Civil Litigation:

Civil Litigation in a Globalising World X.E. Kramer, C.H. van Rhee, 2012-02-02 Globalization of legal traffic and the inherent necessity of having to litigate in foreign courts or to enforce judgments in other countries considerably complicate civil proceedings due to great differences in civil procedure. This may consequently jeopardize access to justice. This triggers the debate on the need for harmonization of civil procedure. In recent years this debate has gained in importance because of new legislative and practical developments both at the European and the global level. This book discusses the globalization and harmonization of civil procedure from the angles of legal history, law and economics and European policy. Attention is paid to the interaction with private law and private international law and European and global projects that aim at the harmonization of civil procedure or providing guidelines for fair and efficient adjudication. It further includes contributions that focus on globalization and harmonization of civil procedure from the viewpoint of eight different jurisdictions. This book is a unique combination of theory and practice and valuable for academic researchers in the area of civil procedure, private international law, international law as well as policy makers, national and EU lawyers, judges and bailiffs. The English Legal System Alisdair Gillespie, Siobhan Weare, 2017 The English Legal System combines comprehensive and thorough coverage of the main topics covered on English legal system courses with a lively and engaging style to capture students' attention and provide them with a firm foundation for their study of law. Law Reforms in the ASEAN Emerging Economies Terukazu Suruga, Phanhpakit Onphanhdala, Yuka Kaneko, 2023-05-30 This book reviews the periodic changes in the legal policies of the late developing ASEAN countries often known as the CLMV countries Cambodia Laos Myanmar and Vietnam in their continuous path toward globalization after the collapse of the socialist bloc The book also identifies the characteristics of the legal reforms in their present stage guided by the common framework under the ASEAN Economic Community AEC moving toward 2025 The first stage is illustrated by the ASEAN style utilization of foreign investments as reflected in all investment laws and policies of CLMV countries in the 1990s which featured entry control as sticks and investment incentives as carrots Those controls and incentives were the means to induce investors to assume various performance requirements to contribute to industrial policies The second stage witnessed a shift toward enhanced liberalization as an endeavor toward the WTO accession during the 2000s as seen in the integrated investment laws that appealed for the national treatment of foreign investors At the same time those investment laws emphasized the substantive provisions e g fair and equitable treatment and indirect expropriation and procedural protections e g provision of Investor State Dispute Resolution mechanisms as an appeal for stabilization of the investment climate The third stage of legal policy as evidenced by the recent amendments to the investment laws is newly focused on environmental and social considerations which seems to be an indispensable response to the increasing social protests against the negative impacts of investment promotion Simultaneously the means of administrative controls over investors established in the first stage are uniquely utilized for the realization of new goals **Award of Attorney's Fees in Tax Cases** United States.
