States and the Masters of Capital Quentin Bruneau,2022-12-13 Winner 2025 Francesco Guicciardini Prize for Best Book in Historical International Relations Historical International Relations section International Studies Association Today states ability to borrow private capital depends on stringent evaluations of their creditworthiness While many presume that this has long been the case Quentin Bruneau argues that it is a surprisingly recent phenomenon the outcome of a pivotal shift in the social composition of financial markets Investigating the financiers involved in lending capital to sovereigns over the past two centuries Bruneau identifies profound changes in their identities goals and forms of knowledge He shows how an old world made up of merchant banking families pursuing both profit and status gradually gave way to a new one dominated by large companies such as joint stock banks and credit rating agencies exclusively pursuing profit Lacking the web of personal ties to sovereigns across the world that their established rivals possessed these financial institutions began relying on a different form of knowledge created to describe and compare states through quantifiable data statistics Over the course of this epochal shift which only came to an end a few decades ago financial markets thus reconceptualized states Instead of a set of individuals to be known in person they became numbers on a page Raising new questions about the history of sovereign lending this book illuminates the nature of the relationship between states and financial markets today and suggests that it may be on the cusp of another major transformation

this scale has been attempted before and this is the product of 50 years of research **Transactions of the Royal Historical Society: Volume 16** Ian W. Archer, 2007-03-12 The Transactions of the Royal Historical Society publish an annual collection of major articles representing some of the best historical research by some of the world's most distinguished historians The volume includes the following articles Potential Address Britain and Globalisation since 1850 I Creating a Global Order 1850 1914 Land Freedom and the Making of the Medieval West The Origins of the English Hospital The Alexander Prize Essay Trust and Distrust A Suitable Theme for Historians Witchcraft and the Western Imagination Africa and the Birth of the Modern World The Break Up of Britain Scotland and the End of the Empire The Prothero Lecture Report of Council for 2005 2006 **Gentlemen Bankers** Susie J. Pak, 2013-06-01 This account of the Morgan family's social and economic circles and Wall Street's unspoken rules greatly enriches our understanding of the entire era The Wall Street Journal Gentlemen Bankers investigates the social and economic circles of one of America's most renowned and influential financiers to uncover how the Morgan family's power and prestige stemmed from its unique position within a network of local and international relationships At the turn of the twentieth century private banking was a personal enterprise in which business relationships were a statement of identity and reputation In an era when ethnic and religious differences were pronounced and anti-Semitism was prevalent Anglo American and German Jewish elite bankers lived in their respective cordoned communities seldom interacting with one another outside the business realm Ironically the tacit agreement to maintain separate social spheres made it easier to cooperate in purely financial matters on Wall Street But as Susie Pak demonstrates the Morgans' exceptional relationship with the German Jewish investment bank Kuhn Loeb Co their strongest competitor and also an important collaborator was entangled in ways that went far beyond the pursuit of mutual profitability Delving into the archives of many Morgan partners and legacies Gentlemen Bankers draws on never before published letters and testimony to tell a closely focused story of how economic and political interests intersected with personal rivalries and friendships among the Wall Street aristocracy during the first half of the twentieth century
