Civil Society In China:

Civil Society in China Timothy Brook, B. Michael Frolic, 2015-03-04 The concept of civil society was borrowed from 18th century Europe to provide a framework for understanding the transition to post authoritarian regimes in Latin America and post communist regimes elsewhere This book asks whether this concept is useful for analyzing China The Democratic Implications of Civil Society in China B. He, 2016-07-27 This book discusses the roles of civil society in the initiation stage of democratization in China It argues that there is a semi civil society in China and that this quasi civil society that plays dual roles in the initial stage of democratisation in China It makes a contribution to existing theories on democratic functions of civil society by applying testing revising and developing these theories in the context of Chinese democratization **Global Civil Society and China** Anthony J. Spires, 2024-04-18 This Element traces the history of and recent developments in the unstable relationship between global civil society GCS and China It analyses the normative impacts GCS has had on China including the Chinese state and domestic civil society and the possibilities created by Beijing's new going out policies for Chinese civil society groups It examines the rhetoric and reality of GCS as an emancipatory project and argues that universal values underpinned by principles of human rights and democracy have gained currency in China despite official resistance from the government It argues that while the Chinese party state is keen to benefit from GCS engagement Beijing is also determined to minimize any impact outside groups might have on regime security The Element concludes with some observations about future research directions and the internationalization of Chinese civil society **Transnational Civil Society in China** J. Chen, 2012-09-01 This book discusses the penetration growth and operation of transnational civil society TCS in China It explores impacts on the incremental development of China's political pluralism mainly through exploring the influences of the leading TCS actors on the country's bottom up and self governing activist NGOs that have sprung up spontaneously in terms of capacities strategies leadership and political outlook as a result of complex interactions between the two sectors **China's Opening Society** Zheng Yongnian, Joseph Fewsmith, 2008-02-19 This book examines the development of the non state sector and NGOs in China since the onset of reform in the late 1970s It explores the major issues facing China's non state sector today assesses the institutional barriers faced by its developing civil society and compares China's example with wider international experience **State And Civil Society: The Chinese Perspective** Zhenglai Deng, 2010-10-29 This volume the second instalment in the Series on Developing China Translated Research from China contains a collection of the most outstanding academic articles written by prestigious Chinese scholars of humanities and social sciences in the past three decades The volume aims to present to international readers a comprehensive discussion on state and civil society contextualized in the Chinese perspectives Important questions are posed within the context of Chinese national conditions particularities and histories to the validity applicability and viability of the state and civil society paradigm in the Western academia The in depth analysis of state and civil society as accomplished in the volume

includes not only theoretical reflections but also historical studies and empirical examinations In the past research done by Chinese scholars has not been adequately represented in English due to the language barrier This translated volume shall in no small way supplement the global discourse on state and civil society with the voices from within China

Civil Society in China Runya Qiaoan,2021-09-30 Chinese civil society groups have achieved iconic policy advocacy successes in the areas of environmental protection women s rights poverty alleviation and public health This book examines why some groups are successful in policy advocacy within the authoritarian context while others fail A mechanism of cultural resonance is introduced as an innovative theoretical framework to systematically compare interactions between Chinese civil society and the government in different movements It is argued that civil society advocacy results depend largely on whether advocates can achieve cultural resonance with policymakers and the mainstream public through their social performances The effective performance is the one in which advocates employ symbols embraced by the audience policymakers and the public in their actions and framings While many studies have tried to explain the phenomena of successful policy advocacy in China through institutional or organizational factors this book not only contains extensive empirical data based on field research but takes a cultural sociological turn to identify the meaning making process behind advocacy actions Civil Society in China will appeal to students and scholars of sociology political science social work and Chinese and Asian studies more broadly The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

Civil Society in China and Taiwan Taru Salmenkari,2017-09-14 The concept of civil society has often been used as a devise for differentiating China from other cultures Though sometimes portrayed as a growing phenomenon Chinese civil society is frequently said to be non existent Definitional deficiencies have therefore led to both a simplification and a narrow appreciation of societal developments in China By examining various forms of activity such as NGOs residential movements and alternative spaces this book however reassesses the idea of Chinese civil society Through questioning current methodological theoretical and structural assumptions it uses an empirical approach to criticize and expand upon existing understandings of civil society as it is applied in the field of Chinese Studies Based upon ethnographic research undertaken among activists in both mainland China and Taiwan it examines issues such as inequality the mobilizing skills needed for civil society activities and the technologies which exist to maintain the boundary between state and society Offering an analysis of Chinese civil society in the context of modernization social and economic liberalization and international civil society promotion this book will be useful to students and scholars of Chinese Studies and Taiwan Studies as well as development studies and civil society studies

Non-Governmental Organizations in Contemporary China Qiusha Ma,2005-11-16 Based on documentary materials including interviews with key players in China this book charts the development of non governmental and non profit organizations in China from the late 1970s to the

present day It recounts how in the aftermath of the 1978 reforms that created a market economy and diversified interests and social life new institutions and organizations outside of the state system increased dramatically in number size and influence These organizations which barely existed before the reforms began in the late 1970s carry out many social economic and cultural tasks neglected by the government Qiusha Ma examines two key questions crucial to understanding the development of NGOs in China First is it possible under China s one party state for non governmental organizations to thrive and play important economic social and political functions And secondly are NGOs facilitating the formation of a civil society in China *Building Civil Society in Authoritarian China* John W. Tai,2014-08-28 How is modern civil society created There are few contemporary studies on this important question and when it is addressed scholars tend to emphasize the institutional environment that facilitates a modern civil society However there is a need for a new perspective on this issue Contemporary China where a modern civil society remains in a nascent stage offers a valuable site to seek new answers Through a comparative analysis of nongovernmental organizations NGOs in today s China this study shows the importance of the human factor notably the NGO leadership in the establishment of a modern civil society In particular in recognition of the social nature of NGOs this study engages in a comparative examination of Chinese NGO leaders state linkage media connections and international ties in order to better understand how each factor contributes to effective NGOs **Civil Society Under Authoritarianism** Jessica C. Teets,2014-06-05 Civil Society under Authoritarianism takes a fresh look at civil society in China analyzing the nuanced and dynamic relationship between civil society and government officials

Freedom of Association in China and Europe Yuwen Li,2005-11-01 Understanding and exercising the right to freedom of association in a modern sense is a relatively new phenomenon in China The reform of old social organizations and the emergence of new privately initiated non profit organizations only began to occur in the 1980s and such organizations continued to expand throughout the 1990s Within a short period these new organizations have become a vibrant force in Chinese society This unique volume the first book in English to offer systematic and critical research in this field is the outcome of a three year research project on the Legal Aspects of Social Organisations in China The main aim of the project was to encourage Chinese researchers to deepen their knowledge and understanding of the current status of social organizations in China and to allow them to explore possible ways of creating a friendly legal environment conducive to the exercise of the right to freedom of association The book contains some of the best results of the Chinese researchers work and papers presented by European experts at two international seminars organized jointly by the Institute of Law of Chinese Academy of Social Sciences and Law Faculty of Utrecht University The Netherlands The contributions of the European experts explore different systems of regulation that have developed and which are accommodated within the legal framework and traditions of each particular country The aim of the volume is to stimulate international understanding of the progress made by China and the dilemmas it still faces with respect to its emerging new civil society organizations

Non-Governmental Organisations in China Lu Yiyi, 2009 **Civil Society and Governance in China** J.

Yu, 2012-03-12 Written by scholars from both inside and outside China this wide ranging collection of essays explores the complexity of the relationship between governance and civil society by combining theoretical exploration and empirical case studies based on the governance practice in China **Civic Discourse, Civil Society, and Chinese Communities** Randy Kluver, John H. Powers, 1999-11-10 The purpose of this volume is to bring together a set of chapters that investigate the communication practices through which Chinese societies are creating their civil foundations for the next millennium Civic Discourse Civil Society and Chinese Communities reflects both the emphasis on analyzing specific discursive practices in particular Chinese societies and on understanding the role that discursive practices play in the development of civil society more generally To Serve the People United States. Congressional-Executive Commission on China, 2003 Prepared statements and testimony by Carol Lee Hamrin Quisha Ma Karla W Simon and Nancy Yuan Governing Society In Contemporary China Wei Shan, Lijun Yang, 2016-07-28 This book examines how the Chinese state responds to the increasingly diverse civil society and maintains regime stability in a changing society In recent years the Chinese leadership has demonstrated great capability of adapting and developing sophisticated mechanisms of social control The chapters in this book cover a wide range of these mechanisms including co-opting social forces managing population and migration as well as controlling the media trade unions the internet non governmental organisations and the cultural industries The authors also discuss challenges the government is about to face and possible adjustments **The Individual and the State in China** Brian Hook, 1996 One of the most interesting questions in China studies today is the effect that the opening up of the country economically will have on the individual rights and freedoms of the population This volume addresses that issue by considering recent changes in the relations of the state and several groups in the population DSrural peasants manual workers the military the intellectual community and the youth of China With distinguished contributors this coherent and comprehensive volume should become an essential reference work for academics and students *Civil Society in China* Karla W. Simon, 2013-03-22 This is the definitive book on the legal and fiscal framework for civil society organizations CSOs in China from earliest times to the present day Civil Society in China traces the ways in which laws and regulations have shaped civil society over the 5 000 years of China's history and looks at ways in which social and economic history have affected the legal changes that have occurred over the millennia This book provides an historical and current analysis of the legal framework for civil society and citizen participation in China focusing not merely on legal analysis but also on the ways in which the legal framework influenced and was influenced in turn by social and economic developments The principal emphasis is on ways in which the Chinese people as opposed to high ranking officials or cadres have been able to play a part in the social and economic development of China through the associations in which they participate Civil Society in China sums up this rather complex journey through Chinese legal social and political history by assessing the ways in which social

economic and legal system reforms in today's China are bound to have an impact on civil society. The changes that have occurred in China's civil society since the late 1980s and most especially since the late 1990s are nothing short of remarkable. This volume is an essential guide for lawyers and scholars seeking an in-depth understanding of social life in China, written by one of its leading experts.
