Fairbrother, 2013-11-11 It is a great pleasure to present this book edited by a distinguished team at the Hong Kong Institute of Education and with excellent contributors from nine countries in the region and beyond The book is a truly comparative work which significantly advances conceptual understanding The comparisons undertaken are at many levels and with different units for analysis One chapter undertakes comparison in two cities Hong Kong and Guangzhou three chapters make comparisons between two countries South Korea and Singapore Solomon Islands and Vanuatu South Korea and China and five chapters undertake comparisons across the whole region Other on individual countries or in one case on a single school In addition chapters focus several chapters examine the attitudes and roles played by individuals and groups within societies The book is thus an admirable example of the vitality of the field of comparative education in selecting different units for analysis and in examination of issues from diverse angles Within the book moreover readers will find a fascinating array of settings and environments On the one hand for example is Japan with its relatively homogenous culture a population of 126 million and a strong national identity based on language and history On the other hand is Solomon Islands which has a population of just 400 000 scattered over 1 000 islands approximately 90 indigenous languages and major social problems arising from culture clashes economic forces political dynamics and legacies of colonialism *American Citizenship Rights of Women* United States.
