

The background of the book cover is a vibrant, warm-toned prehistoric cave painting. It depicts several scenes: at the top, two human figures are shown in dynamic poses, one appearing to be in a dance or a ritual; below them, a large herd of animals, including horses and deer, is painted in a similar style. The overall aesthetic is that of ancient rock art, with bold outlines and a rich palette of ochre, red, and brown.

Rather than looking at Western civilization only as the history of Europe from ancient times to the present, this groundbreaking book examines the changing nature of the West, how the definition of the West has evolved, and how it has been transformed throughout history. It explores the ways Western civilization has changed as a result of cultural encounters with different beliefs, ideas, technologies, and peoples both outside the West and within it. Presenting a balanced treatment of political, social, religious, and cultural history, this text emphasizes the ever-shifting boundaries of the geographic and cultural realm of the West.
