Cities Of Destiny Weathervane:

Urban Development in the Muslim World Hooshang Amirahmadi, 2017-09-08 War and revolution have focused the world's attention on the Middle East. Despite the headlines, the editors of this book state the economic, political, and cultural aspects of urban life in the Muslim world are hardly known to us. Contributors to this volume explore urban problems, urban development, and the practice of urban planning in the Muslim world. In both comprehensive analyses and detailed case studies, the contributors address the basic dilemma of development planning: how to integrate the force of tradition with the demands of modernity. Specifically, some of the topics covered include the examination of the idea of a uniquely Islamic city, the influence of Islam on the medinas of Tunisia and Morocco, and on the development of Mecca and Delhi, and reconciling tradition and modernism in Tehran. Also covered are the comparative development of Sana'a and Cairo, the influence of oil on urbanization in the Persian Gulf, urban growth in Syria, and an overview of urban planning in the Arab world. This compendium is essential for specialists and students of the region, for international planning and development practitioners, and for those seeking insight into the complexities of this important but arguably least understood region of the world.

The Next World War Roy M. Woodbridge, 2004-01-01 In *The Next World War*, Roy Woodbridge argues that the international community must redirect present sustainable development and poverty reduction efforts in ways that place the provisioning of societies at the heart of political decision making.

Spare Time in Texas David G. McComb, 2012-10-05 What do Texans' pastimes and recreations say about their characters? Looking at Texas history from a new angle, David McComb starts from the premise that how people spend their leisure time may well reveal more about their true natures and interests than the work they do or their family connections. In this innovative book, McComb traces the history of various types of recreation in Texas, gathering significant insights into the characters of Texans from the pleasures they have pursued. Reflecting the frontier origins of Texas, McComb starts with the recreations that were most popular with men in a crude, still-developing society: drinking, gambling, and whoring. He goes on to show how, as Texas became more civilized, so did its diversions. He describes how Texans have connected with nature in parks and zoos, watched football and baseball in great stadiums such as the Astrodome and Cotton Bowl, discovered the pleasure of reading in public and university libraries, and enjoyed radio, TV, movies, and live theater in places such as Houston's Alley Theatre. This recreational history reveals that Texans are open-minded and generous; that they respect the land, oppose prostitution, but indulge in gambling and drinking; support racial and gender rights; love zoos; champion libraries; take pride in theatrical productions; and adore sports.

crossroad According to Leslie Lipson we have arrived at a critical stage in human history a stage framed in a lowering of ethical standards The Ethical Crises of Civilization examines those periods in history where similar crossroads occurred crossroads that could serve as examples for confronting and solving today s problems Lipson argues that through such an examination of the past humanity might be able to comprehend what is at stake and be impelled to collective and individual action The Ethical Crises of Civilization is a book that should be read by all scholars and students in a wide array of disciplines including history political science religious studies philosophy anthropology and sociology About this volume This book is written in the tradition of Spengler and Toynbee but my focus differs sharply from theirs I am attempting to evaluate the course of civilization its benefits and its curses at a time when its potentiality for either good or evil has been vastly increased My study has drawn principally on the record of four major civilizations still in existence today the Chinese Indian Islamic and Western The values and the standards of judgement are those of a humanist emphasizing our needs in this life in this world and not believing in salvation in some other existence I consider that the present system of government by so called nation states is becoming obsolete and will be replaced in the Twenty First Century and that the organized religious are responsible for dividing humanity into separate and often hostile groupings Leslie Lipson Ph D Praise for this volume Professor Lipson draws on his deep interest in history to assess the progress of civilizations toward increasing their ethical content He sees a growing awareness of ethical choices advance as well as a growing danger of civilizations self destruction melt down He argues that it is the obligation of a scholar to contribute to the understanding of both ethical issues and values The author treats this difficult subject matter with impressive knowledge humor originality and with literary grace World Affairs Council of Northern California An important and quite original contribution to the large and growing literature on the general theory of civilization going back in about the last 100 years to Hegel Spengler Brooks Adams Albert Schweitzer Arnold Toynbee and so on Makes an important contribution to this discipline bringing many new ideas into it It has an easy almost conversational style Kenneth E Boulding late of the University of Colorado at Boulder Distinguished Professor of Economics This book attempts something which is very unfashionable in our days It examines sympathetically but critically the thesis that history is progressive that civilizations are improving because their ethical content is increasing And the author does it with wit verve and a marvelous style that makes almost every sentence a joy to read He also displays a most impressive knowledge of history and literature This is an unusual book Despite the difference between my taste and the author s I found it to be an original courageous and highly enlightening inquiry into a subject that cries out for serious treatment not merely tracts that celebrate the end of communism or proclaim the beginning of a new age in which western values no longer dominate or even serve as guidelines in non western parts of the world Its lack of conventionality its intellectual originality ought to appeal to historically minded people who are tired of having their values and judgements debunked by the sound bites of particularistic notions of ethics Ernst B Haas Robson Research Professor of Government
