New York (State). Governor,1920      States of Childhood Jennifer S. Light,2020-07-14 A number of curious communities sprang up across the United States in the late nineteenth and early twentieth century simulated cities states and nations in which children played the roles of legislators police officers bankers journalists shopkeepers and other adults They performed real work passing laws growing food and constructing buildings among other tasks inside virtual worlds In this book Jennifer Light examines the phenomena of junior republics and argues that they marked the transition to a new kind of sheltered childhood for American youth Banished from the labor force and public life children inhabited worlds that mirrored the one they had left Light describes the invention of junior republics as independent institutions and how they were later established at schools

on playgrounds in housing projects and on city streets as public officials discovered children's role playing helped their bottom line. The junior republic movement aligned with cutting edge developmental psychology and educational philosophy and complemented the era's fascination with models and miniatures shaping educational and recreational programs across the nation. Light's account of how earlier generations distinguished real life from role playing reveals a hidden history of child labor in America and offers insights into the deep roots of such contemporary concepts as gamification, play labor, and virtuality.

**Pamphlets on Conservation of Natural Resources**, 1912     Ambidextrous Robert Stapleton, 2012-08-01

Ambidextrous is an incredible story of survival. This autobiography tells of the author's life from 1977-2002. Born and raised in Brooklyn, N.Y., he fought his way through those streets from childhood. He wasn't your ordinary thug. The book picks up in 1978 when he finished college by which time he was a hardcore heroin addict. Initially a street drug dealer, he had brushes with the law but managed to stay out of prison until 1980 when he was convicted of multiple armed robberies. He was charged with 32 stick ups. He robbed primarily pharmacies. In a twelve year period from 1980-1992 he spent nine years in various prisons. He details prison life like no author before him. He contracted HIV and HepC and the story continues for nine years in Chicago. Near death, his cousin brings him to Florida in 2002. There a caseworker convinces him he can change.
