Civil Jurisdiction And Judgements Lloyds Commercial Law Library:

Civil Jurisdiction and Judgments Adrian Briggs, 2009 **Civil Jurisdiction and Judgments** Adrian

Briggs, 2015-06-12 Now in a fully updated sixth edition this book is an established treatise in the field of civil jurisdiction and judgments. It states, analyses, illuminates and evaluates the law of civil jurisdiction and the enforcement of foreign judgments in English law, with this new edition taking into account the implications of the new Brussels I Regulation recast Regulation EU 1215/2012 as well as the great number of developments in the case law which have taken place since 2009. This book looks in detail at the jurisdictional rules put in place by the recast Brussels I Regulation, the common law rules of jurisdiction, the principles according to which that jurisdiction will or will not be exercised, the extent to which proceedings before a foreign court may be assisted or impeded, obtaining interim and interlocutory relief, recognition and enforcement of foreign judgments. This text is an authoritative and comprehensive reference for all legal professionals working in commercial law across jurisdictions.

Civil Liability for Accidents at Sea Sarah Fiona Gahlen, 2015-02-24 This book presents a study on civil liability for accidents at sea with a focus on the interests of parties that are not contractually participating in the maritime enterprise. Shipping and the maritime offshore industry are among the most international businesses in the world and the operation of ships and facilities at sea can involve very different interests in a wide variety of relationships. Although there is an international legal framework that covers the most frequent types of cases, questions remain regarding the interplay of international and national legislation. Addressing those questions, the first part of this study analyses the rules and the limits of international regulation applicable at sea, namely regarding compensation for pollution damage. The second part focuses on the jurisdictional rules and conflict of law rules that may be used to deal with cases beyond the scope of international legislation in accordance with the law of the sea.

International Commercial Sales: The Sale of Goods on Shipment Terms Andrea Lista, 2016-11-18 This book comprehensively examines the entire legal process of the international sale of goods, beginning with the creation of the contract and continuing through to either the fulfilment of the sale or the termination of the contract. Every day goods are globally traded between sellers and buyers in different countries and different jurisdictions. The distances between the parties involved in such transactions and the relative risks related to that are a key issue in international commercial sales. Sales of goods carried by sea thus differ quite drastically from domestic sales: the goods will be normally shipped at a port very distant from the buyer, preventing his physical presence at the port of loading. Further, the goods will travel in the custody of a carrier, a party normally quite independent from either trader. Finally, transactions concluded on shipment terms are normally irreversible in the sense that shipping the goods back to the seller represents an unlikely option for the buyer. Traders around the world very frequently choose English law to govern their contracts, with disputes to be resolved through London arbitration or litigation. The basis of that law is to be found in the English Sale of Goods Act 1979 and the book consequently also includes an examination of the fundamental principles of that

Act as well as considering use of the Vienna Convention on the International Sale of Goods This book will be an invaluable reference point for legal practitioners specialising in the sale of goods as well as postgraduate students and academic researchers working in sales of goods and the international trade sector
