Times Square and 42nd Street in Vintage Postcards Randall Gabrielan, 2000 Times Square celebrated as the crossroads of the world begins at 42nd Street America's main stem Times Square has a rich history as the center of American popular culture embracing music theater and hospitality Forty second Street once the northern boundary of commercial New York was transformed into a legendary focal point of the publishing entertainment and transportation industries following the expansion of Grand Central Terminal

American Holiday Postcards, 1905-1915 Daniel Gifford, 2013-09-05 In the early 20th century postcards were one of the most important and popular expressions of holiday sentiment in American culture Millions of such postcards circulated among networks of community and kin as part of a larger American postcard craze However their uses and meanings were far from universal This book argues that holiday postcards circulated primarily among rural and small town Northern white women with Anglo Saxon and Germanic heritages Through analysis of a broad range of sources Daniel Gifford recreates the history of postcards to account for these specific audiences and reconsiders the postcard phenomenon as an image based conversation among exclusive groups of Americans A variety of narratives are thus revealed the debates generated by the Country Life Movement the empowering manifestations of the New Woman the civic privileges of whiteness and the role of emerging technologies From Santa Claus to Easter bunnies flag waving turkeys to gun toting cupids holiday postcards at first seem to be amusing expressions of a halcyon past Yet with knowledge of audience and historical conflicts this book demonstrates how the postcard images reveal deep divides at the height of the Progressive Era

Postcards from the Middle East Chris Naylor, 2015-03-20 Newly married Chris and Susanna Naylor set off for a new life in the Arab world living first in Kuwait then Jordan and finally Lebanon In a region never far from the news they discovered their expectations of war terrorism desert sand dunes men in white robes and veiled women camels and Kalashnikovs indeed their own reasons for being there were to be constantly challenged As they found out the reality bore little resemblance to their pre conceptions Postcards from the Middle East is a tale of love from one family's experiences a story of work schooling friendships worship and shared family life lived out in precious

 Postcards from the Road Jonathan Day,2014-05-01 Walker Evans said in his 1958 introduction to Robert Frank's The

Americans For the thousandth time it must be said that pictures speak for themselves wordlessly visually or they fail The images revolutionized post war American photography With their candid images of men and women from all classes and walks of life the photographs presented a very different story than that portrayed by the wholesome caricature of midcentury prosperity pervading American photography at the time Although initially dismissed by his peers for his pioneering work Frank was ultimately credited with changing the course of the art form and his photography holds a secure status in the history of twentieth century art And he did all this without words It seems appropriate then and not a little overdue that Jonathan Day has created a book that expounds explores and examines Frank s work pictorially Taking Frank s iconic images as his point of reference Day shot new photographs that commented on the road and contemporary America Here these images are paired with critical commentary that details the aspects of the work that are visually expounded and explained in Day s complementary images A visual entryway to the photographs and themes of this iconic book in the history of photography Postcards from the Road represents an innovative carefully considered departure from standard photographic textbooks

Postcards from Patmos Osvaldo D. Vena, 2024-11-27 In this work a fictionalized John is addressing a contemporary audience directly as if they were the original recipients of the book Unlike the author's two previous books which were historical fictions this one does not include fictional elements It does not dwell on possible scenarios advanced by information found in the text like the trip to Spain in the case of Paul Rather it aims at providing the audience with some additional historical information so they can have a better understanding of the place and time in which John wrote The reader will notice for example that instead of using inclusive language which would be anachronistic John uses male language to address God The author also explores fictionally John's feelings to allow the readers to imagine how he might have felt in the troubled times he lived in
