***Timpani Tone and the Interpretation of Baroque and Classical Music*** Steven L. Schweizer, 2010-06-28 *Timpani Tone and the Interpretation of Baroque and Classical Music* explores the nature production and evolution of timpani tone and provides insights into how to interpret the music of J S Bach Handel Haydn and Mozart. In drawing on 31 years of experience Steven L Schweizer focuses on the components of timpani tone and methods for producing it. In so doing he discusses the importance of timpani bowl type mallets playing style physical gestures choice of drums mallet grip legato marcato and staccato strokes playing different parts of the timpano head and psychological openness to the music in effectively shaping and coloring timpani parts. In an acclaimed chapter on interpretation Schweizer explores how timpanists can use knowledge of the composer's style psychology and musical intentions phrasing and articulation the musical score and a conductor's gestures to effectively and convincingly play a part with emotional dynamism and power. The greater part of the book is devoted to the interpretation of Baroque and Classical orchestral and choral music. Meticulously drawing on original sources and authoritative scores from the seventeenth through nineteenth centuries Schweizer convincingly demonstrates that timpanists were capable of producing a broader range of timpani tone earlier than is normally supposed. The increase in timpani size covered timpani mallets and thinner timpani heads increased the quality of timpani tone therefore today's timpanist's need not be entirely concerned with playing with very articulate sticks. In exhaustive sections on Bach Handel Haydn and Mozart Schweizer takes the reader on an odyssey through the interpretation of their symphonic and choral music. Relying on Baroque and Classical performance practices timpani notation the composer's musical style and definitive scores he interprets timpani parts from major works of these composers. Schweizer pays particular attention to timpani tone articulation phrasing and dynamic contouring elements necessary to effectively communicate their part to listeners
