Ritual, Performance, and Politics in the Ancient Near East Lauren Ristvet,2015 In this book Lauren Ristvet rethinks the narratives of state formation by investigating the interconnections between ritual performance and politics in the ancient Near East She draws on a wide range of archaeological iconographic and cuneiform sources to show how ritual performance was not set apart from the real practice of politics it was politics Rituals provided an opportunity for elites and ordinary people to negotiate political authority Descriptions of rituals from three periods explore the networks of signification that informed different societies From circa 2600 to 2200 BC pilgrimage made kingdoms out of previously isolated villages Similarly from circa 1900 to 1700 BC commemorative ceremonies legitimated new political dynasties by connecting them to a shared past Finally in the Hellenistic period the traditional Babylonian Akitu festival was an occasion for Greek speaking kings to show that they were Babylonian and for Babylonian priests to gain significant power Sound, Space, and the City

Rituals Robin Judd,2011-05-02 In *Contested Rituals* Robin Judd shows that circumcision and kosher butchering became focal points of political struggle among the German state its municipal governments Jews and Gentiles In 1843 some German Jewish fathers refused to circumcise their sons prompting their Jewish communities to reconsider their standards for membership Nearly a century later in 1933 another blood ritual kosher butchering served as a political and cultural touchstone when the Nazis built upon a decades old controversy concerning the practice and prohibited it In describing these events and related controversies that raged during the intervening years Judd explores the nature and escalation of the ritual

debates as they transcended the boundaries of the local Jewish community to include non Jews who sought to protect restrict or prohibit these rites Judd argues that the ritual debates grew out of broad shifts in German politics the competition between local and regional authority following unification the possibility of government intervention in private affairs the place of religious difference in the modern age and the relationship of the German state to its religious and ethnic minorities including Catholics Anti Semitism was only one factor driving the debates and it often functioned in unexpected ways Judd gives us a new understanding of the formation of German political systems the importance of religious practices to Jewish political leadership the interaction of Jews with the German government and the reaction of Germans of all faiths to political change
