

The background of the book cover is a photograph of ancient Greek temple ruins. In the foreground, there are several large, rectangular stone blocks, likely part of a collapsed entablature or steps, arranged in a row. In the background, several tall, fluted columns of a temple stand, though they are slightly out of focus. The overall tone is historical and scholarly.

ON CIVIC REPUBLICANISM

ANCIENT LESSONS FOR GLOBAL POLITICS

EDITED BY GEOFFREY C. KELLOW AND NEVEN LEDDY

Civic Republicanism

Harold Mah

Civic Republicanism:

Civic Republicanism Iseult Honohan, 2002 This is a valuable introduction to one of the most important traditions in political philosophy This will be essential reading for students of politics and philosophy Civic Republicanism and Civic Education A. Peterson, 2011-04-12 This book critically explores civic republicanism in light of contemporary republican political theory and the influence of republican models of citizenship in recent developments in civic education across a number of Western nations **Civic Republicanism and the Properties of Democracy** Erik J. Olsen, 2006-01-01 Taking the revival of civic republicanism as his point of departure Erik Olsen examines the relationship between property civic virtue and democracy in post socialist political thought Steering a course between the crass materialism that post socialists criticize and their own post materialist perspective Olsen outlines a theory of democratic stakeholding in which citizens have rights of inhabitation in their commonwealth **On Civic Republicanism** Geoffrey C. Kellow, Neven Leddy, 2016-01-01 On Civic Republicanism explores the enduring relevance of the ancient concepts of republicanism and civic virtue to modern questions about political engagement and identity The Handbook of Political Sociology Thomas Janoski, Robert R. Alford, Alexander M. Hicks, Mildred A. Schwartz, 2005-05-23 This Handbook provides a complete survey of the vibrant field of political sociology Part I explores the theories of political sociology Part II focuses on the formation transitions and regime structure of the state Part III takes up various aspects of the state that respond to pressures from civil society **The Routledge Companion to Education** James Arthur, Andrew Peterson, 2013-07-23 The Routledge Companion to Education presents the most comprehensive up to date guide available to the major topics and theories in education Forty specially commissioned chapters covering all aspects of education introduce you to the key thinkers events ideas research and issues that have shaped the field of education *Press "ONE" for English* Deborah J. Schildkraut, 2013-10-24 Press ONE for English examines how Americans form opinions on language policy issues such as declaring English the official language printing documents in multiple languages and bilingual education Deborah Schildkraut shows that people's conceptions of American national identity play an integral role in shaping their views Using insights from American political thought and intellectual history she highlights several components of that identity and shows how they are brought to bear on debates about language Her analysis expands the range of factors typically thought to explain attitudes in such policy areas emphasizing in particular the role that civic republicanism's call for active and responsible citizenship plays in shaping opinion on language issues Using focus groups and survey data Schildkraut develops a model of public conceptions of what it means to be American and demonstrates the complex ways in which people draw on these conceptions when forming and explaining their views In so doing she illustrates how focus group methodology can help yield vital new insights into opinion formation With the rise in the use of ballot initiatives to implement language policies understanding opinion formation in this policy area has become imperative This book enhances our understanding of this increasingly pressing concern and points the way toward

humane effective and broadly popular language policies that address the realities of American demographics in the twenty first century while staying true to the nation s most revered values **Citizenship** Bryan S. Turner, Peter Hamilton, 1994

SECTION 2 THE CLASSICS Popular Government and the Supreme Court Lane V. Sunderland, 1996 With quiet eloquence Lane Sunderland argues that we must reclaim the fundamental principles of the Constitution if we are to restore democratic government to its proper role in American life For far too long he contends the popular will has been held in check by an overly powerful Supreme Court using non constitutional principles to make policy and promote its own political agendas His work shows why this has diminished American democracy and what we can do to revive it Sunderland presents a strong thoughtful challenge to the constitutional theories promoted by Ronald Dworkin Archibald Cox Richard Epstein Michael Perry John Hart Ely Robert Bork Philip Kurland Laurence Tribe Mark Tushnet and Catharine MacKinnon an enormously diverse group united by an apparent belief in judicial supremacy Their theories he demonstrates undermine the democratic foundations of the Constitution and the power of the majority to resolve for itself important questions of justice Central to this enterprise is Sunderland s reconsideration of *The Federalist* as the first most reliable and most profound commentary on the Constitution *The Federalist* he states is crucial because it explains the underlying theory of the Constitution as a whole a theory that gives meaning to its particular provisions In addition Sunderland reexamines the Declaration of Independence and the work of Hobbes Locke and Montesquieu in order to better define the nature and limits of their influence on the Framers His reading of these works in conjunction with *The Federalist* shows just how far afield contemporary commentators have strayed Sunderland deliberately echoes and amplifies Madison s wisdom in *Federalist* No 10 that the object of the Constitution is to secure the public good and private rights and at the same time to preserve the spirit and form of popular government To attain that object he persuasively argues requires that the judiciary acknowledge and enforce the constitutional limitations upon its own powers In an era loudly proclaiming the return of popular government majority rule and the will of the people that argument is especially relevant and appealing **Enlightenment Phantasies** Harold

Mah, 2018-08-06 For centuries the histories of France and Germany have been linked in ways productive and destructive and each nation s sense of itself has often been shaped by admiration of or hostility toward the other Harold Mah explores the interweaving paths of German and French cultural identity that emerged in the Enlightenment and continued through the nineteenth century and into the twentieth Mah argues that the efforts of German and French intellectuals and artists to formulate stable cultural identities constantly collapsed in the face of other powerful images and the rush of history In Mah s view these shifting conceptions of cultural identity are problematic phantasies internally unstable and prone to falling apart under the pressure of events only to be replaced by new equally problematic constructions Mah offers fresh analyses of a wide range of iconic texts and artworks including those of Jacques Louis David de Sta l Diderot and Rousseau in France and Goethe Hegel Herder Mann Marx and Nietzsche in Germany Mah s book examines how attempts to define cultural identities

were caught up in issues of language gender classical revival politics and modernity Enlightenment Phantasies presents the shaping of cultural identity in narratives accessible not only to specialists but also to students and all readers concerned with the history of Western culture *Theories of Democracy* Frank Cunningham,2002 This descriptive more than prescriptive journey begins with an Anglo North American overview of the democratic terrain and then zooms in on specific democratic landscapes liberal classic pluralism catallaxy exchange economics applied to political science participatory democracy democratic pragmatism deliberative democracy and radical pluralism Democracy's place within a globalizing world occupies the last chapter Cunningham philosophy U of Toronto admits he leans toward democratic pragmatism as espoused in John Dewey's *The Public and Its Problems* 1927 Suitable for an introductory university course Distributed by Taylor Francis Annotation copyrighted by Book News Inc Portland OR *David Hume's Political Theory* Neil McArthur,2007-01-01 David Hume's *Political Theory* brings together Hume's diverse writings on law and government collected and examined with a view to revealing the philosopher's coherent and persuasive theory of politics *Shakespeare's Anti-Politics* D. Gil,2013-08-15 Argues that Shakespeare is anti political dissecting the nature of the nation state and charting a surprising form of resistance to it using sovereign power against itself to engineer new forms of selfhood and relationality that escape the orbit of the nation state It is these new experiences that the book terms the life of the flesh **Militainment, Inc.** Roger Stahl,2009-12-04 Militainment Inc offers provocative sometimes disturbing insight into the ways that war is presented and viewed as entertainment or militainment in contemporary American popular culture War has been the subject of entertainment for centuries but Roger Stahl argues that a new interactive mode of militarized entertainment is recruiting its audience as virtual citizen soldiers The author examines a wide range of historical and contemporary media examples to demonstrate the ways that war now invites audiences to enter the spectacle as an interactive participant through a variety of channels from news coverage to online video games to reality television Simply put rather than presenting war as something to be watched the new interactive militainment presents war as something to be played and experienced vicariously Stahl examines the challenges that this new mode of militarized entertainment poses for democracy and explores the controversies and resistant practices that it has inspired This volume is essential reading for anyone interested in the relationship between war and media and it sheds surprising light on the connections between virtual battlefields and the international conflicts unfolding in Iraq and Afghanistan today **Inventing American Exceptionalism** Amalia D. Kessler,2017-01-10 A highly engaging account of the developments not only legal but also socioeconomic political and cultural that gave rise to Americans distinctively lawyer driven legal culture When Americans imagine their legal system it is the adversarial trial dominated by dueling larger than life lawyers undertaking grand public performances that first comes to mind But as award winning author Amalia Kessler reveals in this engrossing history it was only in the turbulent decades before the Civil War that adversarialism became a defining American practice and ideology displacing alternative more judge driven approaches to

procedure By drawing on a broad range of methods and sources and by recovering neglected influences including from Europe the author shows how the emergence of the American adversarial legal culture was a product not only of developments internal to law but also of wider socioeconomic political and cultural debates over whether and how to undertake market regulation and pursue racial equality As a result adversarialism came to play a key role in defining American legal institutions and practices as well as national identity

A Pragmatist Philosophy of Democracy Robert B. Talisse, 2013-08-21 In this book Robert B Talisse advances a series of pragmatic arguments against Deweyan democracy Drawing upon the epistemology of the founder of pragmatism Charles S Peirce Talisse develops a conception of democracy that is anti Deweyan but nonetheless pragmatist The result is a new pragmatist option in democratic theory

The Routledge Handbook of Philosophy of Friendship Diane Jeske, 2022-09-27 The Routledge Handbook of the Philosophy of Friendship is a superb compilation of chapters that explore the history major topics and controversies in philosophical work on friendship It gives both the advanced scholar and the novice in the field an overview and also an in depth exploration of the connections between friendship and the history of philosophy morality practical rationality value theory and interpersonal relationships more generally The Handbook consists of 31 newly commissioned chapters by an international slate of contributors and is divided into six sections I Historical Perspectives II Who Can Be Our Friends III Friendship and Other Relationships IV The Value and Rationality of Friendship V Friendship Morality and Virtue VI New Issues in Philosophy of Friendship This volume is essential reading not only for anyone interested in the philosophical questions involving friendship but also for anyone interested in related topics such as love sex moral duties the good life the nature of rationality interpersonal and interspecies relationships and the nature of the person

Encyclopedia of Political Theory Mark Bevir, 2010-03-18 Looking at the roots of contemporary political theory this three volume set examines the global landscape of all the key theories and the theorists behind them and provides concise to the point definitions of key concepts ideas schools and figures

Rethinking the Future of Europe Stefan Schepers, 2014-10-08 Rethinking the Future of Europe has brought together three contrasting collections of contributions the incrementalist perspective concerning the step by step development of Europe the more radical reform restructuring approach to the future of Europe and a view of Europe from the outside

Economics and the Law Nicholas Mercuro, Steven G. Medema, 2020-07-21 This is an expanded second edition of Nicholas Mercuro and Steven Medema s influential book Economics and the Law whose publication in 1998 marked the most comprehensive overview of the various schools of thought in the burgeoning field of Law and Economics Each of these competing yet complementary traditions has both redefined the study of law and exposed the key economic implications of the legal environment The book remains true to the scope and aims of the first edition but also takes account of the field s evolution At the book s core is an expanded discussion of the Chicago school Public Choice Theory Institutional Law and Economics and New Institutional Economics A new chapter explores the Law and Economics literature on social

norms today an integral part of each of the schools of thought The chapter on the New Haven and Modern Civic Republican approaches has likewise been expanded These chapters are complemented by a discussion of the Austrian school of Law and Economics Each chapter now includes an At Work section presenting applications of that particular school of thought By providing readers with a concise noncritical description of the broad contours of each school this book illuminates the fundamental insights of a field with important implications not only for economics and the law but also for political science philosophy public administration and sociology

Decoding **Civic Republicanism**: Revealing the Captivating Potential of Verbal Expression

In an era characterized by interconnectedness and an insatiable thirst for knowledge, the captivating potential of verbal expression has emerged as a formidable force.
