Koven,2015-05-18 This book is designed to show readers how ethics can constrain improper behavior To demonstrate the relationship of ethics to good government the author presents high profile case studies that were selected for their notoriety and their ability to connect the reader to fundamental ethical questions Themes of public interest natural law and rule of law provide a framework for the case studies which include torture Abu Ghraib impeachment Clinton competence FEMA electoral violation DeLay and historical corruption machine politics The chapters discuss concepts that help to define responsible behavior in terms of behavior in elections honesty and competence and international law Agricultural Service Responsiveness in Nepal Christopher Root,2014-01-23 In this pilot study we examined the responsiveness of local government agricultural services in Nepal In particular we analyzed the equitability of agricultural service responsiveness with respect to farmers gender ethnic grouping land size and commercialization Responsiveness is defined as farmers receiving the services they view as top priorities We surveyed 200 households divided evenly between two districts The survey asked farmers to identify their top priorities out of a list of services provided by local government It also asked them to identify the services they had received We measured responsiveness as the percentage of services farmers received that they ranked as a priority We used regression to identify significant associations between farmers characteristics and the responsiveness of local government in providing those services We found that agricultural service responsiveness across all services included in the study was 59 percent We also found evidence of inequitable service responsiveness regression shows that farmer membership in lower socioeconomic groups is associated with lower responsiveness of between 11 and 18 percentage points Local government responsiveness can be improved by better understanding the differences between the priorities of different socioeconomic groups and by partnering with nongovernmental organizations that have mandates and resources to reach excluded socioeconomic groups OECD Public Governance Reviews Open and Connected Government Review of Thailand OECD,2022-02-18 This Open and Connected Government Review of Thailand the first of its kind assesses Thailand s efforts to build a government that is
