partnerships _ key themes that emerge in governance such as conflict gender and power _ suggestions for participatory methods in governance including learning circles popular theatre and role play _ methods of building capacities of citizens intermediaries and government officials for inclusive governance A training manual is also in preparation which will include role plays exercises and other training materials The Toolkit is a fantastic resource bank for policymakers practitioners facilitators in government departments and agencies and other change agents working in local communities *Citizenship in Focus*, 2003 Is Citizenship Secular? Renée Wagenvoorde, 2015 Contemporary Western societies are undeniably diverse This diversity has led to polarized debates that often concentrate on national identity This book argues for a new approach where more promising answers to the serious question of plurality can be provided if we focus on the broader notion of citizenship Little is known about how the debates over religion and citizenship intertwine This book offers an innovative contribution to the understanding of the relationship between these important issues Using the Netherlands as a case study the book combines dominant lines of reasoning from political philosophical theories integration policies and religious and non religious citizens Series Theorizing the Postsecular International Studies in Religion Politics and Society Vol 2 Subject Sociology Religious Studies Politics Dutch Studies Citizens' Activism and Solidarity Movements Birte Siim, Anna Krasteva, Aino Saarinen, 2018-07-09 This book explores the activism and solidarity movements formed by contemporary European citizens in opposition to populism which has risen significantly in reaction to globalization European integration and migration It makes the counterforces to neo nationalisms visible and re envisions key concepts such as democracy public sphere power empowerment intersectionality and conflict cooperation in civil society The book makes a theoretical and empirical contribution to citizenship studies covering several forms such as contestatory solidary everyday and creative citizenship The chapters examine the diverse movements against national populism othering and exclusion in various parts of the European Union such as Denmark Finland the UK Austria Germany France Bulgaria Slovenia and Italy The national case studies focus on counterforces to ethnic and religious divisions as well as genders and sexualities various expressions of anti migration Romanophobia Islamophobia and homophobia The book s overall focus on local national and transnational forms of resistance is premised on values of respect and tolerance of diversity in an increasingly multi cultural Europe

Citizenship and Civil Society Thomas Janoski, 1998-02-13 This book shows how legal political social and participation rights are systematically related to liberties claims and immunities **Countering Displacements** Daniel Coleman, 2012-04-26 Collection of essays forges compelling linkages between cultural experiences of refugees and indigenous peoples worldwide *States and Citizens* Jon Shefner, 2015-11-16 This volume examines how states and citizens have been able to address globalization in different ways across the Global North and South Authors examine the state as it forms policies in agro production contends with critical constituencies and rebuilds capacity to act in the popular interest after forty years of neoliberal assault Citizenship in the European Union Anne Wesemann, 2020-10-30 The book proposes

a new approach to constitutional analysis of the EU and its legal framework arguing that the existence of constitutional rights norms within EU law enables this particular legal order to respond effectively to societal and political challenges within the rigidity of constitutionalism Providing new perspectives on constitutionalism in the EU this book considers the way the Court of Justice of the European Union CJEU discusses and applies the EU citizenship Treaty norms by analysing the courts approach to decision making which resembles the balancing and weighing of conflicting principles Migrants and Citizens Rey Koslowski, 2018-09-05 The Berlin Wall falls as thousands of East Germans move to the West after the Iron Curtain lifts West Europeans brace for mass migrations from Eastern Europe millions of refugees flee Iraq Bosnia Haiti Rwanda and other strife torn nations The shifting tides of international migration have had a profound effect on our world from the transformation of nationality laws and European cooperation on border control to NATO intervention in Kosovo In Migrants and Citizens Rey Koslowski examines the impact of migration on international politics He focuses on two related avenues of inquiry the immediate political problems faced by the European Union and the general issues that confront us as we try to understand the modern international system Migration has become politically salient so quickly Koslowski argues because the nation state and the political institutions associated with it developed in the centuries during which Western Europe was a net exporter of people With the reversal of that trend less than a generation ago many of these institutions have been ill suited to deal with the political and policy demands brought on by the arrival of large numbers of foreigners Koslowski discusses how restrictive citizenship laws exclude migrants and their children from political participation in some West European states leading observers to question the legitimacy of those states as democracies Yet when these states try to increase immigrant participation with local voting rights European Union citizenship and dual nationality the principle of a singular nationality underlying the nation state is challenged In this way the practical policy responses to migration gradually transform the political institutions of states as well as the international system they collectively constitute No Citizens Here: Global Subjects and Participation in International Law René Urueña, 2012-03-23 Building on the notion of a risk society this book offers an alternative to the traditional notion of international legal subjects by arguing that international law creates fragmented subjectivities whose conflicting identities help perpetuate a certain global loss of sense that is characteristic of our times What is Legal Education for? Rachel Dunn, Paul Maharg, Victoria Roper, 2022-09-30 How we interpret and understand the historical contexts of legal education has profoundly affected how we understand contemporary educational cultures and practices This book the result of a Modern Law Review seminar both celebrates and critiques the lasting impact of Peter Birks influential edited collection *Pressing Problems in the Law* Volume 2 *What is the Law School for* Published in 1996 his book addresses many critical issues that are hauntingly present in the 21st century amongst them the impact of globalisation technological disruption and the tension inherent in law schools as they seek to balance the competing interest of teaching research and administration Yet Birks collection misses key issues too The role of wellbeing of

emotion or affect the relation of legal education to education the status of legal education in what since his volume have become the devolved jurisdictions of Northern Ireland Wales and Scotland these and others are absent from the research agenda of the book Today legal educators face new challenges We are still recovering from the effects of the Covid 19 pandemic on our universities In 1996 Birks was keen to stress the importance of comparative research within Europe Today legal researchers are dismayed at the possibility of losing valuable EU research funding when the UK leaves the EU and at the many other negative effects of Brexit on legal education The proposed Solicitors Qualifying Examination takes legal education regulation and professional learning into uncharted waters This book discusses these and related impacts on our legal educations As law schools approach an existential crossroads post Covid 19 it seems timely to revisit Birks fundamental question what are law schools for

POLITICAL THEORY RAMASWAMY, SUSHILA, 2010-10-01 Political theory and political philosophy are generally used interchangeably though sometimes a distinction is made between the two This book on political theory deals with the study of political institutions along with the theories of State Law Liberty and Equality In its second edition the book continues to analyse the key concepts like Authority Power Sovereignty Political obligation Civil disobedience Citizenship Rights Democracy and Justice The non western ideas including Indian and Chinese are incorporated to underline cultural plurality and shared values in an enterprise that tries to set universal standards The book is designed for the undergraduate and postgraduate students of Political Science The book will be equally beneficial for the students appearing for the civil services examinations
