City After The Automobile:

The City After The Automobile Moshe Safdie, Wendy Kohn, 2018-02-23 In an age of virtual offices urban flight and planned gated communities are cities becoming obsolete In this passionate manifesto Moshe Safdie argues that as crucibles for creative social and political interaction vital cities are an organic and necessary part of human civilization If we are to rescue them from dispersal and decay we must first revise our definition of what constitutes a city Unlike many who believe that we must choose between cities and suburbs between mass transit and highways between monolithic highrises and panoramic vistas Safdie envisions a way to have it all Effortless mobility throughout a region of diverse centers residential communities and natural open spaces is the key to restoring the rich public life that cities once provided while honoring our profound desire for privacy flexibility and freedom With innovations such as transportation nodes elevated moving sidewalks public utility cars and buildings designed to maximize daylight views and personal interaction Safdie s proposal challenges us all to create a more satisfying and humanistic environment The City After the Automobile : an Architect's Vision Moshe Safdie, Kohn, Wendy, 1998 **City After the Automobile** M.
