Civil Engineering Contractual Procedures:

Civil Engineering Contractual Procedures Allan Ashworth, 2014-06-11 Civil Engineering Contractual Procedures gives an introduction to the contractual procedures legislation and administrative practices that are used in the civil engineering industry. It introduces the principles of contract law and the main forms of contract used in the construction industry. It then concentrates on the main forms of contract used in civil engineering with the discussion based on the ICE Conditions of Contract. It looks at the obligations of the various parties to the contract under all the clauses of the contract. Civil Engineering Contractual Procedures provides a sound basis for anyone seeking an understanding of the contractual administration of civil engineering projects. It is an essential core text for all students of civil engineering and related courses at both undergraduate and higher technician levels. It will also be a useful reference source for those already working in the industry.

Civil Engineering Contractual Procedures A. Ashworth, 1998 Contractual Procedures in the Construction Industry Allan Ashworth, 2006 This fifth edition of Contractual Procedures in the Construction Industry introduces a number of new chapters that reflect the changes in procurement including health and safety management, partnering the supply chain, sustainability and Constructing Excellence in the Built Environment. It aims to provide the student with a comprehensive understanding of the subject and reinforces the changes that are taking place within the construction industry such as how it is organised and the way in which consultants, contractors, subcontractors and all of those involved in the supply chain obtain work. Key Features: Four new chapters: Health and safety management, partnering the supply chain, sustainability and Constructing Excellence in the Built Environment. Existing chapters have been updated to include present legislation, new case studies and a special section on legal cases. New appendices. This new edition is suitable for students taking undergraduate courses in Building and Surveying, Quantity Surveying, Construction Management and Estate Management. It is also suitable for students on HND/C courses in Building and Construction Management and foundation degree courses in Building and Construction Management. Allan Ashworth is currently a visiting professor in the School of Construction and Property Management at the University of Salford and the Adjunct Professor of Quantity Surveying at UNITEC in New Zealand. He is also a senior academic advisor to the Centre for Education in the Built Environment (CEBE) based at the universities of Cardiff and Salford. He is a former HMI Her Majesty's Inspector in the Department for Education and Employment.

Aspects of Civil Engineering Contract Procedure R. J. Marks, R. J. E. Marks, R. E. Jackson, 2013-10-22 Revised and expanded, this book provides an up-to-date and comprehensive description of civil engineering contract procedures and covers the whole spectrum of the legal, contractual and valuation implications of contracts for construction works. This third edition covers relevant English Law up to 1983. The extensive amendments also include a thoroughly revised chapter on overseas contracts and a comparison of the JCT 80 contract with the ICE contract.
