

Citizen Views of Democracy in Latin America

Edited by Roderic Ai Camp

Citizen Views Of Democracy In Latin America

Paul W. Drake

Citizen Views Of Democracy In Latin America:

Citizen Views of Democracy in Latin America Roderic Ai Camp, 2001-05-27 When Americans and Latin Americans talk about democracy are they imagining the same thing For years researchers have suspected that fundamental differences exist between how North Americans view and appraise the concept of democracy and how Latin Americans view the same term These differences directly affect the evolution of democratization and political liberalization in the countries of the region and understanding them has tremendous consequences for U S Latin American relations But until now there has been no hard data to make the definition of democracy visible and thus able to be interpreted This book the culmination of a monumental survey project is the first attempt to do so Camp headed a research team that in 1998 surveyed 1 200 citizens in three countries three distinct cases of democratic transition Costa Rica is alleged to be the most democratic in Latin America Mexico is a country in transition toward democracy Chile is returning to democracy after decades of severe repression The survey was carefully designed to show how the average citizen in each of these nations understands democracy In Citizen Views of Democracy in Latin America ten leading scholars of the region analyze and interpret the results Written with scholar and undergraduate in mind the essays explore the countries individually showing how the meaning of democracy varies among them A key theme emerges there is no uniform Latin American understanding of democracy though the nations share important patterns Other essays trace issues across boundaries such as the role of ethnicity on perceptions of democracy Several of the contributors also compare democratic norms in Latin America with those outside the region including the United States Concluding essays analyze the institutional and policy consequences of the data including how attitudes toward private versus public ownership are linked to democratization

Citizen Views of Democracy in Latin America Roderic Ai Camp, 2001

The Paradox of Democracy in Latin America Katherine Isbester, 2011-01-01 What becomes clear throughout is that there is a paradox at the heart of Latin America s democracies Despite decades of struggle to replace authoritarian dictatorships with electoral democracies solid economic growth leading up to the global credit crisis and increased efforts by the state to extend the benefits of peace and prosperity to the poor democracy as a political system is experiencing declining support and support for authoritarianism is on the rise

Corruption and Democracy in Latin America Charles H. Blake, Stephen D. Morris, 2009-07-19 Corruption has blurred and in some cases blinded the vision of democracy in many Latin American nations Weakened institutions and policies have facilitated the rise of corrupt leadership election fraud bribery and clientelism Corruption and Democracy in Latin America presents a groundbreaking national and regional study that provides policy analysis and prescription through a wide ranging methodological empirical and theoretical survey The contributors offer analysis of key topics including factors that differentiate Latin American corruption from that of other regions the relationship of public policy to corruption in regional perspective patterns and types of corruption public opinion and its impact and corruption s critical links to democracy and governance Additional chapters

present case studies on specific instances of corruption diverted funds from a social program in Peru Chilean citizens attitudes toward corruption the effects of interparty competition on vote buying in local Brazilian elections and the determinants of state level corruption in Mexico under Vicente Fox The volume concludes with a comparison of the lessons drawn from these essays to the evolution of anticorruption policy in Latin America over the past two decades It also applies these lessons to the broader study of corruption globally to provide a framework for future research in this crucial area

The Crisis of Democratic Representation in the Andes Scott Mainwaring, 2006 The essays in this book analyze and explain the crisis of democratic representation in five Andean countries Bolivia Colombia Ecuador Peru and Venezuela In this region disaffection with democracy political parties and legislatures has spread to an alarming degree Many presidents have been forced from office and many traditional parties have fallen by the wayside These five countries have the potential to be negative examples in a region that has historically had strong demonstration and diffusion effects in terms of regime changes The Crisis of Democratic Representation in the Andes addresses an important question for Latin America as well as other parts of the world Why does representation sometimes fail to work

How Europeans View and Evaluate Democracy Mónica Ferrín, Hanspeter Kriesi, 2016-03-04 Based on a new data set covering 29 European and neighboring countries this volume shows how Europeans view and evaluate democracy what are their conceptions of democracy how do they assess the quality of democracy in their own country and to what extent do they consider their country's democracy as legitimate The study shows that Europeans share a common view of liberal democracy which is complemented by elements of social and direct democracy which go beyond the basic liberal model The level of their demands in terms of democracy varies however considerably across Europe and is related to their assessment of democracy the worse the quality of democracy in a given country the higher the respective demands on democracy The analysis of the determinants of democratic views and evaluations shows that they depend on the political and economic but less on the cultural context conditions Comparative Politics is a series for students teachers and researchers of political science that deals with contemporary government and politics Global in scope books in the series are characterised by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit www.ecprnet.eu The Comparative Politics series is edited by Emilie van Haute Professor of Political Science Université libre de Bruxelles Ferdinand Müller Rommel Director of the Center for the Study of Democracy Leuphana University and Susan Scarrow Chair of the Department of Political Science University of Houston

Business in Latin America Fernando Robles, Nila M. Wiese, 2023-03-21 Business in Latin America provides readers with a comprehensive overview of the business environment of this dynamic and challenging region The book begins with an overview of the most important macroenvironments shaping the region's opportunities and risks while the second part focuses on the business strategies that respond to those opportunities and risks Capturing the dynamism of this region this new edition provides a thorough and

nuanced understanding of the commonalities and differences within the multifaceted business environments of Latin America The second edition has been thoroughly revised and updated to include The sources of economic political and natural risks including the impact of COVID 19 The endemic role of corruption in institutions the economy and society The region s cultural and social diversity and resilience The role of technology and digitalization on corporate and marketing strategies The challenges of managing local and regional supply chains The book includes examples and cases from across the region on corporate strategies marketing entrepreneurship leadership human resource management and social and environmental sustainability An ideal resource for anyone considering a business venture in the region the book will especially appeal to practitioners and students who have a particular interest in Latin America

How People View Democracy Larry Diamond, Marc F. Plattner, 2008-11-10 A collection of essays which cover topics from Arab opinion about democracy to the nostalgia for authoritarianism found in East Asia It sheds light on the rise of populism in Latin America and explains why postcommunist regimes in Europe have won broad public support

Democracy in Latin America Peter H. Smith, 2005-02-24 Detailing the processes of democratization in Latin America Peter Smith looks at some of the key issues that inhere in the move toward democracy elections culture representation poverty and criminality among others through a focus on six paradigmatic case studies in the region

How Europeans View and Evaluate Democracy Revisited Mónica Ferrín, Hanspeter Kriesi, 2025-01-29 In 2012 How Europeans View and Evaluate Democracy assessed the Europeans views and evaluations of the state of democracy after one of the deepest economic and financial crises worldwide Against the most pessimistic Zeitgeist the book found that there was overwhelming support for democracy in Europe even if the breadth and scope of the citizens demands for their democratic systems varied within and between countries Importantly with very few exceptions the implementation of the basic democratic principle of free and fair elections was well evaluated across Europe However analysis also showed that there was room for improvement in many countries according to the citizens evaluations Overall in 2012 there were no symptoms of a democratic crisis in Europe Ten years and several crises later the authors reassess how Europeans view and evaluate democracy and that many changes that have occurred in the meantime This book How Europeans View and Evaluate Democracy Revisited compares how Europeans view and evaluate democracy in 2021 22 and in 2012 based on surveys in 24 European countries It shows that Europeans continue to be attached to democratic ideals and that they continue to be rather dissatisfied with the way these ideals are implemented in their country The liberal democratic model continues to enjoy great support just as it did a decade ago and there is also support for additional models of democracy for social direct and populist democracy Surprisingly the populist model turns out to be a complement rather than a substitute for the other models Comparative Politics is a series for researchers teachers and students of political science that deals with contemporary government and politics Global in scope books in the series are characterized by a stress on comparative analysis and strong methodological rigour The series is published in association

with the European Consortium for Political Research For more information visit www.ecprnet.eu The series is edited by Nicole Bolleyer Chair of Comparative Political Science Geschwister Scholl Institut LMU Munich and Jonathan Slapin Professor of Political Institutions and European Politics Department of Political Science University of Zurich **ECMLG 2017 13th European Conference on Management, Leadership and Governance** Martin Rich, 2017-12-11 these Proceedings represent the work of contributors to the 13th European Conference on Management Leadership and Governance ECMLG 2017 hosted this year by the Cass Business School City University of London on 11-12 December 2017 The Conference Chair is Dr Martin Rich The conference will be opened with a keynote address by Dr Helen Rothberg from Marist College Poughkeepsie USA with a speech entitled Everything I Know about Leadership I Learned as a Bartender On the second day the keynote will be delivered by Dr Amanda Goodall from City University of London on the topic of Why we need core business experts as leaders ECMLG is a well established platform for individuals to present their research findings display their work in progress and discuss conceptual advances in many different branches of Management Leadership and Governance At the same time it provides an important opportunity for members of the community to come together with peers share knowledge and exchange ideas With an initial submission of 160 abstracts after the double blind peer review process there are 61 academic papers 8 PhD Papers and 2 Work in Progress papers in these Conference Proceedings These papers reflect the truly global nature of research in the area with contributions from Australia Austria Belgium Brazil Canada Czech Republic Finland Germany Hungary Iran Ireland Israel Kazakhstan Kenya Lithuania Malaysia **Ibero-america**, 2002 **Between Tyranny and Anarchy** Paul W. Drake, 2009-02-27 Between Tyranny and Anarchy provides a unique comprehensive history and interpretation of efforts to establish democracies over two centuries in the major Latin American countries Drake takes an unusual interdisciplinary approach combining history and political science with an emphasis on political institutions He argues that without a thorough examination of the historical roots and causes of Latin American democracy most general theories can not adequately explain its failures successes and forms Latin America offers an extraordinary laboratory for the study of democratic experiments Alongside a well deserved reputation for authoritarianism it boasts one of the world's deepest richest histories of democratic movements ideas and institutions Contrary to conventional wisdom the region's leading democracies did not lag very far behind the United States and Western Europe in making numerous advances In comparison with those countries though Latin America's democratic history has been distinctive because of its fundamental dilemma how to reconcile political systems theoretically committed to legal equality with societies divided by extreme socio-economic inequalities *The Meaning of Democracy in Southeast Asia* Diego Fossati, Ferran Martinez i Coma, 2023-01-26 This Element contributes to existing research with an analysis of public understandings of democracy based on original surveys fielded in Indonesia Malaysia the Philippines Singapore and Thailand It conceptualises democracy as consisting of liberal egalitarian and participatory ideals and investigates the structure of public understandings

of democracy in the five countries It then proceeds to identify important relationships between conceptions of democracy and other attitudes such as satisfaction with democracy support for democracy trust in institutions policy preferences and political behaviour The findings suggest that a comprehensive analysis of understandings of democracy is essential to understand political attitudes and behaviours **The Oxford Handbook of Mexican Politics** Roderic Ai Camp,2012-02-16

A comprehensive view of the remarkable transformation of Mexico s political system to a democratic model The contributors to this volume assess the most influential institutions actors policies and issues in the country s current evolution toward democratic consolidation **Latin American Political Culture** John A. Booth,Patricia Bayer Richard,2014-11-10

Analysing data on eighteen countries this book systematically and comparatively evaluates norms attitudes and opinions concerning democracy and its consolidation and presents readers with a pan Latin American examination of the region s contemporary political culture Barometers of Quality of Life Around the Globe Valerie Møller,Denis Hushka,Alex C.

Michalos,2008-09-16 Quality of life QOL research has made great strides since the social indicator movement started as a scientific enterprise in the 1960s Following the lead of pioneers in North America and Europe social scientists in other regions of the world have adopted and refined social data systems or barometers to monitor progress in enhancing the welfare and well being of citizens A distinctive feature of these barometers is that they measure both individual and societal quality of life While not overlooking the more basic needs and material standards of living the barometers also inform on issues of individual freedoms and choices and constraints on citizen empowerment that enhance and depress quality of life Designed to capture nuances in local definitions of the good life regional barometers are unique expressions of the obstacles facing different societies in their quest to achieve the good life Scholars of public policy as well as policy makers will find inspiration from reviews of innovative initiatives to monitor contemporary quality of life in six regions of the world spanning South America the Arctic Europe Africa Asia and Australia How Asians View Democratic Legitimacy Yun-han

Chu,Yu-tzung Chang,Min-hua Huang,Kai-Ping Huang,2023-04-01 This edited volume is intended to showcase the breadth and depth of the collaborative intellectual enterprise that the Asian Barometer Survey ABS network has built up over the past two decades To commemorate the twentieth anniversary of the ABS we invited ABS partners to contribute their intellectual findings to this edited volume Except for the introduction this volume consists of twenty seven chapters divided into two sections The first part of the book contains eleven chapters that are based on previously published studies and are updated based on the latest ABS data The second part of the book focuses on issues specific to each country or autonomous territory and consists of sixteen chapters Among the topics discussed are potential threats to third wave democracies evolving ideology in one party states cases of denied democracy and peculiar challenges faced by long term democracies The contributors are the indispensable partners that have made the ABS possible over the past two decades In addition to celebrating the long term collective efforts of those who participated in the ABS project this edited volume also sets out to

address the ongoing debate over the future of democracy in Asia

Influences of the IEA Civic and Citizenship

Education Studies Barbara Malak-Minkiewicz, Judith Torney-Purta, 2021-05-26 This open access book identifies the multiple ways that IEA's studies of civic and citizenship education have contributed to national and international educational discourse research policymaking and practice The IEA International Civic and Citizenship Education Study ICCS first conducted in 2009 was followed by a second cycle in 2016 The project was linked to the earlier IEA Civic Education Study CIVED 1999 2000 IEA's ICCS remains the only large scale international study dedicated to formal and informal civic and citizenship education in school It continues to make substantial contributions to understanding the nature of the acquired civic knowledge attitudes and participatory skills It also discusses in depth how a wide range of countries prepare their young people for citizenship in changing political social and economic circumstances The next cycle of ICCS is planned for 2022 In this book more than 20 national representatives and international scholars from Europe Latin America Asia and North America assess how the processes and findings of the 2009 and 2016 cycles of ICCS and CIVED 1999 2000 have been used to improve nations understanding of their students civic knowledge beliefs attitudes current civic related behaviors and intentions for future participation in a comparative context There are also chapters summarizing the secondary analysis of those studies results indicating their usefulness for educational improvement and reflecting on policy issues The analyses and reflections in this book provide timely insight into international educational discourse policy practice and research in an area of education that is becoming increasingly important for many societies
