Civil Religion Political Theology Boston University Studies In Philosophy Religion:

Civil Religion and Political Theology Leroy S. Rouner, 1986 This volume examines the different meanings of civil religion and their relation to political theology Essays focus on a common ground of values in a democratic society an assessment of the influence of Christian influence on public life and practical applications of political theology c From Amazon com Religion, Politics and Law Bart Labuschagne, 2009-03-16 Modern liberal democracies in the West living under the rule of law and protection of human rights cannot articulate the very values from which they derive their legitimacy These pre political and pre legal preconditions cannot be guaranteed let alone be enforced by the state but constitute nevertheless its moral and spiritual infrastructure Until recently a common background and horizon consisted in Christianity but due to secularisation and globalisation society has become increasingly multicultural and multireligious The question can and should be raised how religion relates to these sources of normative order in society how religion politics and law relate to each other and how social cohesion can be attained in society given the growing varieties of religious experiences In this book a philosophical account of this question is carried out on the one hand historically from Plato to the Enlightenment on the other hand systematically and practically **Civil Religion and Political Theology** Leroy S. Rouner, 1994-11-01 The essays in Civil Religion and Political Theology probe the role Christianity should play in the life of the polis Part I deals with how philosophy theology and science contribute to a common ground of values in a democratic society Part II focuses on America as a test case for understanding the dangers and possibilities of Christian influence in political life Part III deals with the actual practice of political theology and includes essays on liberation theology feminist theology black theology and a process theology of Christian economic values **Caring for the Commonweal** Parker J. Palmer, 1990 Rereading Historical Theology Margaret R. Miles, 2008-01-01 Augustine of Hippo is arguably the most influential author in the history of Christian thought and institutions Yet he has been revered by some reviewers and vilified by others Contemporary critical approaches to historical authors can illuminate features of Augustine s thought and activities that are not noticed when reviewers attention is either exclusively sympathetic or intransigently critical Anyone who seeks to present an Augustine who has relevance for the twenty first century must somehow hold together delight in the beauty of his prose and the profundity of his thought with dismay over some of the intentions and effects of his teachings The essays in this book endeavor to read Augustine simultaneously critically and appreciatively Miles places his thought in the context of his classical heritage and notices how pervasive in later Christian authors are the themes that informed Augustine s thought Understanding his writings as a passionate effort to describe a metaphysical universe that accounts for the endlessly fascinating mystery of embodied life makes many of Augustine s proposals accessible useful and delightful in the context of contemporary quandaries and issues His conclusions are less important than his method In Augustine knowledge and life mutually illuminate energize and critique each other exemplifying the practice of a fully human life Exploring some of his

most persistent themes these essays seek to show how Augustine's theology works

The Relevance of Bernard Lonergan's Notion of Self-appropriation to a Mystical-political Theology Ian B. Bell, 2008 In *The Relevance of Bernard Lonergan's Notion of Self Appropriation to a Mystical Political Theology* Ian Bell takes on the issue of the separation of the interior and exterior lives that has come to dominate mystical theology over the years The mystical life he claims is necessarily involved in the establishment of social structures and institutions that govern human living and the work of Bernard Lonergan on the human subject provides a means by which the connection between the interior and exterior lives may be established Because human persons operate in a consistent pattern regardless of a given moment's particularities mystical experience is no longer relegated to so called spiritual matters and the insights of mystics may be applied to the Christian call to live as agents of love With this connection in place mystical theology and political theology come together in a theology that is both mystical and political

Politics, Religion and Political Theology C. Allen Speight, Michael Zank, 2017-06-30 This new volume gives discursive shape to several key facets of the relationship among politics theology and religious thought Powerfully relevant to a wealth of further academic disciplines including history law and the humanities it sharpens the contours of our understanding in a live and evolving field It charts the mechanisms by which contrary to the avowed secularism of many of today's politics theology and religion have often and sometimes profoundly shaped political discourse By augmenting this broader analysis with a selection of authoritative papers focusing on the prominent sub field of political theology the anthology offsets a startling academic lacuna Alongside focused analysis of subjects such as conscience secularism and religious tolerance the discussion of political theology examines the tradition's critical moments including developments during the post World War I Weimar republic in Germany and the epistemological imprint the theory has left behind in works by political thinkers influenced by the three major monotheistic traditions

The Subjective Eye Richard Valantasis, Deborah J. Haynes, James D. Smith III, Janet F. Carlson, 2006-05-15 One of the great joys of the academic life is to pay homage in a Festschrift to a scholar who has influenced both colleagues and students over years of interaction and friendship both professional and personal This volume honors a scholar and theologian of historical theology a theorist and a practitioner of religion and the arts and a keen analyst of cultural trends both ancient and modern Margaret R Miles's prodigious production as a scholar has legendary qualities Her dozen plus books alone explore history patristics ancient philosophy art and art history spiritual formation and religious practice critical theory film ethics and values personal growth gender and women's studies as well as her true academic loves Augustine and Plotinus The breadth and depth of her own work and her influence upon others demands an expansive volume which the editors of this Festschrift unfortunately had to restrict to four categories Historical Theology Religion and Culture Religion and Gender and Religion and the Visual Arts in order to capture the heart of our appreciation for her from the Introduction

Balancing Reasonable Justice Ville Päivänsalo, 2016-04-15 John Rawls's pioneering work of political philosophy A Theory of Justice has had far reaching

influence on modern liberal political philosophy Rawls principles of justice as fairness the principle of liberty the principle of fair equality of opportunity and the famous difference principle have been both heavily criticized and incorporated into other political theories In this book Pivnsalo both presents a deep analysis of the whole Rawlsian canon and builds upon and goes beyond Rawls's conception by introducing a fresh theoretical framework to clarify and modify different balances of the elements of Rawlsian justice Justice as fairness is analyzed into its parts and elements critically examined to find the strongest most favourable interpretations of each principle and in this light the principles are reconstructed and rebalanced in such a way as to resist the most significant criticisms of the Rawlsian project *Beyond the Pale* Miguel A. De La Torre, Stacey M. Floyd-Thomas, 2011-01-01 How should Origen Anselm Luther Wesley Kierkegaard Barth and Whitehead be read today in light of postcolonial theory and twenty first century understandings This book offers a reader friendly introduction to liberation theology by having scholars from the margins explore how questions of race and gender should be brought to bear on thirty classic theologians Each short chapter gives historical background for the thinker describes that thinker's most important contributions then raises issues of concern for women and persons of color Contributors include Rita Nakashima Brock Cheryl A Kirk Duggan Harold J Recinos M Shawn Copeland Kwok Pui Lan Joerg Rieger and many others

Recollections and Reconsiderations Margaret R. Miles, 2018-12-18 Several years before his death Augustine of Hippo reviewed his published works commenting on his purpose in writing each and correcting from his present perspective the mistakes he noticed Inspired by Augustine's *Retractationes* Miles's *Recollections and Reconsiderations* undertakes a similar project a critical review of almost fifty years of her publications Rereading and rethinking in chronological order effectively bonds life and thought into a corpus a body of work with consistent values and interests Such a review would be an illuminating project for any longtime scholar student both rewarding and humbling an exercise in self knowledge Informed by a lifetime of studying Christian traditions Miles concludes by describing both endemic problems with Christianity and what she sees is its essence and beauty *First Pure, Then Peaceable* Margaret Aymer, Margaret P. Aymer, 2008-05-06 An examination of Frederick Douglass use of the epistle of James to support his nineteenth century abolitionist speeches

Bodies in Society Margaret R. Miles, 2008-08-01 Education is about learning to think Much of what we call thinking however is a hodge podge of repetitious self talk opinion and cutting and pasting of second hand ideas Moreover thinking in the present has often been alien to scholars who were tempted to think abstractly But life and thought belong together and require each other as Plotinus pointed out many centuries ago The object of contemplation is living and life and the two together are one Ennead 3.8.8 Presently many women and men in the academic world are thinking concretely within the context of their own lives and with acknowledged accountability to broader communities with whom they think and to whom they are answerable The essays in this volume consider Christianity as an aspect of North American culture bringing the critical tools of the academy to thinking about some of the perplexing and pressing problems of

contemporary public life Three interactive and interdependent themes traverse these essays gender the effects of media culture and institutions Each of these themes has been central to Margaret Miles s work for thirty years Each understands corporeality as fundamental both to subjectivity and society Miles finds that Christianity critically appropriated provides ideas and methods for thinking concretely about life in North American society

Data and Policy Change David Dery,2013-11-11 This is a work on hostile data and the conditions under which they are accepted and rejected What is the place of data in politics and organization Why are politicians and administrators so often hostile to research data or why do they tend to perceive data as hostile to them How can data become relevant to policy These questions are the focus of this book In answer I try to show how political and administrative institutions cope with hostile data how they seek to maintain closedness to disconfirming data and how they are led in a free society to change their policies despite the epistemological bias in favor of the already known and the initial inclination to resist change At the same time I demonstrate that data producers must learn that while their research findings may be subjected to science s own standards of verifiability such data must also meet standards of contestability by the various interests involved in political and administrative decisions The production and appropriate publication of a research report may at best buy one an admission ticket to participate in political and administrative contests but not the power nor the justification to determine the outcomes of the contest I begin with two hypotheses Hypothesis 1 Politicians or administrators reject data that do not coincide with behavior they are unwilling to change Hypothesis II Politicians or administrators change behavior that does not coincide with data they are unwilling to reject

American Covenant Philip Gorski,2019-06-18 The long battle between exclusionary and inclusive versions of the American story Was America founded as a Christian nation or a secular democracy Neither argues Philip Gorski in American Covenant What the founders envisioned was a prophetic republic that would weave together the ethical vision of the Hebrew prophets and the Western political heritage of civic republicanism In this eye opening book Gorski shows why this civil religious tradition is now in peril and with it the American experiment American Covenant traces the history of prophetic republicanism from the

Puritan era to today providing insightful portraits of figures ranging from John Winthrop and W E B Du Bois to Jerry Falwell Ronald Reagan and Barack Obama Featuring a new preface by the author this incisive book demonstrates how half a century of culture war has drowned out the quieter voices of the vital center and demonstrates that if we are to rebuild that center we must recover the civil religious tradition on which the republic was founded **Cultus Americanus** Brent Gilchrist,2006-01-01 Cultus Americanus applies a philosophical model of political culture as ideology religion and myth to a re consideration of America s liberal consensus to explain cultural diversity in America Author Brent Gilchrist engagingly depicts a political culture that is more complex and more cohesive than has been previously maintained that will be of great interest to scholars and students of American politics and history **Theology of Jürgen Moltmann** Richard Bauckham,1995-01-06 The most comprehensive study available of one of the most influential of German Protestant theologians *Love Between Women* Bernadette J. Brooten,2009-02-15 Love Between Women examines female homoeroticism and the role of women in the ancient Roman world Employing an unparalleled range of cultural sources Brooten finds evidence of marriages between women and establishes that condemnations of female homoerotic practices were based on widespread awareness of love between women An extraordinary accomplishment A definitive source for all future discussion of homoeroticism and the Bible Mary Rose D Angelo Harvard Gay Lesbian Review Brooten s convincing analysis not only profoundly reshapes our understanding of the past but it should also shape the way in which that past particularly the early Christian texts with their immense normative weight will be used for the future Anne L Clark Journal of Lesbian Studies Love Between Women gives contemporary debates on sexuality a carefully delineated past It boldly insists upon a different future one informed by history but not tyrannized by it Susan Ackerman Lambda Book Report Fascinating provocative and lucid Brooten has made a fundamental contribution to women s and gender studies gay and lesbian studies and classics Elizabeth A Castelli Women s Review of Books Winner of the Lambda Literary Award for Best Lesbian Studies Book 1997 The Superiority of an Evangelical Model of Religious Liberty Daniel J. Trippie,2022-11-14 Religious liberty is America s first freedom But in recent years challenges to religious liberty have abounded For example some claim that religious freedom promotes intolerance and bigotry while others contend religious freedom condemns people to hell And others weaponize religious liberty for culture warring Nevertheless evangelicals believe that religious liberty is fundamentally a matter of human dignity thus religious liberty is a right we must preserve for all people This book will explore how evangelical anthropology cosmology and eschatology offer the most stable basis for religious freedom Secular and Roman Catholic theories may positively contribute to religious liberty but the evangelical model is superior because it answers fundamental questions left unanswered in other models
