simple but useful computations in an intelligent way Key course learning outcomes include the abilities to There are no indispensable pre requisites by the reader and it has been designed for students from a wide variety of backgrounds and undergraduate majors Although this works well as an introductory text to a broader public administration curriculum it also can make sense for students to take after some more basic courses in economics policy analysis and public organizations Issues of tax incidence and the effect of taxes on economic efficiency can be covered in greater depth **Financing**

National Defense Lawrence R. Jones, Philip J. Candreva, Marc R. DeVore, 2011-12-01 A myth from the colonial period was that Americans could defend themselves by keeping a rifle in the closet and when needed grab it and march off to battle in times of crisis Unfortunately providing national defense is more complicated than that indeed it was more complicated even during the Revolutionary war General George Washington's struggles to form a standing army supported by workable logistics and supply processes and to get funding for both from the Revolutionary Congress are well documented Financing national defense requires planning and resourcing in advance Reacting at the instant of crisis is too late Building an educated highly trained and capable Armed Forces and the acquisition of defense weapons and weapons systems has long lead times and involves making decisions the consequences of which are likely to last for decades These decisions include how to recruit and retain military and civilian personnel as well as designing buying and fielding a vast array of ground weapons ships aircraft and other weaponry A decision to buy a major defense weapons system for example sets in motion a chain of other decisions that will affect the U S its allies and enemies around the world Implementation of such decisions is financed through the U S federal government and Department of Defense budget processes in a planned yet highly and pluralistic and disaggregated system for determining how to advocate acquire and allocate scarce resources in a manner that culminates in congressional and presidential approval In this book we examine the concepts and practices of defense financing provide a detailed description and analysis of resource policy decision making financial management and budget execution processes and analyze the most significant features of the national defense and U S federal government resource decision and management system The book assesses the numerous factors including those that characterize the complex budget review and appropriation decision making dynamics of Congress that make U S defense finance and budgeting different from any other system in the world In addition in a concluding chapter the book compares U S defense policy and budgeting to other nations in different regions of the globe drawing conclusions about the effects of U S defense policy and defense financing abroad in regions including Europe Russia the Middle East and Asia **Public Administration** Marc Holzer, Richard W. Schweser, 2015-09-16 Marc Holzer and Richard W Schweser have written a fresh and highly engaging textbook for the introductory course in Public Administration Their coverage is both comprehensive and cutting edge including not only all the basic topics OT budgeting HRM but also reflecting new realities in public administration innovations in e government the importance of new technology changes in intergovernmental relations especially the

emphasis on inter local and shared regional resources and public performance and accountability initiatives Public Administration has been crafted with student appeal in mind Each of the book s chapters is generously illustrated with cartoons quotes and artwork all reinforcing the book s theme that the field of public administration is rooted in the cultural and political world Each chapter is also supported with a listing of key terms exercises and additional resources The textbook is supported by one of the most comprehensive and easy to use instructors manuals of any introductory text on the market today It contains full lesson plans with activities to accommodate a broad range of teaching and learning styles for each chapter PowerPoint decks for each chapter with visuals and links embedded 8 new long term project student presentation ideas an updated Quotes and Notables section with biographical information and media links for each chapter updated test questions with answer keys and updated terms and definitions for each chapter
