Citizenship and Democratic Control in Contemporary Europe Barbara Einhorn, Mary Kaldor, Zdenek Kavan, 1996 Global Perspective John MacLean **Education and Democratic Citizenship in America** Norman H. Nie, Jane Junn, Kenneth Stehlik-Barry, 1996-11-15 Education affects these two dimensions in distinct ways influencing democratic enlightenment through cognitive proficiency and sophistication and political engagement through position in social networks For characteristics of enlightenment formal education simply adds to the degree to which citizens support and are knowledgeable about democratic principles **Citizenship and Migration** Stephen Castles, Alastair Davidson, 2020-06-30 This book argues that basing citizenship on singular and individual membership in a nation state is no longer adequate since the nation state model itself is being severely eroded It examines issues of citizenship and difference in the Asia Pacific region **Citizens, Politics and Social Communication** R. Robert Huckfeldt, John Sprague, 1995-01-27 Democratic politics is a collective enterprise not simply because individual votes are counted to determine winners but more fundamentally because the individual exercise of citizenship is an interdependent undertaking Citizens argue with one another and they generally arrive at political decisions through processes of social interaction and deliberation This book is dedicated to investigating the political implications of interdependent citizens within the context of the 1984 presidential campaign as it was experienced in the metropolitan area of South Bend Indiana Hence this is a community study in the fullest sense of the term National politics is experienced locally through a series of filters unique to a particular setting and its consequences for the exercise of democratic citizenship **Digital Democracy: Concepts, Methodologies, Tools, and Applications** Management Association, Information Resources, 2012-06-30 This book presents a vital compendium of research detailing the latest case studies architectures frameworks methodologies and research on Digital Democracy Provided by publisher **Urban Movements in a Globalising World** Pierre Hamel, Henri Lustiger-Thaler, Margit Mayer, 2003-09-02 This collection deals with the transformation of urban movements in the new social economic and political environments that the rise of globalisation has brought about **Identifying Citizens** David Lyon, 2009-06-29 New ID card systems are proliferating around the world These may use digitized fingerprints or photos using a scanner may rely on computerized registries of personal information In this book David Lyon argues that such IDs represent a fresh phase in the long term attempts of modern states to find stable ways of identifying citizens The Changing Context of Local Democracy Hubert Heinelt, 2016-02-05 Political leadership at the local level has attracted growing attention in recent years in parallel with reforms of local government and of the municipal administration as well as the debate on a shift from government to governance But this debate is mainly focused on single leaders i.e. mayors or executive officers Considering the power triangle of i. the mayor ii. the municipal administration executive officers and iii. the council it is surprising that councillors have gained little interest so far The aim of this book is to reflect on the role and task perception as well as the behaviour of

councillors in the changing context of local democracy The chapters start from a common conceptual framework We start from the hypothesis that the role perception as well as the behaviour of councillors can not be conceived of being determined directly by i both formals and informal institutional structures as well as by ii personal characteristics Instead we argue that the perceptions and behaviour of councillors are depending on their notion of democracy However the understanding of democracy can be affected by institutional structure but not solely by such organisational arrangements but depending on personal characteristics of the councillors This book was published as a special issue of Local Government Studies The Ashgate Research Companion to New Public Management Tom Christensen, Per Lægreid, 2016-03-23 This collection provides a comprehensive state of the art review of current research in the field of New Public Management NPM reform Aimed primarily at a readership with a special interest in contemporary public sector reforms The Ashgate Research Companion to New Public Management offers a refreshing and up to date analysis of key issues of modern administrative reforms This volume comprises a general introduction and twenty nine chapters divided into six thematic sessions each with chapters ranging across a variety of crucial topics in the field of New Public Management reforms and beyond The principal themes to be addressed are

Fiorella Dell Olio examines changes in laws on citizenship nationality and immigration in Italy and the UK and assesses the relationship between the political conceptualization of European citizenship and the public response as revealed by opinion polls She argues that the establishment of a European citizenship has reinforced the ideology of nationality in both Italy and the UK and that it consequently has failed to forge a European identity
