City Life Urban Expectations In A New Wo:

City Life Witold Rybczynski,1996-10-10 Tracing the development of American cities and city life from early colonial settlements to the familiar downtowns of today a sweeping cultural history reveals how our urban spaces have been shaped by the land and the American lifestyle Reprint 25 000 first printing NYT Surfaces Joseph A. Amato,2013-05-08 In this book that interweaves history anthropology epistemology and aesthetics the author traces the human relationship with surfaces from human evolution up to the contemporary world Watching Race Herman Gray,1995 Examines the cultural politics of television and race In the late 1980s and early 1990s television representations of African Americans exploded on the small screen Why has this occurred and what relation do these shows have to society s idea of blackness How do these shows relate to earlier television series featuring African Americans Herman Gray s Watching Race now available in paperback for the first time offers a new look at the changing representations of African Americans on television Starting with the portrayal of blacks on series such as The Jack Benny Show and Amos n Andy Gray details the ongoing dialogue between television representations and cultural discourse to show how the meaning of blackness has changed through the years of the TV era Drawing on analyses of The Cosby Show Frank s Place In Living Color and Roc as well as music videos news coverage and advertising Watching Race examines how the political stakes cultural perspectives and social locations of key cultural and social formations influence the representation of blackness in television Absorbing Offers incisive analysis of the important often fierce battles being waged in the black and white representational landscape of commercial television Patricia Williams **Remaking Metropolis** Edward Cook,Jesus Lara,2012-11-12 Remaking Metropolis examines examples of both urban decay and destruction as well as urban rebirth It shows why particular approaches were successful or did not achieve their objectives By bringing together innovative approaches to urban living from across the world and by demonstrating how local initiatives can contribute to global solutions the book establishes a framework in which to evaluate current and future developments for urban change and to stimulate a reassessment of urban redevelopment and policies Think Globally Act Locally is an oft used phrase to encourage citizens to take steps close to home as part of addressing overarching environmental issues Critics of this view point to the potential for parochial or even myopic approaches while supporters argue that it creates both a more sustainable and a more culturally grounded environment Remaking Metropolis brings together real world experiences that combine local action with a global world view to demonstrate the continuum between the local and the remote At the same time the compartmentalization of contemporary perspectives towards human life in the fields of science design ecology medicine and politics is leading to increased fragmentation of the mind body city and globe By bridging these artificial divides between disciplines this collection of individual case studies demonstrates the holistic approach necessary for a genuinely sustainable urban condition **Grounds for Review** Andrew C. Theokas,2004-01-01 In recent decades suburban growth and the decline of industry have left cities throughout Europe and

America searching for creative and effective ways to revitalize blighted areas and reclaim underused land In *Grounds for Review* Andrew Theokas examines one particularly exciting tool for reinvigorating urban areas the garden festival These festivals which began in post war Europe have been popular throughout the Continent for decades but are just beginning to gain currency in the United States A garden festival temporarily transforms a previously derelict area such as an abandoned factory lot into a festival of horticulture combining luxurious landscapes with exhibits and carnival rides Most garden festivals last about six months during which time they draw millions of visitors but the success of the fair itself is only the initial step in a detailed plan for urban improvement At the conclusion of the festival funds from its operation are used to transform the grounds once again this time with an eye toward the long term use of the land The enduring result of a successful garden festival is thus the transformation of derelict land into a community asset such as a new urban park or an affordable housing project Theokas considers here fifteen garden festivals in Europe England and the United States in all their dimensions He examines the role they play in stimulating urban redevelopment their effects on the practice of landscape architecture and the contentious debates over their financing purposes and future prospects This highly illustrated volume will serve as a useful introduction to garden festivals for all those interested in urban planning horticulture and the future of cities

Creating a Democratic Public Kevin Mattson, 2010-11 During America's Progressive Era at the beginning of the twentieth century democracy was more alive than it is today Social activists and intellectuals of that era formed institutions where citizens educated themselves about pressing issues and public matters While these efforts at democratic participation have largely been forgotten their rediscovery may represent our best hope for resolving the current crisis of democracy in the United States Mattson explores the work of early activists like Charles Zueblin who tried to

advance adult education at the University of Chicago and Frederic Howe whose People's Institute sparked the nationwide forum movement. He then turns to the social centers movement which began in Rochester, New York, in 1907 with the opening of public schools to adults in the evening as centers for debate over current issues. Mattson tells how this simple program grew into a national phenomenon and cites its achievements and political ideals and he analyzes the political thought of activists within the movement, notably Mary Parker Follett and Edward Ward, to show that these intellectuals had a profound understanding of what was needed to create vigorous democratic practices. *Creating a Democratic Public* challenges us to reconsider how we think about democracy by bringing us into critical dialogue with the past and exploring the work of yesterday's activists. Combining historical analysis, political theory, and social criticism, Mattson analyzes experiments in grassroots democracy from the Progressive Era and explores how we might foster more public involvement in political deliberation today.

Sundays at Sinai Tobias Brinkmann, 2012-05-14. First established 150 years ago, Chicago Sinai is one of America's oldest Reform Jewish congregations. Its founders were upwardly mobile and civically committed men and women, founders and partners of banks and landmark businesses like Hart Schaffner Marx, Sears Roebuck, and the giant meatpacking firm Morris Co. As explicitly modern Jews, Sinai's members supported and led civic institutions and participated actively in Chicago politics. Perhaps most radically, their Sunday services, introduced in 1874 and still celebrated today, became a hallmark of the congregation. In *Sundays at Sinai*, Tobias Brinkmann brings modern Jewish history, immigration, urban history, and religious history together to trace the roots of radical Reform Judaism from across the Atlantic to this rapidly growing American metropolis. Brinkmann shines a light on the development of an urban reform congregation, illuminating Chicago Sinai's practices and history and its contribution to Christian-Jewish dialogue in the United States. *Chronicling Chicago Sinai* is a radical beginnings in antebellum Chicago to the present. *Sundays at Sinai* is the extraordinary story of a leading Jewish Reform congregation in one of America's great cities.

The Old Neighborhood Ray Suarez, 1999-05-10. An examination of American cities since 1950, looking at the issue of white flight and discussing its impact on schools, housing, crime, and jobs.

Mapping St. Petersburg Julie A. Buckler, 2018-06-05. Pushkin's palaces or Dostoevsky's slums? Many a modern-day visitor to St. Petersburg has one or more likely both of these images in mind when setting foot in this stage set like setting for some of the world's most treasured literary masterpieces. What they overlook is the vast uncharted territory in between. In *Mapping St. Petersburg*, Julie Buckler traces the evolution of Russia's onetime capital from a conceptual hierarchy to a living cultural system, a topography expressed not only by the city's physical structures but also by the literary texts that have helped create it. By favoring noncanonical works and underdescribed spaces, Buckler seeks to revise the literary monumentalization of St. Petersburg with Pushkin and Dostoevsky representing two traditional, albeit opposing, perspectives to offer an off-center view of a richer, less familiar urban landscape. She views this grand city, the product of Peter the Great's ambitious vision, not only as a geographical entity but also as a network of genres that carries historical and cultural meaning.

We discover the busy messy middle ground of this hybrid city through an intricate web of descriptions in literary works nonfiction writings such as sketches feuilletons memoirs letters essays criticism and urban legends lore songs and social practices all of which add character and depth to this refurbished imperial city *Straphanger* Taras Grescoe,2012-04-24

Taras Grescoe rides the rails all over the world and makes an elegant and impassioned case for the imminent end of car culture and the coming transportation revolution I am proud to call myself a straphanger writes Taras Grescoe The perception of public transportation in America is often unflattering a squalid last resort for those with one too many drunk driving charges too poor to afford insurance or too decrepit to get behind the wheel of a car Indeed a century of auto centric culture and city planning has left most of the country with public transportation that is underfunded ill maintained and ill conceived But as the demand for petroleum is fast outpacing the world s supply a revolution in transportation is under way Grescoe explores the ascendance of the straphangers the growing number of people who rely on public transportation to go about the business of their daily lives On a journey that takes him around the world from New York to Moscow Paris Copenhagen Tokyo Bogot Phoenix Portland Vancouver and Philadelphia Grescoe profiles public transportation here and abroad highlighting the people and ideas that may help undo the damage that car centric planning has done to our cities and create convenient affordable and sustainable urban transportation and better city living for all *Making the Metropolitan Landscape* Jacqueline Tatom,Jennifer Stauber,2009-05-07
