Slavery and Utopia Fernando Santos-Granero, 2018-09-19 In the first half of the twentieth century a charismatic Peruvian Amazonian indigenous chief Jos Carlos Amaringo Chico played a key role in leading his people the Ashaninka through the chaos generated by the collapse of the rubber economy in 1910 and the subsequent pressures of colonists missionaries and government officials to assimilate them into the national society Slavery and Utopia reconstructs the life and political trajectory of this leader whom the people called Tasorentsi the name the Ashaninka give to the world transforming gods and divine emissaries that come to this earth to aid the Ashaninka in times of crisis Fernando Santos Granero follows Tasorentsi s transformations as he evolved from being a debt peon and quasi slave to being a slave raider inspirer of an Ashaninka movement against white mestizo rubber extractors and slave traffickers paramount chief of a multiethnic anti colonial and anti slavery uprising and enthusiastic preacher of an indigenized version of Seventh Day Adventist doctrine whose world transforming message and personal influence extended well beyond Peru s frontiers Drawing on an immense body of original materials ranging from archival documents and oral histories to musical recordings and visual works Santos Granero presents an in depth analysis of chief Tasorentsi s political discourse and actions He demonstrates that despite Tasorentsi s constant self reinventions the chief never forsook his millenarian beliefs anti slavery discourse or efforts to liberate his people from white mestizo oppression Slavery and Utopia thus convincingly refutes those

who claim that the Ashaninka proclivity to messianism is an anthropological invention Cultivating Dissent Winnie Lem, 1999-04-29 Explores rural resistance class consciousness and the politics of contemporary culture through the experience of family farmers in France's red south

Towards a Comparative Political Economy of Unfree Labour Dr Tom Brass, 2015-12-22 Many works about agrarian change in the Third World assume that unfree relations are to be eliminated in the course of capitalist development This text argues that the incidence of bonded labour is greater than supposed and that in certain situations rural employers prefer an unfree workforce

The Ways of Friendship Amit Desai, 2010-08-01 Friendship is an essential part of human experience involving ideas of love and morality as well as material and pragmatic concerns Making and having friends is a central aspect of everyday life in all human societies Yet friendship is often considered of secondary significance in comparison to domains such as kinship economics and politics How important are friends in different cultural contexts What would a study of society viewed through the lens of friendship look like Does friendship affect the shape of society as much as society moulds friendship Drawing on long term ethnographic fieldwork in Asia the Middle East Africa Latin America and Europe this volume offers answers to these questions and examines the ideology and practice of friendship as it is embedded in wider social contexts and transformations Tsewa's Gift Michael F. Brown, 2006-01-31 A well written and carefully crafted account of Aguaruna magic and its practical applications that diverges from more traditional approaches by focusing not only on the symbolic realm of magic but also on the instrumental intent American Anthropologist

Decency and Excess Samuel Martinez, 2015-12-03 Based on periodic ethnographic fieldwork over a span of fifteen years Martinez shows how impoverished plantation dwellers find ways of coping with the alienation that would be expected while laboring to produce goods for the richer countries Despite living in dire poverty these workers live in a thoroughly commodified social environment Ritual eroticism electronic media household adornment payday weekend bingeing are ways even chronically poor plantation residents dream beyond reality Yet plantation residents efforts to live decently and escape from the dead hand of necessity also deepen existing divisions of ethnic identity and status As the divide between haves and have nots worsens as a result of neoliberal reform and the decline of sugar in international markets this book reveals on an intensely human scale the coarsening of the social fabric of this and other communities of the world's poorer nations

The Arakmbut--mythology, Spirituality, and History Andrew Gray, 1996 The Arakmbut are an indigenous people who live in the Madre de Dios region of the southeastern Peruvian rain forest Since their first encounters with missionaries in the 1950s they have shown resilience and a determination to affirm their identity in the face of many difficulties During the last fifteen years Arakmbut survival has been under threat from a goldrush that has attracted hundreds of colonists onto their territories This trilogy of books traces the ways in which the Arakmbut overcome the dangers that surround them their mythology and cultural strength their social flexibility and their capacity to incorporate non indigenous concepts and activities into their defence strategies Each area is punctuated by the

constant presence of the invisible spirit which provides a seamless theme connecting the books to each other Following the Arakmbuts recommendation the author uses their three greatest myths to introduce social cultural and historical aspects of their lives He ends with a discussion of the relationship between myth and history showing how the Arakmbut recreate their myths at the dramatic moments of their history **What was Socialism, and what Comes Next?** Katherine

Verdery,1996-03-07 By analyzing her primary data from Romania and Transylvania and synthesizing information from other sources Verdery lends a distinctive anthropological perspective to a variety of themes common to political and economic studies on the end of socialism themes such as civil society the creation of market economies privatization national and ethnic conflict and changing gender relations From Talking Chiefs to a Native Corporate Elite Marybelle

Mitchell,1996-06-21 Mitchell demonstrates the transformation of relationships both between the Inuit and Europeans and among the Inuit themselves that has occurred since contact with the West focusing on the intersection of class and nation This intersection provides a unifying framework to order the history of Inuit European contact At the heart of the book is a detailed and original presentation of the Inuit cooperative movement Mitchell s skilful blending of primary sources with personal experience and secondary literature provides a compelling analysis of the Inuit co op as a development tool used by the state In the final chapters she provides an astute evaluation of contemporary Inuit land claims concluding that the Inuit have been unequally incorporated into the Canadian class system because of their ethnic status and lack of capital Growing nationalism among the Inuit and demands for self government make From Talking Chiefs to a Native Corporate Elite a timely and important addition to the field of Native studies It will be of great interest to both scholars and general readers
