

(who perhaps could be better termed the Teflon General) was kept in the Southwest Pacific to minimize his press exposure. Truman found a similar logic: better a MacArthur confusing and complicating occupation policy in Japan than one actively running for office in 1948 and then, until April 1951, better a MacArthur blundering and blustering in Korea than one leading the charge of the Republican "primitives" back home. Indeed, Schaller advances the intriguing possibility that MacArthur may have sought his April recall from Korea for the same reason he looked to escape Corregidor nine years earlier: both had become political dead-ends.

Schaller's touch in recounting these episodes is sure and persuasive, but they are disappointingly infrequent in his account. Rather than inform the reader what MacArthur was doing when he was not sparring with the president, the joint chiefs of staff, the navy, or the departments of Defense and State, Schaller provides an overview of American relations with the Philippines, Japan, or China—with MacArthur at best a peripheral actor. Schaller implies that MacArthur indeed was peripheral more times than not, and it is hard to quarrel with this judgment. Even so, East Asian leaders were struck with MacArthur. How did they see him and, through him, America's presence in their countries? Schaller's account on this score is slight save for his fine examination of MacArthur's successful intervention on behalf of Manuel Roxas in the Philippines immediately after the war. This was an important exception to MacArthur's bumbling powerlessness, but Schaller provides little analysis of context or consequences in Washington or Manila.

Likewise Schaller's treatment of MacArthur as Supreme Commander for the Allied Powers (SCAP) in occupation Japan provides a fascinating explanation of how MacArthur's zigzagging positions on critical issues such as dissolving the *zaibatsu* were set (and reset) in terms of his political ambitions at home, not how those positions would affect Japan. How MacArthur's shifts affected the way Japanese leaders saw their future with the United States is not covered. Ironically, Schaller is best in describing the growing alarm in the PRC of MacArthurism and Mao Tse-tung's resolve to intervene massively in the Korean War as a result. Elsewhere the attitudes and reactions of East Asian leaders to the book's subject receive slim coverage.

In this respect the book's subtitle is misleading. There is little of the Far East here, and not much of MacArthur's generalship. For readers interested in the fascinating and important story of how American domestic politics formed the core of America's East Asian policies—even for a man who spent nearly a decade and a half away from American shores—Schaller's book is indispensable. For those wishing to know more about how American military and diplomatic leaders influenced their East Asian counterparts, his book suggests but does not pursue many avenues worth investigating.
