Kennedy,Gregory Fairbrother,Zhenzhou Zhao,2013-10-15 There is a flourishing literature on citizenship education in China that is mostly unknown in the West Liberal political theorists often assume that only in democracy should citizens be prepared for their future responsibilities yet citizenship education in China has undergone a number of transformations as the political system has sought to cope with market reforms globalization and pressures both externally and within the country for broader political reforms Over the past decade Chinese scholars have been struggling for official recognition of citizenship education as a key component of the school curriculum in these changing contexts This book analyzes the citizenship education issues under discussion within China and aims to provide a voice for its scholars at a time when China s international role is becoming increasingly important Promoting good citizenship James Bryce Viscount Bryce,2023-07-09 In Promoting Good Citizenship James Bryce Viscount Bryce delves into the essential ideals and responsibilities intrinsic to a functioning democracy This work combines a rich historical narrative with a vigorous call to civic engagement illustrating how good citizenship is vital not only to individual fulfillment but also to societal stability Bryce employs a clear impactful prose style seamlessly weaving empirical evidence philosophical reflection and practical examples to advocate for active participation in public life and the significance of moral character within citizenship particularly against the backdrop of early 20th century societal changes James Bryce a prominent British statesman historian and diplomat drew upon his extensive experiences in public service and his deep understanding of political philosophy to craft this resonant text Having observed the challenges faced by democracies firsthand especially in the post Victorian era Bryce was uniquely positioned to emphasize the pressing need for citizens to be informed and engaged His belief in the power of education and moral development as cornerstones of civic duty is thoroughly reflected throughout the book This seminal work is highly recommended for anyone interested in the dynamics of citizenship and democratic governance Bryce s articulate arguments not only serve as a historical testimony of his time but also resonate profoundly with contemporary discussions surrounding civic responsibility making it an indispensable read for scholars students and active citizens alike **Thesaurus of ERIC Descriptors** ,1984 **The American Magazine of Civics** Andrew J. The Politics and Civics of National Service Melissa

Bass,2013-01-03 In 1933 President Franklin D Roosevelt created America s first domestic national service program the Civilian Conservation Corps CCC As part of this program the largest and most highly esteemed of its kind nearly three million unemployed men worked to rehabilitate protect and build the nation s natural resources It demonstrated what citizens and government could accomplish together Yet despite its success the CCC was short lived While more controversial programs such as President Johnson s Volunteers in Service to America VISTA and President Clinton s AmeriCorps survived why did CCC die And why given the hard won continuation and expansion of AmeriCorps is national service an option for fewer Americans today than at its start nearly eighty years ago In *The Politics and Civics of National Service* Melissa Bass focuses on the history current relevance and impact of domestic civilian national service She explains why such service has yet to be deeply institutionalized in the United States while military and higher education have solidified their roles as American institutions civilian national service is still not recognized as a long term policy option Bass argues that only by examining these programs over time can we understand national service s successes and limitations both in terms of its political support and its civics lessons *The Politics and Civics of National Service* furthers our understanding of American political development by comparing programs founded during three distinct political eras the New Deal the Great Society and the early Clinton years and tracing them over time To a remarkable extent the CCC VISTA and AmeriCorps reflect the

policymaking ethos and political controversies of their times illuminating principles that hold well beyond the field of national service By emphasizing these programs effects on citizenship and civic engagement The Politics and Civics of National Ser

This volume emerging from a cross national study of teachers perception of good citizenship addresses two fundamental questions What do teachers see as important in citizenship education How do these perceptions facilitate or hinder the preparation of good citizens While providing rich and useful data on the latest developments of citizenship education in various contexts this book also offers an all round review of concepts and arguments on the subject as well as insightful comparative analyses of the findings emerged from the case studies One encouraging conclusion drawn from these studies is that teachers across nations share similar goals and objectives that seem to have transcended cultural and political boundaries *Resources in Education* ,1999-10 **Citizenship Education And The Modern State** Kerry

Kennedy,2012-11-12 Citizenship education has recently re emerged as an important issue both in policy and in practice As the nation state undergoes rapid transformation at the end of the 20th century both Eastern and Western states have focused attention on using the school curriculum as a medium for sustaining cohesion and unity within society But as we approach the 21st century is the possibility of a common citizenship a reality This book is designed to provide educators with access to ideas and information that will help them to understand current citizenship education initiatives across a number of countries It provides a theoretical rationale in which to consider those issues illustrates how such issues are being worked out in practice in a number of countries and provides assistance for policy makers teacher educators and teachers who are responsible for making decisions about the context of citizenship education programmes for schools **Civic and**

Citizenship Education in Volatile Times Kerry J Kennedy,2019-04-23 The book highlights current issues influencing civic and citizenship education and their theoretical underpinnings It provides an overview of the key features influencing democratic deconsolidation suggests ways in which civic and citizenship education needs to be reframed in order to fit this new political environment and demonstrates how social media will play a significant role in any future for civic and citizenship education Currently democratic institutions are under attack democratic values are threatened and there is a wide scale retreat from the liberal consensus that has underpinned liberal democracies internationally These trends can be seen in events like Brexit the election of a right wing populist President of the United States and anti democratic governments in parts of Europe It is this change in the direction of political ideology that is currently deconsolidating democracy and thus challenging traditional approaches to civic and citizenship education What is urgently needed is an

understanding of these current trends and their implications for thinking in new ways about civic and citizenship education in the 21st century American Public Education and the Responsibility of Its Citizens Sarah Marie Stitzlein, 2017 Rather than poorly performing schools the current educational crisis is really about citizen responsibility Citizens must insure that democratic processes are nurtured This is perhaps most achievable in public schools Therefore citizens have a responsibility to support public schools and this book offers tools and knowledge to help citizens fulfill it **Education for Democratic Citizenship** Jean-Marie Heydt, Council of Europe, Council of Europe. Council for Cultural Co-operation, 2001-01-01 The aim of the questionnaire which formed the basis of this paper was to collect information to test the theory that parents have a responsibility to pass on certain values and a social way of life within a family unit It analyses the use of words reactions and attitudes of non governmental organisations in the sphere of citizenship The questions focussed on three main areas who spoke and in what circumstances the meaning citizens assigned to certain terms peoples attitudes to citizenship
