

The image shows the front cover of a book. The background is a classic marbled paper with a pattern of irregular, swirling shapes in shades of brown, tan, and cream. A solid red rectangular block is centered on the upper half of the cover, containing the title and subtitle in white text. The title is split across three lines, with horizontal white lines separating the words. The subtitle is on a single line below the title. The editors' names are at the bottom of the red block.

Citizens Europe In Search Of A New Order:

Transnational Citizenship in the European Union Espen D. H. Olsen, 2012-05-10 **Supranational citizenship** Lynn Dobson, 2013-01-18 Can we conceptualise a kind of citizenship that need not be of a nation state but might be of a variety of political frameworks Bringing together political theory with debates about European integration international relations and the changing nature of citizenship this book available at last in paperback offers a coherent and innovative theorisation of a citizenship independent of any specific form of political organisation It relates that conception of citizenship to topical issues of the European Union democracy and legitimate authority non national political community and the nature of the supranational constitution The author argues that citizenship should no longer be seen as a status of privileged membership but instead as an institutional role enabling individuals capacities to shape the context of their lives and promote the freedom and well being of others In doing so she draws on and develops ideas found in the work of the philosopher Alan Gewirth

Legitimacy and the European Union Thomas F. Banchoff, Mitchell P. Smith, 1999 Since the Maastricht ratification debate of the early 1990s the legitimacy of the European Union has become a subject of controversy With unprecedented force Europeans have begun to question the need for deeper integration Some fear threats to established national identities while others perceive the emergence of a distant but powerful Brussels beyond the reach of democratic control Legitimacy and the European Union breaks with established approaches to the problem of the legitimacy of the European Union by focusing on the recent trend towards reconceptualization of the EU not as a superstate or an organization of states but as a multi level contested polity without precedent The book examines the implications of this reconceptualization for the problem of legitimacy Individual chapters focus on policy areas institutions and identity politics Taken together they reach two main conclusions While Europeans do not strongly identify with the EU they increasingly recognize it as a framework for politics alongside existing national and subnational structures And while the EU lacks central democratic institutions the integration process has spawned significant informal and pluralist forms of representation Rethinking recognition and representation outside the context of the nation state points to important if little understood actual and potential sources of EU legitimacy

Citizenship and Welfare State Reform in Europe Jet Bussemaker, 2003-12-16 This work examines the concept of citizenship in relation to social policy in the context of the rapidly changing European welfare states Leading academics analyse concrete changes in social rights and citizenship roles and offer theoretical investigations of citizenship and the welfare state Issues discussed include citizenship versus residence as a basis for social rights the relationship between rights and obligations workers rights and non workers rights exclusion and inclusion in the labour market and community life the relationship between social and political citizenship poverty and social exclusion new roles for citizens as clients consumers and participants in the welfare state **The Lisbon Treaty** Paul Craig, 2013-05-09 The Lisbon Treaty reformed the foundations of the European Union and marked the culmination of a process of Treaty reform that began after the Treaty of

Nice and spanned almost a decade This book addresses the main innovations made by the new Treaty examining its legal and political consequences in a reformed EU The book is organized thematically around the principal issues that occupied those engaged in the reforms over the last decade The chapters include analysis of the reform process itself and the political forces that shaped the relevant provisions of the Lisbon Treaty The book contains detailed analysis of the relevant legal changes made by the Lisbon Treaty on each topic covered This legal analysis is informed by broader literature from related disciplines such as political science and international relations since it is only by doing so that it is possible fully to understand the legal implications of the new provisions dealing with issues such as the inter institutional division of power within the EU the distribution of competence the hierarchy of legal acts and the Charter of Rights The book addresses the political and legal implications of the Treaty provisions and the discussion is set against the background of the pre existing legal and political regime aiding a full understanding of the effect of the new rules contained in the Lisbon Treaty This revised paperback edition includes a new chapter detailing the political reform process leading to the proposed Fiscal Union Treaty and its potential legal implications

Righting Wrongs Roy Gregory,Philip James Giddings,2000 6 Ombudsman in Australia Dennis Pearce

Feminist Perspectives on The Foundational Subjects of Law Anne Bottomley,1996-03-13 The essays in this volume fall within a chapter on one of the foundational law subjects on the degree syllabus and aim to provide an account of feminist approaches to each of the following areas contracts torts land law equity and trusts criminal law public law and European law

European Union Citizenship Síofra O'Leary,1996 *Citizenship, Democracy and Justice in the New Europe* Percy B. Lehning,Albert Weale,2005-08-04 The contributors to this study address the question of how political theory is relevant to the construction of new Europe and the tie in issues of citizenship social justice and political legitimacy By

using techniques of contemporary political theory the book argues that the emergence of new Europe poses fundamental questions of value and principle and challenges more established political theories in the process *The Long-Term Residence Status as a Subsidiary Form of EU Citizenship* Diego Acosta Arcarazo, 2011-05-23 This book analyses the potential of the Long term Residence Directive to become a subsidiary form of EU citizenship which escapes direct control by Member States by looking at its implementation and at its possible interpretation by the Court of Justice **EU Law** Paul Craig, Gráinne De Búrca, 2020 This version of the textbook is only available in the UK If you are studying law outside of the UK please see EU Law Text Cases and Materials ISBN 9780198856641 Building on its unrivalled reputation as the definitive EU law textbook the seventh edition provides clear and comprehensive analysis of all aspects of European Union law Drawing on their wealth of experience Paul Craig and Grainne de Burca succeed in bringing together a unique mix of illuminating commentary and well chosen extracts from a wide range of cases legislation and academic publications Chapters have been carefully structured and designed to enhance student learning at all levels laying the foundations of the subject while building analysis of more complicated areas and cutting edge debates All chapters have been comprehensively updated to reflect the extensive legal developments that have taken place since the publication of the sixth edition including a new chapter on Brexit and other challenges taking place within the EU This UK version also includes sections at the end of relevant chapters covering how the principles apply or don't apply to the UK post Brexit Online resources The book is accompanied by online resources which include the following Updates to the law post publication A timeline of key events in the development of the EU **The Evolution of EU Law** Paul Craig, Gráinne De Búrca, 2021 This last decade has been particularly turbulent for the EU Beset by crises the financial crisis the rule of law crisis the migration crisis Brexit and the pandemic European Law has had to adapt and change in a way not previously seen First published in 1999 the goal then was to reflect on the important developments that had been made since the creation of the EEC That goal has not changed From EU Administrative Law through to the Regulation of Network Industries each chapter in this seminal work assesses the legal and political forces that have shaped the evolution of EU law With new chapters covering the Rule of Law Judicial Reform Brexit Constitutional and Legal Theory Refugee and Asylum law and Data Governance this third edition of *The Evolution of EU Law* is a must read for any student or academic of EU law *The Politics of Economic and Monetary Union* Petri Minkkinen, Heikki Patomäki, 2012-12-06 If the plans concerning EMU will be realised by 2002 national currencies will be replaced by the Euro and national central banks will be partially replaced by the European Central Bank *The Politics of Economic and Monetary Union* starts with the argument that EMU is more a political than an economic project It develops this theme by addressing five different questions First precisely what is the general role of EMU in the globalising political economy Second how EMU will change the power relations and the relationship between political and economic Third what effects will EMU have on generally accepted values including for example efficiency self determination and democracy

Fourth how does the EMU related politics of symbols including money take part in constructing political identities And last but certainly not least what effects EMU will have on the social and political dimension of the Union and thus also on its legitimacy The politics of EMU includes many dimensions The book tries to explain the hegemony of the neoliberal and German vision of Europe in the context of recent development in the global political economy It assesses the consequences of this hegemony and the possibility for alternatives from a variety of perspectives In many chapters it is also argued that the legitimation problems of the Union may turn into an acute crisis also because of EMU We should expect an actualised crisis to lead to a transformation of the Union

The Evolution of EU Law Paul P. Craig,Gráinne De Búrca,2011 The European Union has undergone major changes in the last decade including Treaty reform and a significant expansion of activity in foreign and security policy and justice and home affairs In the first edition of this influential textbook a team of leading lawyers and political scientists reflected upon the important developments in their chosen area over the time since the EC was formed This new edition continues this analysis ten years on Taking into account the social and political background and without losing sight of the changes that came before in each chapter the contributors analyze the principle themes and assess the legal and political forces that have shaped its development Each author addresses a specific topic event or theme from the European Court of Justice to Treaty reform the enlargement of the EU to administrative law the effect of EU law on culture to climate change Together the chapters tell the story of the rapid development of EU law its past present and future

Ubiquitous Citizens of Europe Oxana Golynger,2006 Focuses on economically active persons resident in one country while working in another which traditionally embraced frontier and posted workers but nowadays takes new forms Outlines the correlations between citizenship bona fide residence labour migration and socio economic rights of partial migrants in the European Union with particular reference to Union citizenship and examines problems associated with rights in the areas of social security taxation and housing Scrutinizes the latest case law of the European Court of Justice

EU Law Paul|Burca Craig (Grainne de),2024

Liberal Democracy Into the Twenty-first Century Roland Axtmann,1996 This book offers a contemporary critique of liberal democracy understood as a set of institutions and as a set of ideas Roland Axtmann asks what democracy means today as it faces the challenges of feminism multiculturalism globalization and European integration Axtmann analyses in turn each of liberal democracy s component parts Firstly he discusses the notions of sovereignty constitutionalism and representation and analyses the liberal concept of citizenship Secondly he surveys the conceptual history of civil society and presents republicanism and deliberative politics after Habermas as alternative conceptualizations of democracy Thirdly he shows how feminism and multi culturalism challenge liberal democracy with their demands for the granting of group rights Finally he shows how global interdependence and supranational integration demand a reconsideration of democratic sovereignty The idea of democratic rule by the sovereign people in the sovereign nation state is being transformed to reflect new connections between citizens governments and supranational institutions

EU Law Paul P. Craig, Gráinne de Búrca, 2008 Written by two prominent experts in the field the fourth edition of the market leading EU Law Text Cases and Materials offers the reader an authoritative and comprehensive guide to the main fields of EU Law both institutional and substantive Through the distinctive mix of 50% text and 50% cases and materials the fully revised and updated fourth edition addresses the significant recent developments in EU legislation including four new chapters on topics of central importance The new enlarged format includes a two colour text design which easily distinguishes between author commentary and cases and materials Craig and de Burca s EU Law Text Cases and Materials is the bestselling EU Law textbook recommended by many institutions as a core text for LLB courses and trusted by thousands of students to provide an authoritative commentary on EU Law Accompanied by an Online Resource Centre containing an interactive map of Europe with hot spots on all EU member states providing factual information on each member country interactive timeline tracking key dates in EU legal history
