educational perspective highlighting the resonant philosophies between the two professions and asking what one can learn from the other Modern day clowning follows an age old tradition with a set of principles and beliefs expounded by proponents of the profession Throughout the principles of clowning themes of subversion inversion play and challenge recur These same ideas have a place in the classroom not as everyday practice but perhaps as a leitmotif The book is therefore a call for educators to consider their position within the learning environment and to embody the clown spirit By looking outside of traditional pedagogical thinking and training this book demonstrates ideas and techniques from which educators can borrow or learn allowing them to enhance their own methods and practices It offers an opportunity to revisit the dynamics of the classroom through the recognition of the important role that the clown can play in society      *Punch* Mark Lemon, Henry Mayhew, Tom Taylor, Shirley Brooks, Francis Cowley Burnand, Owen Seaman, 1892      Harper's Young People ,1891
