Office of Personnel Management. Library,1988 *Research Handbook on Street-Level Bureaucracy* Peter Hupe,2019 When the objectives of public policy programmes have been formulated and decided upon implementation seems just a matter of following instructions However it is underway to the realization of those objectives that public policies get their final substance and form Crucial is what happens in and around the encounter between public officials and individual citizens at the street level of government bureaucracy This Research Handbook addresses the state of the art while providing a systematic exploration of the theoretical and methodological issues apparent in the study of street level bureaucracy and how to deal with them **Regulating Land and Pollution in China** Benjamin van Rooij,2006 Annotation Many of China s rivers and lakes are strongly polluted the air in cities is amongst the worst in the world while some have warned that if the country is not careful it may soon have insufficient arable land to feed its population This book looks at why the protection of natural resources through stricter legislation and more stringent law enforcement has been so difficult It does so through a combination of a local case with comparative and theoretical insights about lawmaking compliance and enforcement It offers a unique view on how law functions in the world s largest legal system and how such law interacts with the social economic and political circumstances at hand This book offers an incomparable body of empirical and theoretical knowledge for those interested in how law functions in China as well as those interested in the workings of regulatory lawmaking compliance and enforcement in a comparative perspective This title can be previewed in Google Books <http://books.google.com/books/vid/ISBN9789087280130> *Civil Service Management and Administrative Systems in South Asia* Ishtiaq Jamil,Tek Nath Dhakal,Narendra Raj Paudel,2018-06-25 This book examines public administration in South Asia in the context of rapid changes and modernization of administrative traditions thoughts and practices The existing literature has however not given adequate attention to these developments at least in a single volume The book describes both the shared administrative traditions of Bhutan Bangladesh China India the Maldives Nepal Pakistan and Sri Lanka and how far they have adapted their administrative systems to respond to contemporary administrative and governance challenges The book studies how national civil service reforms have been carried out in each member state of South Asia and how the national civil service acts and different regulations are being implemented as well as what are the critical factors associated with the implementation of national civil service acts and reform measures in the region **Runaway State-Building** Conor O'Dwyer,2006-09-14 Here Conor O Dwyer introduces the phenomenon of runaway state building as a consequence of patronage politics in underdeveloped noncompetitive party systems Analyzing the cases of three newly democratized nations in Eastern Europe Poland the Czech Republic and Slovakia O Dwyer argues that competition among political parties constrains patronage led state expansion O Dwyer uses democratization as a starting point examining its effects on other aspects of political development Focusing on the link between electoral competition and

state building he is able to draw parallels between the problems faced by these three nations and broader historical and contemporary problems of patronage politics such as urban machines in nineteenth century America and the Philippines after Marcos This timely study provides political scientists and political reformers with insights into points in the democratization process where appropriate intervention can minimize runaway state building and cultivate efficient bureaucracy within a robust and competitive democratic system

Building Democracy and Civil Society East of the Elbe Sven Eliaeson, 2006-04-18 This book explores the idea of civil society and how it is being implemented in Eastern Europe The implosion of the Russian empire fifteen years ago and the new wave of democratization opened a new field of inquiry The wide ranging debate on the transition became focused on a conceptual battle the question of how to define civil society Because totalitarian systems shun self organization real existing civil society barely existed East of the Elbe and the emergence of civil society took unusually complex and puzzling forms which varied with national culture and reflected the deep historical past of these societies This insightful text relates the concept of civil society and developments in Eastern Europe to wider sociological theories and makes international comparisons where appropriate It discusses particular aspects of civil society and examines the difficulties of establishing civil society It concludes by assessing the problems and prospects for civil society in Eastern Europe going forward

Political Leaders and Changing Local Democracy Hubert Heinelt, Annick Magnier, Marcello Cabria, Herwig Reynaert, 2017-12-19 This book studies political leadership at the local level based on data from a survey of the mayors of cities of more than 10 000 inhabitants in 29 European countries carried out between 2014 and 2016 The book compares these results with those of a similar survey conducted ten years ago From this comparative perspective the book examines how to become a mayor in Europe today the attitudes of these politicians towards administrative and territorial reforms their notions of democracy their political priorities whether or not party politicization plays a role at the municipal level and how

mayors interact with other actors in the local political arena This study addresses students academics and practitioners concerned at different levels with the functioning and reforms of the municipal level of local government

Dismantling Democratic States Ezra N. Suleiman, 2013-12-03 Bureaucracy is a much maligned feature of contemporary government And yet the aftermath of September 11 has opened the door to a reassessment of the role of a skilled civil service in the survival and viability of democratic society Here Ezra Suleiman offers a timely and powerful corrective to the widespread view that bureaucracy is the source of democracy's ills This is a book as much about good governance as it is about bureaucratic organizations Suleiman asks Is democratic governance hindered without an effective instrument in the hands of the legitimately elected political leadership Is a professional bureaucracy required for developing but not for maintaining a democratic state Why has a reform movement arisen in recent years championing the gradual dismantling of bureaucracy and what are the consequences Suleiman undertakes a comparative analysis of the drive toward a civil service grounded in the New Public Management He argues that government reinvention has limited bureaucracy's capacity to adequately serve the public good All bureaucracies have been under political pressure in recent years to reduce not only their size but also their effectiveness and all have experienced growing deprofessionalism and politicization He compares the impact of this evolution in both democratic societies and societies struggling to consolidate democratic institutions Dismantling Democratic States cautions that our failure to acknowledge the role of an effective bureaucracy in building and preserving democratic political systems threatens the survival of democracy itself
