Whose Public Space? Ali Madanipour, 2010-01-21 Public spaces mirror the complexities of urban societies as historic social bonds have weakened and cities have become collections of individuals public open spaces have also changed from being embedded in the social fabric of the city to being a part of more impersonal and fragmented urban environments Can making public spaces help overcome this fragmentation where accessible spaces are created through inclusive processes This book offers some answers to this question through analysing the process of urban design and development in international case studies in which the changing character level of accessibility and the tensions of making public spaces are explored The book uses a coherent theoretical outlook to investigate a series of case studies crossing the cultural divides to examine the similarities and differences of public space in different urban contexts and its critical analysis of the process of development management and use of public space with all its tensions and conflicts While each case study investigates the specificities of a particular city the book outlines some general themes in global urban processes It shows how public spaces are a key theme in urban design and development

Telling Stories Differently Janet Condy, 2015-09-01 The aim of this book is to share a relatively loose collection of studies using digital storytelling as a pedagogical tool in Cape Peninsula University of Technology CPUT The book takes an informed social justice approach to teaching and learning at the heart of which is the exploration of DST as a practice of voice and agency Voice and agency are important in excavating and recovering subjugated identities and moving the concerns of those occupying subaltern spaces to the mainstream of teaching and learning Yet this discursive shift is not without inherent challenges Multi modal technologies are reflective of wider inequities in the so called technological divide Whilst this is a book about higher education there are important lessons for schooling On the one hand the book is a powerful demonstration of the potential of DST for enhancing learning in schools particularly in schools serving the poor and marginalised On the other hand improving teaching and learning in higher education through the creative use of technology is essential to overcome the learning

into urban cultures **Durban, a Cogent African City** Anna Irene Del Monaco, Jian Liu, Yashaen Luckan, Belula Tecle Misghina, 2018-04-30 The city of Durban is one of the most intriguing for architects and urban designers due to its cultural and economic diversity on one the hand and its political evolution since its colonial formalisation apartheid influences and its post apartheid evolution on the other It is a city that expresses complex narratives in architectural form and expression seemingly chaotic yet within and upon a cogent overall structure Perhaps it is that very cogency in urban structure which facilitated its complex evolution or perhaps not This paradox forms the crux of the studies and applied research part of this book and which defined the sites of focus for a collaborative studio workshop Durban is a modern city which expresses the complex dynamics of an African city emerging from a historically colonial foundation This provided an interesting context for engagement of the UNESCO Chair for Sustainable Urban Quality and Culture notably in Africa The institutional agreement between the UNESCO Chair Sapienza University of Rome and the Durban University of Technology DUT was formalised in the year 2013 prior to an international workshop in China and the UIA 2014 in Durban South Africa The focus of the Chair and the curriculum outcomes of DUT with regard to urban culture and the evolution thereof created a mutually opportune association with the possibility for contribution to the UIA 2014 conference in Durban After deliberations and the necessary paperwork the UNESCO Chair in Association with DUT were granted official space on the UIA Programme for presentation at the conference This was received with much enthusiasm which drew further interest and participation from students and Professors of Sapienza University of Rome and Tsinghua University of Beijing in China Further representation of academics from Manipal University in India School of Architecture University of Florida and Hosei University in Japan added much value to the collaboration in Durban **Opposition and Democracy in South Africa** Roger Southall, 2014-01-14 This collection examines the nature scope and prospects for political opposition under African National Congress political dominance *SOCIAL AND ECONOMIC DEVELOPMENT - Volume IV* Salustiano del Campo , Tomoko Hamada , Giancarlo Barbiroli, Saskia Sassen, Eleonora Barbieri-Masini, Paul Nchoji Nkwi, Owen Sichone, Abubakar Momoh, 2010-11-15 Social and Economic Development is a component of Encyclopedia of Development and Economic Sciences in the global Encyclopedia of Life Support Systems EOLSS which is an integrated compendium of twenty one Encyclopedias The Theme on Social and Economic Development provides the essential aspects and a myriad of issues of great relevance to our world such as Socioeconomic Developmental Social Work Perspectives on Contemporary Socioeconomic Development Sustainable Development of Natural Resource Capital Sustainable Development Of Human Resource Capital Intellectual And Knowledge Capital For Sustainable Development At Local National Regional And Global Levels Economic And Financial System Development Information And Knowledge Institutional And Infrastructure System Development Information And Knowledge Basic Principles Of Sustainable Development Environmental Economics And Sustainable Development Implementing Sustainable Development In A Changing World Economic Sociology Its History And Development The Socioeconomics Of
