Evidence-based Conservation Terry C. H. Sunderland, Jeffrey Sayer, Minh Ha Hoang, 2013 The basis of this book is the disparity between the science of conservation biology and the design and execution of biodiversity conservation projects in the field The book argues for an evidence based approach drawing information from fifteen projects in the Lower Mekong regions with the aim of allowing more effective integrated conservation projects *Intellectual Property, Cultural Property and Intangible Cultural Heritage* Christoph Antons, William Logan, 2017-12-06 Intellectual Property Cultural Property and Intangible Cultural Heritage examines various notions of property in relation to intangible cultural heritage and discusses how these ideas are employed in rights discourses by governments and indigenous and local communities around the world There is a strong historical dimension to the book s exploration of the interconnection between intellectual and cultural property intangible cultural heritage and indigenous rights discourses UNESCO conventions discussions in the World Intellectual Property Organization WIPO the Convention on Biological Diversity and the recent emphasis on intangible cultural heritage have provided various discourses and models The volume explores these developments as well as recent cases of conflicts and cross border disputes about heritage using case studies from Asia Europe and Australia to scrutinize the key issues Intellectual Property Cultural Property and Intangible Cultural Heritage will be essential reading for scholars and students engaged in the study of heritage law history anthropology and cultural studies **The Motherland of Civilization is Taiwan** Hsien-Jung Ho, 2023-04-15 The continent of Atlantis and Mu Land the earliest civilization that disappeared by the great Flood has never been found according to my paper presented at an international academic conference in early September 2005 Mega tsunami in northeastern Taiwan at least 12 000 years ago just to find out the earliest civilization lost by mankind it can be inferred from ancient cultural relics that these two are one Taiwan Island Another 6 000 years ago the explosion Volcano of the Seven Star Mountain in Taipei lasted for several years causing Taiwan s ancestors to flee and spread to the islands of the Pacific and Indian Oceans forming a vast territory of the Austronesian language family Color version 18K 416 Pages 420 pictures **Ancient West Asian Civilization** Akira Tsuneki, Shigeo Yamada, Ken-ichiro Hisada, 2016-08-19 This book explores aspects of the ancient civilization in West Asia which has had a great impact on modern human society agriculture metallurgy cities writing regional states and monotheism all of which appeared first in West Asia during the tenth to first millennia BC The editors specifically use the term West Asia since the Middle East is seen as an Eurocentric term By using this term the book hopes to mitigate potential bias i e historical and Western by using a pure geographical term However the West Asia region is identical to that of the narrower Middle East which encompasses modern Iran and Turkey from east to west and Turkey and the Arabian Peninsula from north to south This volume assembles research from different disciplines such as the natural sciences archaeology and philology linguistics in order to tackle the question of which circumstances and processes these significant cultural phenomena occurred in West

Asia Scrutinizing subjects such as the relations between climate geology and human activities the origins of wheat cultivation and animal domestication the development of metallurgy the birth of urbanization and writing ancient religious traditions as well as the treatment of cultural heritage the book undertakes a comprehensive analysis of West Asian Civilization that provided the common background to cultures in various areas of the globe including Europe and Asia These contributions will attempt to demonstrate a fresh vision which emphasizes the common cultural origin between Europe and West Asia standing in opposition to the global antagonism symbolized by the theory of Clash of Civilizations

The Story of Civilization...: Caesar and Christ Will Durant,1944

At the Margins of the Modern State Seyla Benhabib,2025-03-20

The international order of the post WW II period is in disarray The sounds of war can be heard all around us from Ukraine to Gaza from Darfur to the Congo and there is growing skepticism towards human rights and democracy the rule of law and peace among peoples Facile expressions such as Eurocentrism and demise of the West and the rise of the rest miss the real challenge in this situation how to extend moral legal and political universalism to address the experiences of the multitude of humanity for whom western modernity has brought not only equality but also subordination not only emancipation but also domination Benhabib argues that rethinking this universalist project and participating in world building together can be achieved by reconstructing and retrieving the best insights of critical social theory in the Frankfurt tradition and the liberal Kantianism of Rawls and Dworkin In that spirit this volume addresses state and popular sovereignty Third World approaches to International Law the 1951 Refugee Convention and climate change legislation while focusing on the changing fortunes of the European Union and cosmopolitanism Benhabib engages with postcolonial thinkers and argues that although validity claims and relations of domination and inequality are often intermixed it is possible to reconstruct the insights of international law to serve a more inclusive universalism and world building This vibrant defense of human rights and universal norms in an age of political skepticism and extremism will appeal to a wide readership and will be of particular interest to students and scholars in political theory critical theory and law
