City Of London Past:

City of London Past Richard Tames, 1995 *City of London Past and Present* J. K. Fisher, 1976 *Japan and the City of London* Paul Newall, 2013-12-17 From an insider's position Sir Paul Newall tells the story of Japan's links with the City of London and explains why the City was first chosen by Japan as the focal point for its overseas financial investment. This account draws upon the author's close contact with Japanese governmental and financial authorities both in the UK and Japan itself. It documents the evolution and development of this relationship from the earliest beginnings of Japanese financial contact in the 1860s. Important to economic and financial historians, this account should also be of particular value to those dealing with Japanese companies and financial institutions as well as to those Japanese who are working or have worked in the City. First published in 1996, this title is part of the Bloomsbury Academic Collections series. [HISTORICAL AND LITERARY MEMORIALS OF THE CITY OF LONDON](#) John Heneage Jesse, 2024-02-01 *Historical and Literary Memorials of the City of London* is a work by John Heneage Jesse. Published in the 19th century, this book is a collection of historical and literary accounts focused on the city of London. John Heneage Jesse was an English historian and writer known for his works on historical topics. In this particular volume, Jesse likely delves into various aspects of London's history, including notable events, landmarks, literary connections, and perhaps the social and cultural development of the city. For readers interested in the history of London, especially during the 19th century, *Historical and Literary Memorials of the City of London* by John Heneage Jesse could provide valuable insights and a glimpse into the city's rich past. **The City in the City** Amy Thomas, 2023-12-26 An exploration of the dramatic transformation of London's financial district after 1945, viewed at four spatial scales: city, street, facade, interior. In *The City in the City*, Amy Thomas offers the first in-depth architectural and urban history of London's financial district, the City of London, from the period of rebuilding after World War II to the explosive climax of financial deregulation in the 1980s and its long aftermath. Thomas examines abstract financial ideas, political ideology, and invisible markets as concrete realities working on four spatial scales: city, street, facade, and interior. The book explores the grand plans, hidden alleys, neo-Georgian elevations, and sweaty dealing floors that have made the financial center work. Moving from politics to sociology, institutions to bodies, development plans to office desks, Thomas unravels the rich entanglements between the structure of the UK's financial system and the structure of the environment in which it operates. Despite its physical and political centrality, this period of the City's architectural history occupies an academic lacuna. Longstanding prejudices about developer-led architecture and the real estate industry have obscured the postwar City's relevance. The book shows how, as currents of local government reform, nation building, and globalization swept across Britain, the City became an ideological battleground for debates between politicians and financial institutions, real estate developers and architects, preservationists and so-called proactive planners throughout the latter half of the century. The City of London is a place steeped in rich cultural and architectural heritage of immense national significance, yet it is also a highly privileged

citadel at the core of global financial networks The City in the City is both a critique and a celebration of this unique and complex place **Catalogue of the Guildhall Library of the City of London** Guildhall (London). - Library,1889
