Bhambra,2023-02-16 The second edition of this influential book addresses how the experiences and claims of non European others have been rendered invisible to the standard narratives and analytical frameworks of sociological understandings of modernity In challenging the dominant Euro centred accounts of the emergence and development of modernity Bhambra puts forward an argument for connected histories in the reconstruction of historical sociology at a global level This updated version of the original published in 2007 adds a new preface which explores key themes that Bhambra has further developed over the intervening years specifically how the rethinking of modernity enables us to reconstruct sociology and a call for a reparatory sociology committed to the repair of the social sciences and the securing of global justice *Political Islam, World Politics and Europe* Bassam Tibi,2014-07-11 The new and updated edition of Political Islam World Politics and Europe focusses on the shift within political Islam in light of 9 11 and the events of the Arab Spring from a jihadist struggle to institutional Islamism Refuting what has often been referred to by commentators as the moderation of Islamism the second edition of this book introduces the concept of institutional Islamism a process which Tibi argues was accelerated in the aftermath of the Arab Spring Both jihadist and institutional Islamism pursue the same goal of an Islamist state but disagree fundamentally on the strategy for achieving it Whilst jihadism is committed to the idea of a violent Islamic world revolution institutional Islamism embraces political institutions as a means to an end Turning to the events of the Arab Spring in Tunisia Libya and Egypt this book attempts to determine whether an abandonment of violence is enough to underpin a shift to genuine democracy Analysing the fall of Morsi in particular Tibi questions what lessons can be learnt from his presidency and argues that this event will not change the overall trend of development from jihadism to institutional Islamism A timely addition to existing literature this book will be of interest to students and scholars studying Middle Eastern and European Politics Political Islam and International Relations RELIGION, CULTURE AND SUSTAINABLE DEVELOPMENT -Volume I Roberto Blancarte Pimentel, Robert Charles Elliot,Robert Holton ,2010-12-18 Religion Culture and Sustainable Development is a component of Encyclopedia of Social Sciences And Humanities in the global Encyclopedia of Life Support Systems EOLSS which is an integrated compendium of twenty one Encyclopedias The Theme on Religion Culture and Sustainable Development with contributions from distinguished experts in the field discusses matters of great relevance to our world such as Religion values Culture and

Decolonizing Democratic Education ,2008-01-01 The essays in this edited collection open up a hopeful dialogue about the existing state of democratic education and the ways in which it could be re imagined as an inclusive democratized space of possibility and engagement Proceeding from a critique that questions the dominance of Western liberal understandings of democratic education as a series of rational culturally neutral acts undertaken by individuals who conceive of democracy and the common good in universalist and fundamentally exclusionary terms the contributors give voice to those whose ideas histories cultures and current understanding of the world is not highlighted in the dominant relationships of schooling From a variety of theoretical and pragmatic approaches the chapters in this collection engage the dialectics of history power colonization and decolonization identity memory citizenship Aboriginal rights development and globalization all in the context of providing a critique of educational systems relations structures and curricula that seem badly in need of reform While the contributors who have diverse scholarly interests are not in a direct dialogue with one another their different foci should nevertheless inter topically inform each other The book should interest students and researchers in the general foundations of education democracy and education citizenship education comparative and international education postcolonial studies in education and cultural studies in education

Katzenstein,2006-03-23 With political controversies raging over issues such as the wearing of headscarves in schools and the mention of Christianity in the European Constitution religious issues are of growing importance in European politics In this volume Byrnes and Katzenstein analyze the effect that enlargement to countries with different and stronger religious traditions may have on the EU as a whole and in particular on its homogeneity and assumed secular nature Looking through

the lens of the transnational religious communities of Catholicism Orthodoxy and Islam they argue that religious factors are stumbling blocks rather than stepping stones toward the further integration of Europe All three religious traditions are advancing notions of European identity and European union that differ substantially from how the European integration process is generally understood by political leaders and scholars This volume makes an important addition to the fields of European politics political sociology and the sociology of religion Rethinking Modernity G. Bhambra,2007-04-11 Arguing for the idea of connected histories Bhambra presents a fundamental reconstruction of the idea of modernity in contemporary sociology She criticizes the abstraction of European modernity from its colonial context and the way non Western others are disregarded It aims to establish a dialogue in which others can speak and be heard Inheritance within Rupture Zhitian Luo,2015-01-08 In Inheritance within Rupture Luo Zhitian brings together ten essays to explore the themes of change and continuity rupture and inheritance from the late Qing through the early Republic 1890s 1940s Rejecting binaries such as tradition modernity conservative liberal Luo blurs the divisions between intellectual opponents and clarifies the divergences between scholarly friends Centering these discussions around some of the most famous intellectual debates in the modern period Luo challenges our understanding of ideological positions political affiliation and scholarly identity in early twentieth century China By focusing on the influence of cultural inheritance within the rupture of modernity we come to understand those concerns shared by all Chinese in their own times and in the present **Arabic Thought Against the Authoritarian Age** Jens Hanssen,Max Weiss,2018-02-15 Cutting edge scholarship on post war Arab intellectual history that challenges conventional thinking about authoritarianism religion and revolution in the modern Middle East
