on pressing procedural and substantial law issues in the ambit of international human rights and civil liberties While the 20th century has seen the true awakening of human rights the 21st century poses new challenges to this ever unfolding area of law Not only do international tribunals and quasi tribunals worldwide and domestic US and European continental courts have to deal with increasing numbers of complaints and petitions from individuals and groups on a vast array of societal problems the legal issues put to them are sometimes extremely difficult to resolve as they relate to very sensitive issues This book examines issues ranging from the status of human rights under US law to the status of the ECHR in the broader context of international law It looks at the role of positive obligations in the case law of the Strasbourg Court as well the impact of its case law on childbirth and push back operation towards boat people but also at the growing unwillingness of ECHR member states to cooperate with the Strasbourg Court It explores the new frontiers in US Capital punishment litigation the first case before the International Criminal Court and the legal effect of judgments of the European Court on third states

Criminal Justice in the 21st Century (4th Edition) Laura J. Moriarty, 2025-03-26 The fourth edition of Criminal Justice Technology in the 21st Century comes just about five years after the COVID 19 pandemic when technology took a more prominent role in our everyday lives and more importantly in the criminal justice system Ideas that once were mere thoughts from academics pondering the future have become everyday realities While most areas of life came to a standstill as the pandemic ensued the criminal justice system could not stop Crime adapts more seamlessly than other aspects of society and as such the criminal justice system needed to adapt as well The contributing authors were asked to consider the pandemic and its impact on evolving technology and advancements to address crime Likewise other societal concerns focusing on law enforcement and its questionable use of force at times have escalated the need for technology to ensure that over policing in minority neighborhoods and accountability is established or not to deescalate violence whether police brutality or protester police violence The impact of technology remains to be seen but there is real hope that such technology can begin to shed light on what is happening in these volatile situations Either the current contributors have updated their chapters from the Third Edition or there are new contributors focusing on the abovementioned issues This fourth edition with more than 20 contributors highlights the most current thinking about criminal justice technology The book is longer than the previous editions but has fewer chapters This is the result of paring down what is included in this new edition The hope is that these chapters will be the most relevant and useful to both the expert and the neophyte Criminal justice technology will continue to advance and we must keep abreast of new trends

Gumpert, 2013 Do Americans have the right to privately obtain the foods of our choice from farmers neighbors and local producers in the same way our grandparents and great grandparents used to do Yes say a growing number of people increasingly afraid that the mass produced food sold at supermarkets is excessively processed tainted with antibiotic residues and hormones and lacking in important nutrients These people a million or more are seeking foods outside the regulatory system like raw milk custom slaughtered beef and pastured eggs from chickens raised without soy purchased directly from private membership only food clubs that contract with Amish and other farmers Public health and agriculture regulators however say no Americans have no inherent right to eat what they want In today s ever more dangerous food safety environment they argue all food no matter the source must be closely regulated and even barred if it fails to meet certain standards These regulators headed up by the U S Food and Drug Administration with help from state agriculture departments police and district attorney detectives are mounting intense and sophisticated investigative campaigns against farms and food clubs supplying privately exchanged food even handcuffing and hauling off to jail under threat of lengthy prison terms those deemed in violation of food laws Life Liberty and the Pursuit of Food Rights takes readers on a disturbing cross country journey from Maine to California through a netherworld of Amish farmers paying big fees to questionable advisers to avoid the quagmire of America s legal system secret food police lurking in
