LA Forum Reader The Los Angeles Forum for Architecture and Urban Design, 2018-04-01 The LA Forum Reader brings together three decades of discursive writings and publications on architecture urbanism and Los Angeles culled from the archives of the Los Angeles Forum for Architecture and Urban Design Published under thematic sections Experiments Detours Hunches and Santa Anas with

interludes dedicated to Art and Architecture Downtown and the long running LA Forum Newsletter the collected essays and interviews track an uneven and lesser known history of experimental architecture postmodern geographies and alternative urbanism in L A as told by the city s key designers and thinkers Today Los Angeles is a major architectural and urban player but for decades the city was dismissed suburban and centerless In republishing three decades of material on architecture and design in Los Angeles the LA Forum Reader reclaims and reconsiders the city s architectural and discursive histories It establishes or reestablishes a textual context for critical experimentation and urban investigation This anthological volume includes essays interviews and reproductions of publications that have long been out of print including pamphlets by Craig Hodgetts and Margaret Crawford as well as early writings by Aaron Betsky and John Chase Primitive Jo Odgers,Flora Samuel,Adam Sharr,2006-09-27 This innovative edited collection charts the rise fall and possible futures of the word primitive The word primitive is fundamental to the discipline of architecture in the west providing a convenient starting point for the many myths of architecture s origins Since the almost legendary 1970s conference on the Primitive with the advent of post modernism and in particular post colonialism the word has fallen from favour in many disciplines Despite this architects continue to use the word to mythologize and reify the practice of simplicity Primitive includes contributions from some of today s leading architectural commentators including Dalibor Vesely Adrian Forty David Leatherbarrow Richard Weston and Richard Coyne Structured around five sections Negotiating Origins Urban Myths Questioning Colonial Constructs Making Marks and Primitive Futures the essays highlight the problematic nature of ideas of the primitive engage with contemporary debate in the field of post colonialism and respond to a burgeoning interest in the non expert architecture This now controversial subject remains for better or worse intrinsic to the very structure of Modernism and deeply embedded in architectural theory Considering a broad range of approaches this book provides a rounded past present and future of the word primitive in the architectural sphere **Once Upon a China** CJ Lim,Steve McCloy,2021-04-15 Once Upon a China is an unconventional architectural story of great beauty empathy honour and sadness The chapters are ingenious reimaginings of Dream of the Red Mansion Journey to the West The Water Margin and Romance of the Three Kingdoms and are conceived as specific themes of Chinese identity domesticity consumerism democracy and adaptability These four seminal pre modern fictions contain diverse voices and philosophical perspectives on history as well as satires that have defined past developments of Chinese societies politics and the built environment Comics is an unorthodox but extraordinary medium for architectural speculations The eccentric characteristics of comic inspired drawings in this book enrich the processes of conception and conceptualisation of design their fragmented yet sequential nature proves versatile in the imagination of spatial experiences enabling the complex stories of place brief and building to materialise At the same time the politicisation of architecture through comics engenders a sense of optimism to reappraise Chinese design futures and critical thinking beyond the exuberance of non contextual Western capitalist models *Powers Brown Architecture Powers*
