Verma, 2005-06-21 The final volume of four the authors consider how the concerns of ethnic groups may be addressed within the framework of the National Curriculum Despite the indecision surrounding primary school curriculum it remains that the multicultural nature of the population and of schools will develop      Citizenship education Great Britain: Parliament: House of Commons: Education and Skills Committee, 2007-03-08 In light of the recommendations of the Crick report on citizenship education Education for citizenship and the teaching of democracy which can be downloaded at [http://www.qca.org.uk/downloads/6123\\_crick\\_report\\_1998.pdf](http://www.qca.org.uk/downloads/6123_crick_report_1998.pdf) published in September 1998 the subject was introduced into the school curriculum in 2002 on a compulsory basis for secondary schools and as part of the non statutory framework for primary schools The Committee's report assesses the progress made during the last four years to deliver quality citizenship programmes and examines the barriers that exist to its successful implementation It finds that when well done citizenship education motivates and inspires young people but the quality and extent of these programmes are still inconsistent across the country This patchiness needs to be tackled head on and progress accelerated requiring strong support from the DfES and Ministers as well as action from those on the ground The Committee welcomes the Government's decision to accept the recommendations of the report by Sir Keith Ajegbo which highlighted the need for citizenship curriculum to have a closer focus on issues of identity diversity and belonging More can be done to disseminate between settings good practice information about approaches that are working in other institutions particularly in relation to whole school or college approaches that develop opportunities for active citizenship although it is essential that programmes are locally owned and relevant to the particular context The development of the workforce is also important to the success of citizenship education and although the expansion of the Continuing Professional Development CPD citizenship certificate programme is welcome more resources are needed to develop capacity in initial teacher training places for citizenship education      **Enquiries Into Global Citizenship** Institute For Citizenship, Bhavini Algarra, 2002 Developed to answer the need for teaching material in this area this resource provides an innovative and practical approach to Citizenship at Key Stage 3 The work is also suitable for use in Scotland for S1 S2      **Psychology of Education: The school curriculum** Peter K. **Educating Globally Competent Citizens** Dennis R. Falk, Susan Moss, Martin Shapiro, 2010-04-14      **Resources in Education** , 2000-10      Routledge Library Editions: Curriculum Various, 2021-07-09 Reissuing works originally published

between 1971 and 1994 this collection includes books which offer a broad spectrum of views on curriculum both within individual schools and the wider issues around curriculum development reform and implementation Some cover the debate surrounding the establishment of the national curriculum in the UK while others are a more international in scope Many of these books go beyond theory to discuss practical issues of real curriculum changes at primary or secondary level The Set includes books on cross curricular topics such as citizenship and environment and also guidance careers life skills and pastoral care in schools A fantastic collection of education history with much still relevant today Lifelong Learning in Action Norman Longworth,2003-12-16 Since the concept of lifelong learning came to prominence much excellent work has been undertaken but as Professor Longworth s new book shows major change in some areas is still needed if the concept of learning from cradle to grave is to become a true reality Using his unique vantage point from consulting with schools universities local governmental and global authorities Professor Longworth brings the development of lifelong learning bang up to date with a complete survey of the principles of lifelong learning including examples from around the world and crucial information on the impact of lifelong learning on 21st century schools Creating Socially Responsible Citizens David L. Grossman,John J. Cogan,2012-09-01 This book originates from a collaborative research initiative to examine how various societies in the Asia Pacific Region construct moral and civic education and to what extent these systems achieve the democratic objective of creating socially responsible citizens In many western societies there is at least a rhetorical tendency to separate the moral and civic dimensions of citizenship education and in some cases to exclude the moral dimension from the discourse of preparing citizens However as cross societal dialogues and research about citizenship education have increased in the past two decades scholars have identified differences in the emphasis put on the moral dimension of citizenship education across the Asia Pacific region In many predominantly Confucian Islamic and Buddhist societies for example the emphasis on the moral dimension of citizenship education is explicit and in some cases central While awareness of a divide or perhaps more appropriately a continuum in the role of moral versus civic education in democratic societies has been recognized for some time to our knowledge this book marks the first effort of this scope to address the issue of the moral civic divide in citizenship education Thus through a cross cultural dialogue across societies in the Asia Pacific Region this book addresses the issue of whether elements of both civic and moral education can be effectively joined to create a socially responsible citizen
