**Unequal Freedom** Evelyn Nakano GLENN,2009-06-30 The inequalities that persist in America have deep historical roots Glenn untangles this complex history in a unique comparative regional study from the end of Reconstruction to the eve of World War II      *Citizenship Today* Martin I A Bulmer,Anthony Rees,2016-07-22 The contributors apply Marshall s dominant conception of citizenship to key areas of social scientific study such as power income distribution work and technology family responsibilities the environment and the underclass The book is intended for undergraduate and postgraduate students on courses in sociological theory social inequality social policy and political theory      Citizenship and Migration in the Era of Globalization Markus Pohlmann,Jonghoe Yang,Jong-Hee Lee,2013-03-15 In an age of globalization there is frequent migration across national borders resulting in a reconsideration of the notion practice and social institution of national citizenship Addressing this phenomenon the book focuses on the exchange between and responses of Korea and Germany In particular the book deals extensively with citizenship in Korea where the concept of citizenship is young and thus the study of citizenship is relatively scarce This book may be the first of its kind bringing together eminent Korean and German scholars to analyse various aspects of citizenship in Korea It is hoped that it will contribute to scholarship in the fields of citizenship and migration and to an understanding of the flow of people and ideas between Asia and Europe      International Perspectives on Citizenship, Education and Religious Diversity Robert Jackson,2003-09-02 Citizenship is high on the agenda of education systems in many of the world s democracies As yet however discussions of citizenship education have neglected issues of religious diversity and how the study of religions can contribute to our understanding of citizenship International Perspectives on Citizenship Education and Religious Diversity brings together an international range of contributions from religious studies scholars and educators specialising in the study of religions Together these illustrate and explore the key questions for educational theory and pedagogy raised by drawing issues of religious diversity into citizenship education The chapters address and extend debates over the nature of citizenship in late modernity highlighting local and global dimensions of citizenship in relation to issues of national religious ethnic and cultural identity As well as emphasising the role religious education has to play in citizenship education this book also covers wider issues such as state supported faith schools and cultural diversity in relation to common citizenship The authors argue that critical yet reflective approaches to religious education have a distinctive and valuable contribution to make to citizenship education Issues addressed within the study of religions are related to new forms of global and cultural citizenship as well as citizenship within the nation state Ultimately this stimulating and original collection highlights the challenges and possibilities for teaching and learning about religion religions and religious diversity within an inclusive educational practice      **Citizenship and Welfare State Reform in**

**The Changing Terrain of Race and Ethnicity** Maria Krysan, Amanda E. Lewis, 2004-11-11 The legal institutions of overt racism in the United States have been eliminated but social surveys and investigations of social institutions confirm the continuing significance of race and the enduring presence of negative racial attitudes This shift from codified and explicit racism to more subtle forms comes at a time when the very boundaries of race and ethnicity are being reshaped by immigration and a rising recognition that old systems of racial classification inadequately capture a diverse America In *The Changing Terrain of Race and Ethnicity* editors Maria Krysan and Amanda Lewis bring together leading scholars of racial dynamics to study the evolution of America's racial problem and its consequences for race relations in the future *The Changing Terrain of Race and Ethnicity* opens by attempting to answer a puzzling question how is it that so many whites think racism is no longer a problem but so many nonwhites disagree Sociologist Lawrence Bobo contends that whites exhibit what he calls *laissez faire racism* which ignores historical and structural contributions to racial inequality and does nothing to remedy the injustices of the status quo Tyrone Forman makes a similar case in his chapter contending that an emphasis on color blindness allows whites to be comforted by the idea that all races are on a level playing field while not recognizing the advantages they themselves have reaped from years of inequality The book then moves to a discussion of the new ways that Americans view race Eduardo Bonilla Silva and Karen Glover argue that the United States is moving from a black white divide to a tripartite system where certain light skinned non threatening minority groups are considered honorary whites The book's final section reexamines the theoretical underpinnings of scholarship on race and ethnicity Joe Feagin argues that research on racism focuses too heavily on how racial boundaries are formed and needs to concentrate more on how those boundaries are used to maintain privileges for certain groups at the expense of others Manning Marable contends that racism should be addressed at an institutional level to see the prevalence of structural racism deeply entrenched patterns of inequality that are coded by race and justified by stereotypes *The Changing Terrain of Race and Ethnicity* provides an in depth view of racism in modern America which may be less conspicuous but not necessarily less destructive than its predecessor *Jim Crow* The book's rich analysis and theoretical insight shed light on how despite many efforts to end America's historic racial problem it has evolved and persisted into the 21st century

of citizenship Within territorial borders to what extent are citizens able to participate given that the principles of accountability transparency and representativeness remain ideals There are numerous implications of the concept of citizenship for law and public policy in a number of different fields International law both private and public poverty law immigration law constitutional law history political science and sociology all reflect concepts of citizenship Law and Citizenship will appeal to scholars and students in law and politics as well as those interested in the idea of citizenship in contemporary society      *Medical Sociology: Health care and social change* Graham Scambler, 2005
