Goliath's Curse Luke Kemp, 2025-09-23 A NEXT BIG IDEA CLUB S MUST READ BOOK A radical retelling of human history through the cycle of societal collapse a Cassandra like warning about the path today s oligarchs have set and a sweeping and dire vision of a world on the brink Publishers Weekly starred review Deeply sobering and strangely inspiring Read it now or your descendants will find it in the ruins Johann Hari author of Stolen Focus Anyone who doubts the importance of this conversation hasn t been paying attention Bill McKibben author of Here Comes the Sun 12 000 years ago human history changed forever when the egalitarian groups of hunter gathering humans began to settle down and organize themselves into hierarchies The few dominated the many seizing control through violence What emerged were Goliaths large societies built on a collection of hierarchies that are also terrifyingly fragile collapsing time after time across the world Today we live in a single global Goliath one that is

precariously interdependent under threat from nuclear war climate change and the existential risks of AI The next collapse may be our last In *Goliath's Curse* Cambridge scholar Luke Kemp conducts a historical autopsy on our species from the earliest cities to the collapse of modern states like Somalia Drawing on historical databases and the latest discoveries in archaeology and anthropology he uncovers groundbreaking revelations More democratic societies tend to be more resilient A modern collapse is likely to be global long lasting and more dire than ever before Collapse may be invisible until after it has occurred It's possible we're living through one now Collapse has often had a more positive outcome for the general population than for the 1% All Goliaths contain the seeds of their own demise As useful for finding a way forward as it is for diagnosing our precarious present *Goliath's Curse* is a stark reminder that there are both bright and dark sides to societal collapse that it is not necessarily a reversion to chaos or a dark age and that making a more resilient world may well mean making a more just one
