultural force of Harlem which inspired writers from Sherwood Anderson to Tom Wolfe **City Trenches** Ira Katznelson,2013-10-02 The urban crisis of the 1960s revived a dormant social activism whose protagonists placed their hopes for radical change and political effectiveness in community action Ironically the insurgents chose the local community as their terrain for a political battle that in reality involved a few strictly local issues They failed to achieve their goals Ira Katznelson argues not so much because they had chosen their ground badly but because the deep split of the American political landscape into workplace politics and community politics defeats attempts to address grievances or raise demands that break the rules of bread and butter unionism on the one hand or of local politics on the other A fascinating record of the encounter between today's reformers the community activists and the powers they challenge City Trenches is also a probing analysis of the causes of urban instability Katznelson anatomizes the unique workings of the American urban system which allow it to contain opposition through machine politics and as a last resort institutional innovation and co-optation for example the authorities own version of decentralization used in the 1960s as a counter to a community control Washington Heights Inwood a multi ethnic working class community in northern Manhattan provides the setting for an absorbing close up view of the historical evolution of local politics the challenge to the system in the 1960s and its reconstitution in the 1970s
